WITH MINILAND, THE FUTURE STARTS NOW

At Miniland, we believe that every child is a great opportunity to change and grow together as a society. We know that our brand is just a grain of sand, but we're convinced that a better future is possible. A future without differences or barriers, one that's open and respectful, full of challenges and possibilities for everyone. And we not only believe this, but we also work to achieve it.

The journey is always better when it's shared. That's why we get involved in the work of families, teachers and caregivers to build together that fair and inclusive future we dream of.

Our aim is to accompany families, of whatever type, so that they can enjoy each stage of their baby's development to the full, with the utmost peace of mind. That's why, over the last 60 years, we haven't stopped evolving to create solutions that help children develop, inside and out.

We know that life is full of firsts, and we strive to make those moments that sometimes frighten or fill us with doubts the most enriching. Their first heartbeats, their first look, their first bath, their first steps in weaning, their first achievements...

We want little ones to prosper healthily, both physically and mentally, opening the way to a world full of opportunities where they can reach their full potential. Today they're children, but tomorrow they'll be adults. And they're the best legacy we can leave the world.

WE CONTINUE INNOVATING FOR A BETTER WORLD AT MINILAND

We take great pleasure in working for the future of all, the children. And that's why, once again, we bring you a catalogue brimming with solutions designed to make family life easier and enhance the care of the little ones. Among our novelties, we present a new accessories collection for infant feeding and baby care that exudes a warm and pleasant air, very much in line with our homeland: our valencia collection.

It includes solutions to support them in feeding, from day one and in the introduction of complementary feeding, enjoying outdoor snacks, being there during bath time, or by their side when they are unwell. At Miniland, we are parents too, and we understand how much a baby's sleep concerns parents. Therefore, we have also designed an innovative, useful and compact baby monitor that allows parents to see, hear, and communicate with their baby from any point in the house in a simple and effective way.

As always, we strive to stand by families and assist them in their daily lives with useful baby care solutions. We are also including nail care, an electric nail file with interchangeable heads to quickly, easily, and safely file the delicate nails of the baby. We're also offering the Mini Steamy Sterilizer, which is fast, easy to use, and has the capacity for 4 bottles.

We hope you enjoy these and many other novelties that you will discover in this new catalogue. Through it, we hope to continue accompanying you on this journey, of which our customers are an indispensable part.

WE HELP YOU AT THE POINT OF SALE

At Miniland we like to accompany our clients, offering them solutions for the sales point. Our objective is to help you with the sale enabling the display of both brand and product, so that families find the option that best suits their needs in an easy and simple way.

For this reason, we have developed a catalogue of Merchandising solutions with different proposals for generic brand materials, PLV, standing and desktop displays, etc... that we put at your disposal.

OUR AWARDS

INSPIRED BY YOU AND YOUR BABY!

Every pregnancy and every baby is different, as any family is. There's no instruction manual... No matter how hard we try! That's why at Miniland we've developed a highly useful and fully customisable tool: Miniland emybaby®. This app focuses on both, the pregnant mother's wishes and the baby's needs during the first months of life in order to make this incredible adventure easier, safer and calmer.

Miniland emybaby® is designed taking into account everything families need to be better organised and enjoy every stage of their baby's development to the full, even before birth. They can use it to listen to and feel the excitement of their baby's first heartbeats, follow their baby's evolution during these first months full of changes, prepare the most nutritious and delicious recipes, keep track of all their pre-natal, paediatric and vaccination appointments so that they don't miss a single one, save and share photos... And much more!

We're so happy with Miniland emybaby® because it's a project born from the experience we've gained over more than 60 years alongside thousands of families, learning to improve together every day. Thank you for helping us make it possible!

Discover all we can offer you with miniland emybaby®

PREGNANCY. Connected from the first heartbeat

During pregnancy, a unique bond is created between the family and their baby that will last a lifetime. And even more with Miniland emybaby®! Because this app connects to the sweetBeat heart listener, with which we can listen to and feel the excitement of sharing the baby's heartbeat from the 16th week of pregnancy. So sweet! Moreover, you can keep track of all your pregnancy from this section too.

