

cloud·box™

my first dream box

CloudBox™ is a unique storytelling box that combines sounds, light projections, and educational elements!

CloudBox™ is an innovative projector that narrates 36 charming stories in two languages, featuring 9 characters with very different personalities. The synchronized light projections provide a visual experience that no other product on the market offers.

Foreign Language Learning

Each of these characters appear in four different stories, available in two languages. With this product, children can not only have fun but also gain educational experiences that inspire them to explore new worlds and develop language skills.

CloudBox™ is the first projector that tells stories!

It is designed for children aged 0–8 years.

4 Universes - 4 Light Projections

The light projections change with each story, creating a visual spectacle that brings the narration to life!

Storybook

In the illustrated booklet, children will find adventures of the characters that help them learn about sharing, discovering the world, and most importantly, building friendships. To give the toy a more personal touch, there is an option to create 8 custom recordings featuring unique stories recorded specifically for the child.

The funny **elephant Elliot**, the brave **dragon Drake**, the adventurous little **girl Emma**, and many other characters embark on journeys through 4 luminous worlds: **the forest, the ocean, the starry night**, and **the village**. Their adventures teach them about sharing, exploring the world, and most importantly... friendship.
