Feel to Learn: Translucent colorful Lizard

This lizard is more than a toy: it is a tool for exploring and experimenting with colors. It's a nestable sensory toy for children from one year of age that contains 10 translucent pieces (in 5 main colors). The game is played by placing two pieces in each hole of the lizard's body, which allows them to discover for themselves the result of the color mixtures and be surprised with the result, either in a light table or without it. As it is a lacing game, it also promotes fine motor skills and hand-eye coordination.

A great toy to see the world with different eyes!

- Nestable game of sensory experimentation of low age (from 12 months).
- To discover and mix colors through 10 translucent colored pieces (2 of each color).
- Encourages the development of fine motor skills and hand-eye coordination.
- Compatible with light tables.
- Promotes autonomous play and experimentation.
- Game made in Spain, with eco-friendly materials: 95% recycled ABS + 5% recyclable material.
- 100% recyclable.

Product name	Feel to Learn: Translucent colorful Lizard
Recommended age	1-2 years