BABY. Everything under control

Feeling in control provides peace of mind. Miniland emybaby® gathers all the data on the evolution of your baby's weight, height, head circumference and temperature in a single application so that this data is always available and can be shared if necessary. And how do you enter the data? It couldn't be easier: either manually or automatically, in the case of our connected devices such as scales or thermometers. This makes it much easier to keep track of everything.

NUTRITION. Feeding their development

Starting weaning can be a challenge for families. That's why our app also provides you with solutions for this, with expert advice, ideas and recipes for our chefy 6, whether you're using BLW or feeding your baby with purées. This way we stimulate our babies' development and also the imagination of those caring for them.

SLEEP: Sweet dreams

Bedtime is essential for babies and their families. At Miniland, we know this, which is why we've integrated endless possibilities into Miniland emybaby®, including lullabies to help them get to sleep and the most relaxing sounds, such as those taken from nature. And with our musical plush toys they can also listen to their parents' soothing voices. Because sleeping also helps them grow!

APPOINTMENTS. Always up to date

When your diary's overflowing with pre-natal, paediatric or vaccination appointments, you'll be thankful for an app that brings a bit of order to your life. Miniland emybaby® has taken this into account and helps families manage their appointments so they don't miss a single one. Wave goodbye to stress!

AND MUCH MORE.

You can also find all the connected Miniland products in a single application, as well as keeping up to date with the latest news and exclusive contents for parents.

HOW CAN YOU PROMOTE IT IN YOUR SHOP?

To make this promotion known to end customers, we have developed the following POS material. Contact your sales representative to ask for yours!

REST FOR LITTLE ONES AND FOR THEIR PARENTS

We know that babies' sleep and safety are some of the most important issues for today's parents, which is why at Miniland we design innovative baby monitors that give families peace of mind when their little ones are sleeping.

OUR INTENTION IS TO GIVE PARENTS EXTRA PEACE OF MIND BY OFFERING A LIFETIME GUARANTEE ON ALL OUR BABY MONITORS

DO YOU WANT TO KNOW HOW OUR LIFETIME GUARANTEE WORKS?

All baby monitors sold from 2022 on, must be registered on the website www.emybaby.com or the app miniland emybaby by the users within 3 months of purchase, by completing a simple form.

WHICH BABY MONITORS ARE COVERED BY THE LIFETIME GUARANTEE?

WE ACCOMPANY YOU ON THIS NEW ADVENTURE

OUR AFTER-SALES SERVICE, YOUR COMPANION

Parenting is a shared journey of **respect and commitment**. That's why at Miniland we like to accompany families beyond the purchase of our products, resolving their questions, queries and incidents directly and quickly through our **after-sales service**.

Making things easier for all those who come with us on this journey is at the heart of our brand, which is why we want to free points of sale from these operations by offering a direct service when it comes to managing the **guarantee** that covers our products or resolving **questions** or **queries**.

If families have any queries or incidents after purchasing one of our products, we encourage you to consult our after-sales service, one of our most important added values as a trusted brand.

You can talk to us by phone or e-mail:

After-sales phone no.: +34 966 557775
Monday to Friday from 9 am to 2 pm.
e-mail: teayudamos@miniland.es

Note: For the moment, our direct after-sales service applies within mainland Spain and the Balearic Islands. For other locations, you can contact your local distributor.

CUSTOMER SERVICE, TOGETHER WE CAN GO FURTHER

As a Miniland customer, we want to offer you a personalised service that lives up to the expectations you've placed in us, advising you about our products and services.

We assure you that our team will deal with your query in a friendly, agile manner and will resolve any questions you may have when processing your orders and whatever else you may need.

