

Spanish brand Miniland – a synonym for quality and functionality in childcare.

When traveling, where access to a kitchen or refrigerator is limited, Miniland’s thermoses and insulated bags are indispensable. Their food and drink thermoses maintain temperature for up to 24 hours, thanks to double-walled 18/8 stainless steel construction. The insulated bags and accessories help organize and store meals in a hygienic way.

Miniland products are safe, stylish, and exceptionally durable, and their compact size makes them perfect for travel.
