Cleaning the seat

Clean using a damp cloth and a mild cleaning agent. Baby wipes work perfectly.

A pencil eraser can be used to eradicate more resistant marks.

Small dents on the outer surface of the seat can be resolved by aiming hot air from a hair dryer to the affected area for 1 minute.

The carrycot mattress, the seat pad and the shoulder pads can be removed and hand washed in accordance with the following guidelines:

- | | |
|--|--|
|  Maximum temperature 30°C |  Do not iron |
|  Do not use bleach |  Do not dry clean |
|  Do not tumble dry | |

Cleaning the chassis

Wash off sand and salt residue after going to the beach.

Remove excess dirt and then clean with a damp cloth and a PH neutral cleaning agent.

Lubrication of moving parts

Periodically lubricate the wheels, the hinges and other sliding parts using an oil or silicone based lubricant.

i Follow these steps regularly in order to keep the prams in perfect condition.

⚠ The fabrics and plastics are highly resistant, but excessive sun exposure can cause discolouring.