You can therefore talk to us directly by phone or e-mail:

Customer service phone no.: +34 965 564 950
Monday to Thursday from 9 am to 1 pm and from 3 pm to 6 pm.
Fridays from 9 am to 2 pm.

e-mail: ventas@miniland.es

You can now access our B2B platform where you'll be able to browse our most up-to-date catalog, place your orders and track them in a simple and intuitive way, in addition to obtaining exclusive promotions.

valencia collection

2024

A CAREFULLY DESIGNED COLLECTION TO ACCOMPANY YOU DURING YOUR FIRST MONTHS OF LIFE

Miniland's new collection of accessories for infant feeding and baby care exudes a warm and pleasant atmosphere, very much inspired on our land. Its motifs transport us to a dreamy life in the countryside where leaves, light, citrus fruits, serenity, and family are part of everyday life.

When you have a baby, time flies, and that's why it's important to find ways and time to spend with them. It's those family moments that fulfill our lives and that we cherish as time goes by: feeding your baby their porridge, accompanying them during complementary feeding, taking them for a walk, having an outdoor picnic together, or staying by their side when they're unwell.

Within this collection, you will find thermoses for liquids and solids, insulated covers to carry the thermoses anywhere, thermal bottle with a teat, hermetic containers set to organize their meals, as well as sets of anatomical and evolutionary cutlery. It also includes pacifier holders, a cover for health documents and documents holder, a baby care kit, and an easy-to-use thermometer kit for all situations.

thermobaby 89590

240 ML STAINLESS STEEL THERMAL BOTTLE WITH NIPPLE

-  No spills
-  Graduated
-  Cold and hot foods
-  Learning handles
-  To take anywhere

Maintains liquid temperature for longer

The Miniland Thermobaby preserves cold or hot beverages for an extended period, thanks to its double stainless steel wall, allowing children aged 0 to 2 years to enjoy their drinks anywhere they go.

Nipple stays clean and spill-free anywhere

With the protective cap of the Thermobaby, the nipple remains clean and ready to use at all times. Additionally, it prevents unwanted spills during transportation.

Exceptional quality materials

Made with 18/8 stainless steel (304 stainless steel) on the inside, which has very low thermal conductivity and excellent resistance to high temperatures, making it the most suitable for food preservation.

Ideal capacity and controlled quantities

The 240 ml Thermobaby features a convenient measurement scale on the inside.

