Introduce a New Dimension of Learning and Fun to Your Educational Facility

With CloudBox by CloudB – a modern projector that combines storytelling, light effects, and sounds to support the holistic development of children. Perfect for preschools, language schools, and other spaces where a creative approach to education is key. CloudBox sparks imagination, facilitates language learning, and helps develop social and emotional skills in young children.

Who Are We?

We are Marko, experts with 33 years of experience in distributing toys and more, driven by a mission to support children's development through high-quality products that bring immense joy.

A Unique Tool for Storytelling

CloudBox engages children in magical adventures. Each of its 36 stories introduces kids to a world of fantasy where characters like the brave dragon Drake, the cheerful elephant Elliot, and the curious girl Emma learn values such as friendship, collaboration, and exploring the world.

The Illustrated Storybook

A Key Component of CloudBox

The storybook contains tales, which children can enjoy alongside the audio stories played by the projector. Every page is beautifully illustrated, helping kids immerse themselves in imaginative worlds and supporting their language skills. The bilingual format naturally enhances the language-learning process.

More Than Words: A Visual and Audio Experience

Every story is accompanied by a unique light show, with projections that change throughout the narrative, enhancing the storytelling experience.

Complementary soothing nature sounds, relaxing melodies, and white noise create a calm, friendly atmosphere, helping children unwind.

Available language options:

POLISH-ENGLISH

SPANISH-ENGLISH

FRENCH-ENGLISH

GERMAN-ENGLISH

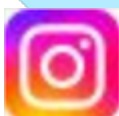

What Makes CloudBox Special?

- Bilingual Stories: 36 tales in two languages make learning foreign language engaging and fun.
- Visual Spectacle: Synchronized light projections stimulate children's imagination, enriching lessons and language activities.
- Multisensory Experience: Calming melodies and white noise help children focus, relax, and create a peaceful environment for learning.
- Recording Function: Record your own stories to personalize educational content, engage children, and support language development.
- Emotional and Social Growth: Stories featuring nine different characters teach children about friendship, sharing, and discovering the world, fostering emotional development.

With CloudBox, learning becomes not just enjoyable but also a fascinating journey into magical worlds filled with adventures.
