Company org. number; NO 977 194 105.

### BeSafe Products / [www.Besafe.com](http://www.Besafe.com)

#### 1. General Safety Requirements

All BeSafe products meet applicable safety standards and regulations and are tested for safety and quality assurance.

All BeSafe car seats and bases are in conformity with the standard in Annex IV of regulation (EU) 2018/858 "Enhanced Child restraint systems according to UN R129", and Annex XVII of the REACH regulations.

The products are marked with approval labels in accordance with Annex IV of regulation (EU) 2018/858 for reference for each product approval.

All our BeSafe seats and bases are approved by RDW The Netherlands, Vehicle Admission & Surveillance.

We use accredited test labs to perform the COP testing and other required tests for us. We confirm that the test result and test reports are done according to requirements and approved by HTS BeSafe AS for every test.

#### 2. Labeling and instructions

All BeSafe products are marked with required safety information and comprehensive instructions for safe use are included either in paper or digital format (QR code). These can also be found on our website.

Any warning and safety information is clearly stated in the instruction manuals available online.

BeSafe seats and bases are marked with approval labels in accordance with Annex IV of regulation (EU) 2018/858 for reference for each product approval.

#### 3. Traceability and contact information:

The products can be traced back to the production facility and production batch. Records of production and distribution are maintained.

All products are marked with HTS BeSafe and contact details.

**Voksi Products / [www.voksi.com](http://www.voksi.com)****1. General Safety Requirements**

The products meet all applicable safety standards and regulations. Necessary risk assessments are conducted.

All Voksi products comply with Oeko-Tex Standard 100, class 1. This esteemed standard not only grants a certificate but also guarantees the highest level of compliance. The Oeko Tex certificate ensures compliance with REACH. Our certification confirmation can be found at our [www.voksi.com](http://www.voksi.com)

**2. Labelling and instructions**

All products are marked with the required safety information and instructions where applicable.

**3. Traceability and contact information:**

The products can be traced back to the production facility and production batch. Records of production and distribution are maintained.

All products are marked with HTS BeSafe and contact details.

**Additional information:**

HTS BeSafe AS conducts annual audits at our production sites to verify that ISO certificates and other relevant standards are correctly implemented. We also follow up with suppliers to ensure compliance with our code of conduct and check adherence to various aspects of the Transparency Act, maintaining our commitment to ethical and transparent business practices.