Easy to hold

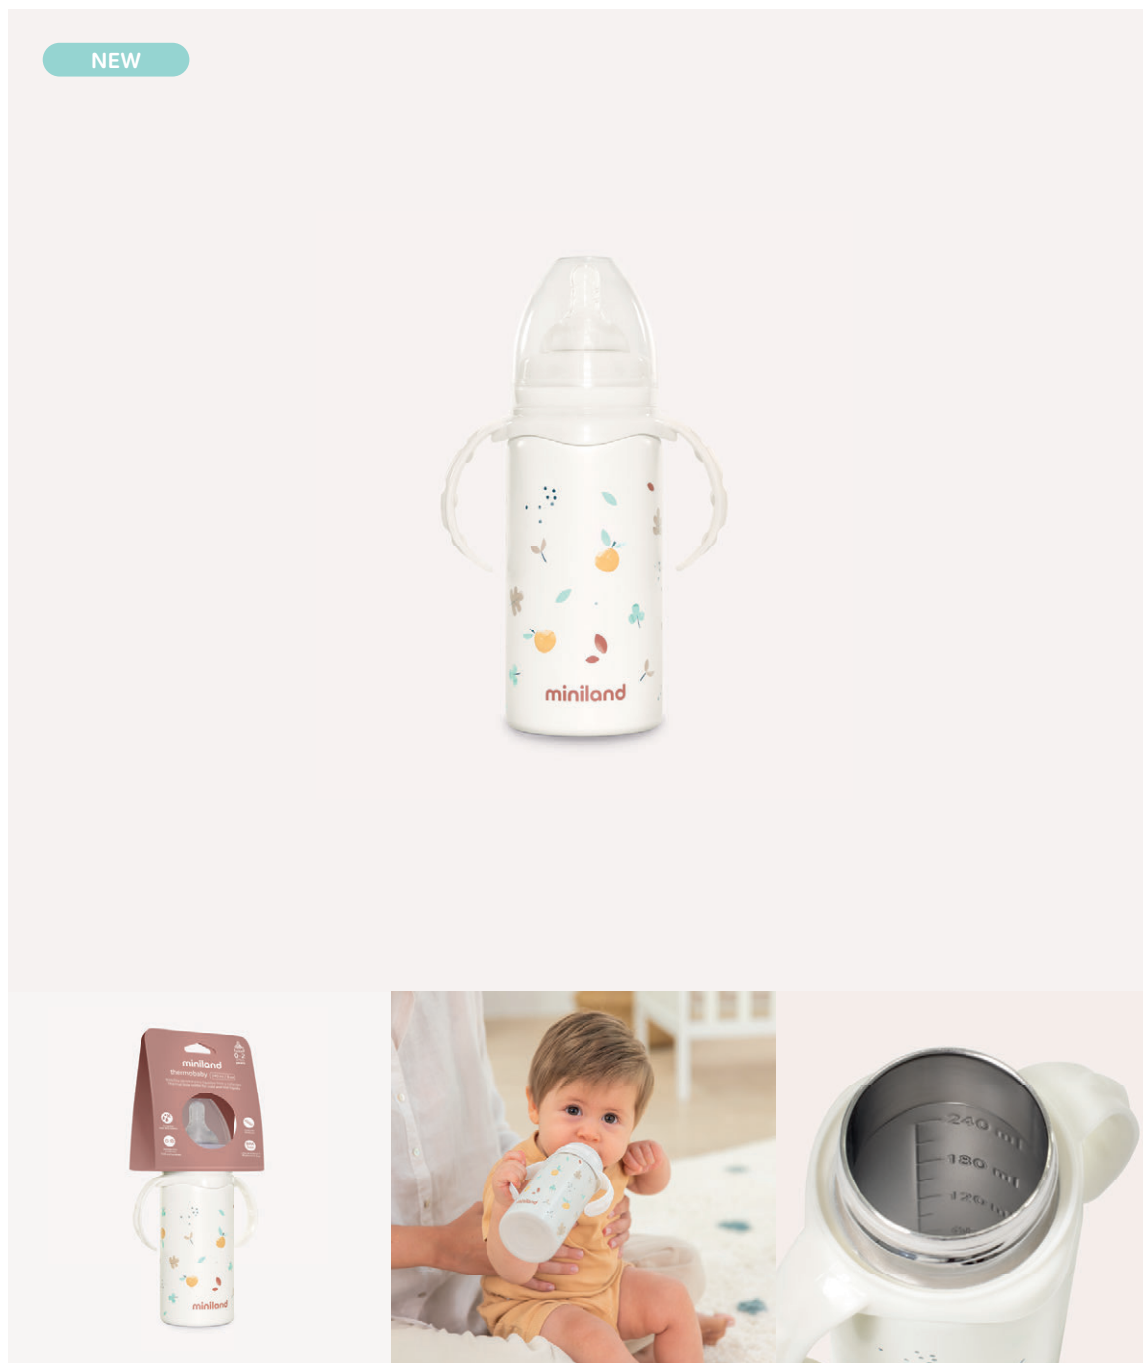

Thanks to its side handles, the baby can easily grip the thermal bottle with their little hands. The handle can be easily removed or attached as desired.

Pleasant exterior design

With a smooth and pleasant-to-touch finish, it showcases nature-inspired motifs. A friendly, relaxed, and warm design that easily complements any style. Bisphenol-A free 100% BPA-free.

No bisphenol A

100% BPA free

thermy 89571 / 89572

350 ML AND 500 ML LIQUID THERMOSES WITH RUBBER EXTERIOR

-  Very effective
-  Perfect for baby's meals
-  Triple insulating layer
-  Easy pouring system
-  Anti-drip system
-  To take anywhere
-  Exceptional quality
-  Easy cleaning
-  Soft touch

Maintains liquid temperature for over 24 hours

Miniland thermoses boast high resistance and efficiency due to their double steel wall with an exclusive copper layer and vacuum chamber.

