

THE *book*

SPRING SUMMER | ALL YEAR 2022-23

THE BRAND

A large number of small, dark grey bird silhouettes are scattered across the left and top portions of the page. They are depicted in various flight poses, some facing left, some right, and some in the middle of a wingbeat, creating a sense of movement and air. The birds are of varying sizes, with some appearing larger and more detailed than others.

VOKSI has been an essential part of the Scandinavian childhood for over 30 years. All through the year the Scandinavian air surrounds you and your child on every walk, long or short, and becomes an essential part of every memory you build together as a family. Every day, the signature of a Scandinavian childhood is the safety of a hand to hold, the warmth of eyes connecting and the loving embrace of a parent when the world gets a bit too big. You see, we are not only talking about Scandinavia as a geographical location but as a mindset and a way of living. It is simply about joy, love and togetherness. When introducing our collections, our wish is to bring you a touch of our Scandinavian inspired philosophy, gently surrounding your child, providing safety, warmth and a loving embrace - both for indoor and outdoor activities. So to parents all over the world, we hope to create a gentle touch of the Scandinavian warmth for your child, together with you. That is why we proudly sign our brand «Scandinavian childhood».

VOKSI[®] CARRY

Voksi[®] Carry is our all year carrier sleeping bag it comes with a carryboard included. Use Voksi[®] Carry on the go, with the carryboard you can easily move your child when sleeping.

Voksi[®] Carry is developed to be used in prams with a 2 point harness. For this reason there is only 2 pre-cut holes in the back for the harness, not 5 (or more), as on our other sleeping bags.

Use with carryboard in a pram up until the child weighs 9 kg and use in a pram without the carryboard up to age 3. Voksi[®] Carry can be folded in multiple ways to perfectly adjust it to your child's height as well as to the temperature conditions and your child's preference. With its flexible closing system, this bag will grow with your child from 0 to 3 years. Voksi[®] Carry has been safety tested for the carrycot standard DS/EN 1466:2014.

VOKSI® Baby Nest Premium

A cozy and comfortable
place for your baby.

Voksi® Baby Nest Premium is a cozy and comfortable place for your baby to lie. The egg-shaped Baby Nest simulates the feeling of being in the mother's womb and gives your baby a feeling of protection, warmth and being nestled down. To provide the child with the highest safety possible, the Voksi® Baby Nest has been tested against manifold standards and has undergone several risk assessments, e.g. by SGS France.

USE

MATERIALS

CERTIFICATIONS

WHY? Supply chains in the textile industry are long and incredibly complex. The transformation from raw materials into finished products include many processes, a lot of people and the same amount of promises. When using independent third party certifications we can rest assure that our materials are of the quality we demand and that the promises are kept. We put our trust to STANDARD 100 by OEKO-TEX, Global Recycled Standard, Responsible Wool Standard and Responsible Down Standard. Look out for the logos on each product to see how the products are certified.

We see it as our greatest job to make products that are safe for babies and children. Oeko-tex is our assurance that our products are free from harmful chemicals and substances. All components of a product need to comply in order for a product to receive the certificate. Fabrics, strings, threads, buttons, zippers, dye colors, prints, production processes, everything. In 2017 we launched our very first products produced solely with materials complying with the STANDARD 100 by OEKO-TEX®, Class 1. The process was long and complex but it was an important step for us to take. Since 2017 all our products, which are in direct contact with the child, are certified with class 1. Our certificates from Oeko-tex are extremely valuable to us because it gives our customers added confidence in our products. We have two certificates, one covering our wool collection and one covering all other products.

IN SHORT

- There are no harmful chemicals and substances in the materials or production processes
- All Voksi products, in direct contact with the child, are certified with class 1. There are 4 different classes, class 1 being the strictest.

GLOBAL RECYCLED STANDARD

As much as possible we strive to use natural materials. For some products though, we use polyester and other non-natural fibres due to durability and performance requests. When doing this our aim is to use recycled fibres whenever possible. Our recycled polyester is made from post-consumer PET, often plastic bottles. To make sure that the fibres are in fact recycled we retrieve a certificate from GRS - Global Recycling Standard. GRS tracks materials from input to the final product, and also ensures responsible social, environmental practices and chemical use through production.

IN SHORT

- The Global Recycled Standard certificate assures that a material is made from recycled content.
- From 2019 Voksi has used recycled polyester filling in the following products: Breeze Light, Sky Light, Carry and Carry North
