Cleaning the seat

Clean using a damp cloth and a mild cleaning agent. Baby wipes work perfectly. A pencil eraser can be used to eradicate more resistant marks. Small dents on the outer surface of the seat can be resolved by aiming hot air from a hair dryer to the affected area for 1 minute. The carrycot mattress, the seat pad and the shoulder pads can be removed and hand washed in accordance with the following guidelines:

- Maximum temperature 30°C
- Do not use bleach
- Do not tumble dry
- Do not iron
- Do not dry clean

Cleaning the chassis

Wash off sand and salt residue after going to the beach. Remove excess dirt and then clean with a damp cloth and a PH neutral cleaning agent.

Lubrication of moving parts

Periodically lubricate the wheels, the hinges and other sliding parts using an oil or silicone based lubricant.

Follow these steps regularly in order to keep the prams in perfect condition.

The fabrics and plastics are highly resistant, but excessive sun exposure can cause discolouring.