Easy pouring system With

Thermy, parents won't spill a drop of the content thanks to its easy pouring and one-finger press-to-close system, allowing for easy opening and closing without unscrewing the inner cap.

Exceptional quality materials

Made with 18/8 stainless steel (304 stainless steel), which has very low thermal conductivity and excellent resistance to high temperatures, making it the most suitable for food preservation.

Baby feedings always ready

Parents can prepare baby feedings at home and take them anywhere, maintaining the desired temperature for many hours.

A perfect gift option for newborns

Miniland's Thermy features a warm and original design inspired by the soft colors of the Mediterranean forest. Both models have a rubber-like soft-touch exterior finish.

Detachable and easy to clean

Disassemblable and easy to clean Both the thermoses lid, which can be used as a cup, and the valve are removable, facilitating the cleaning of all components.

Bisphenol A free

RANGE OF 280ML THERMOSES FOR SOLID FOOD IN RUBBERY FINISH

-  For any kind of food and mashes
-  To take anywhere
-  Triple insulating layer
-  Easy cleaning
-  Exceptional quality

Suitable for all types of solid foods

Ideal from the first purees to all kinds of solid foods.

Materials of exceptional quality, the best on the market!

With a double steel wall and an exclusive copper layer. Made with 18/8 stainless steel (304 stainless steel), which has very low thermal conductivity and excellent resistance to high temperatures. The most suitable for food preservation.

Perfect for feeding directly from the container

They are highly suitable for feeding the baby directly without the need to transfer the contents to a bowl or plate. The 700ml Thermetic model features two convenient inner containers of 350ml and 200ml that can be independently heated in the microwave.

Design inspired by the softness and warmth of nature

With a smooth and pleasant rubber-like finish, it features delightful motifs inspired by nature. A friendly, relaxed, and sweet design that easily complements any style.

Convenient for on-the-go use

They have the ideal size for taking anywhere. Perfect for travel or leaving the baby in the care of someone else. Available in sizes of 280ml, 600ml, and 700ml.

Bisphenol A free

PRACTICAL INSULATED BAGS FOR LIQUID THERMOSES AND BABY BOTTLES

- Isolating
- Convenient handle for hanging
- High quality materials
- Upper opening with zip
- Four sizes
- To take anywhere

Helps maintain temperature

An extra layer of insulation for thermoses protects them from ambient temperature changes and helps maintain the temperature of the food.

A warm touch for thermos of all sizes, both liquids and solids

The Thermibag insulated sleeves have been specially designed for thermos of approximately 350ml, 500ml, and 700ml, depending on the model. Their design allows them to accompany different Therymy models with the soft ivory color characteristic of this collection.

Durable materials for added protection

Manufactured with highly resistant materials, they improve the thermoses preservation against abrasion and protect them from impacts and scratches.

Top zipper opening

With the zipper opening located at the top of the thermal bag, the thermoses can be easily used without the need to take it out.

Easy to take anywhere

Parents can choose the size that best fits each thermoses and take it anywhere. Perfect for traveling or leaving the baby in the care of someone else. Additionally, the bag has a handle for hanging it on the stroller with total convenience.

SET OF AIRTIGHT CONTAINERS IN THREE SIZES

 200 ml, 250 ml and 330 ml	 To take anywhere
 Allows writing in pencil	 Preserve the properties of food
 Graduated	 Ideal for freezing and heat.
 Stackable	 Ideal for breast milk
 Made in Spain	 The 12-piece set includes two types of spoons

Sets available in various sizes and configurations

The 12-piece set of hermetic containers consists of 4 jars of each capacity: 200ml, 250ml, and 330ml. Additionally, this set includes two types of spoons, a softer one for younger children to protect their gums and a deeper one for older children.

