Creating Unique Memories and Sparking Imagination

Introducing CloudBox by CloudB – a modern projector that combines storytelling, light effects, and sounds to support the holistic development of children. It ignites creativity, simplifies language learning, and helps enhance social and emotional skills in the youngest learners. CloudBox tells captivating tales through synchronized light projections and soothing sounds.

Who Are We?

We are Marko, experts with 33 years of experience in distributing toys and more, dedicated to supporting children's development by delivering high-quality products filled with joy and wonder.

A Unique Tool for Storytelling

CloudBox engages children in magical adventures. Each of its 36 stories introduces kids to a world of fantasy where characters like the brave dragon Drake, the cheerful elephant Elliot, and the curious girl Emma learn values such as friendship, collaboration, and exploring the world.

The Illustrated Storybook

A Key Component of CloudBox

The storybook contains tales, which children can enjoy alongside the audio stories played by the projector. Every page is beautifully illustrated, helping kids immerse themselves in imaginative worlds and supporting their language skills. The bilingual format naturally enhances the language-learning process.

More Than Words: A Visual and Audio Experience

Each story is accompanied by a unique light show, with synchronized projections that enhance the storytelling experience.

Additional soothing sounds of nature, relaxing melodies, and white noise create a calming atmosphere, helping children unwind.

Available language options:

POLISH-ENGLISH

SPANISH-ENGLISH

FRENCH-ENGLISH

GERMAN-ENGLISH

What Makes CloudBox Special?

- Bilingual Stories: 36 tales in Polish and English, making foreign language learning engaging and accessible.
- Visual Spectacle: Synchronized light projections spark children's imagination and enrich lessons or language activities.
- Multisensory Experience: Relaxing melodies and white noise help children focus, calm down, and create a peaceful learning environment.
- Recording Function: The ability to record personalized stories allows for customized educational content that captivates children and supports language development.
- Emotional and Social Growth: Stories with nine diverse characters teach lessons about friendship, sharing, and discovery, fostering emotional development.

With CloudBox, learning becomes a delightful journey to magical worlds filled with adventures.