The 4-piece set of hermetic containers comprises 4 practical 250ml jars.

Precise control of baby feedings

The measurements on the container allow adjusting the feeding according to the baby's needs at any given moment. Additionally, the side surface allows pencil writing of details such as the baby's name, date, and type of food or meal for better control.

Preserve breast milk

Highly suitable for storing breast milk, whether for refrigerating and consuming on the same day or for long-term storage in the freezer.

For all types of solid or liquid foods

Ideal for first purees and all kinds of solid foods, from snacks and snacks to desserts. It is also suitable for other liquid foods such as broths, consommés, or natural juices. Additionally, the 12-piece set of containers includes two types of spoons, a softer one for younger children to protect their gums and a deeper one for older children.

Made in Spain

Graduated hermetic containers made in Spain with high-quality materials.

Frozen and thawed foods with all guarantees

Baby's food remains preserved in the freezer while maintaining its nutritional properties, aroma, and taste. The graduated cup is microwave-safe, allowing for convenient and safe thawing of foods in an instant.

Heat anywhere

Very convenient for heating food directly in the container, using bottle warmers, microwaves, or a water bath, right at the time of feeding.

Baby feedings always ready, whether in the mountains, at the beach, or at the park!

Allows parents to prepare feedings at home and take them anywhere. They have the ideal size for carrying in a bag, any insulated bag, or cooler.

FABRIC PORTABLE PACIFIER HOLDER WITH HANDLE

-  To take anywhere
-  180° opening
-  Upper opening with zip
-  High quality materials
-  Waterproof fabric
-  Convenient hanging handle

Always keep pacifiers clean

Protects the pacifier from impurities and external agents, keeping it clean whether at home or on the go; facilitating comfortable and hygienic transportation.

Handle to easily secure it anywhere

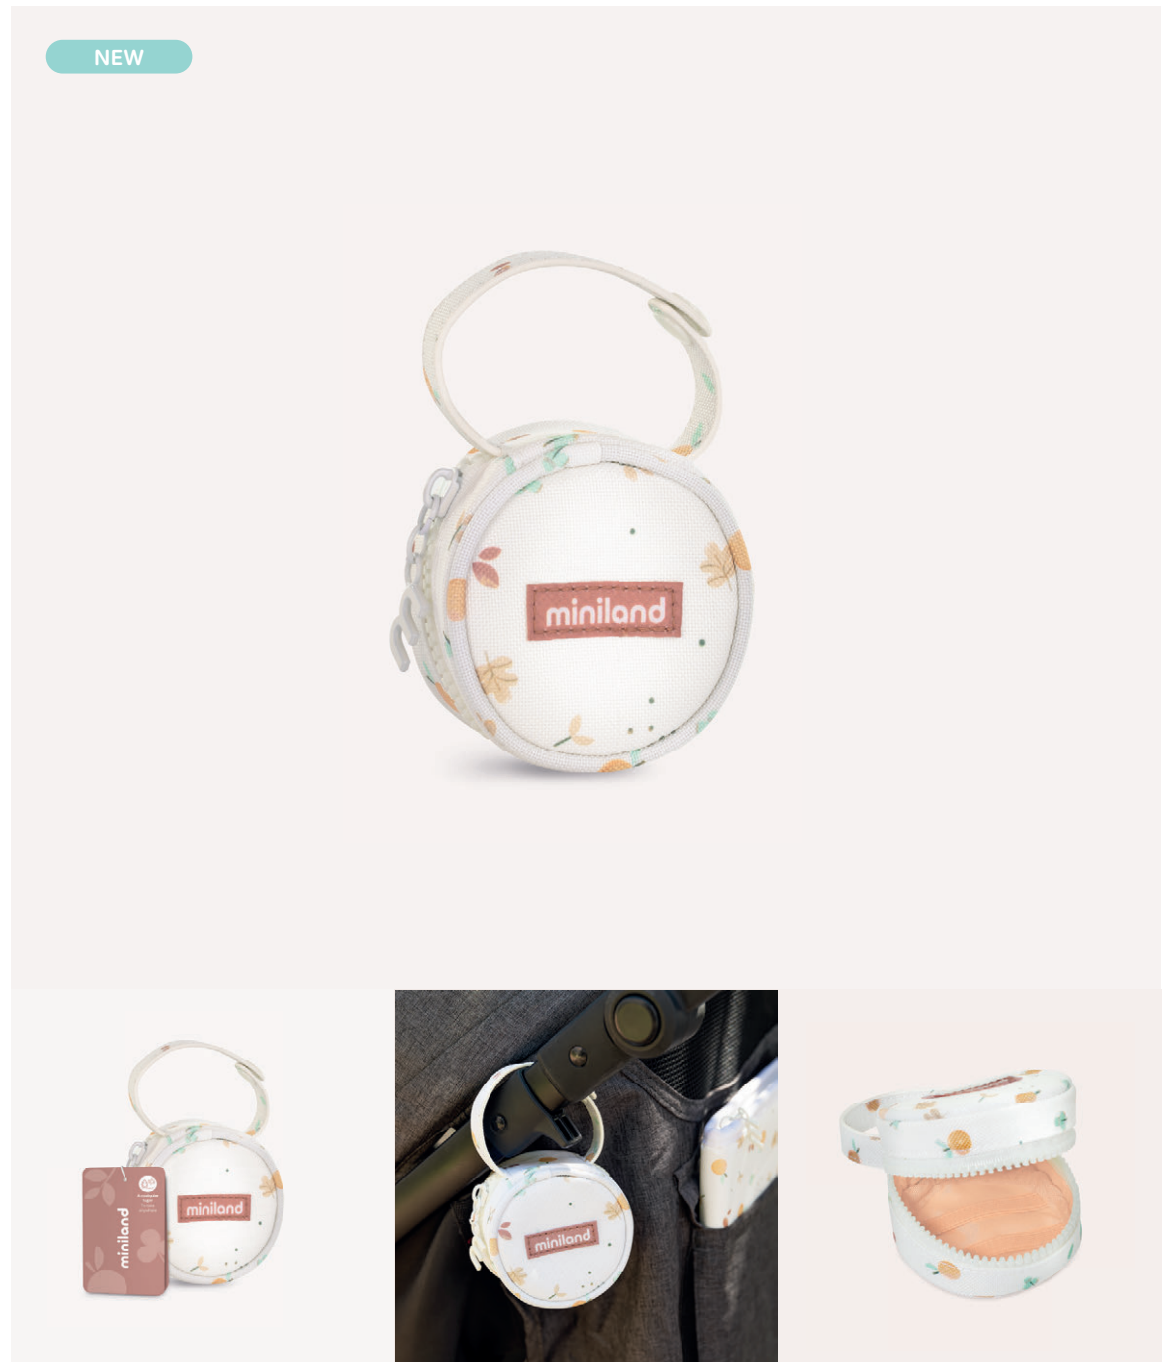

Includes a handle with a button end to attach it to the crib, stroller, or bag, keeping it within reach at all times.

Zipper closure for added security

Ensures the pacifier remains in perfect condition with the zipper closure.

Highly convenient

Its waterproof fabric is easy to clean, and it has interior straps to hold the pacifier in place when opened, preventing it from falling out.

carebook 89585

SANITARY CARD HOLDER AND DOCUMENT HOLDER

-  To take anywhere
-  180° opening
-  Opening with zip
-  High quality materials
-  Waterproof fabric

Always at hand during medical visits

Protects the sanitary card from wear and tear due to use and keeps all the baby's documents well-organized and easily accessible for all pediatric appointments.

Visible documentation in additional compartments

Various compartments with transparent pockets of different sizes allow for well-organized and visible storage of the sanitary card, as well as other medical cards, prescriptions, or appointment records.

Zipper closure to keep all data safe

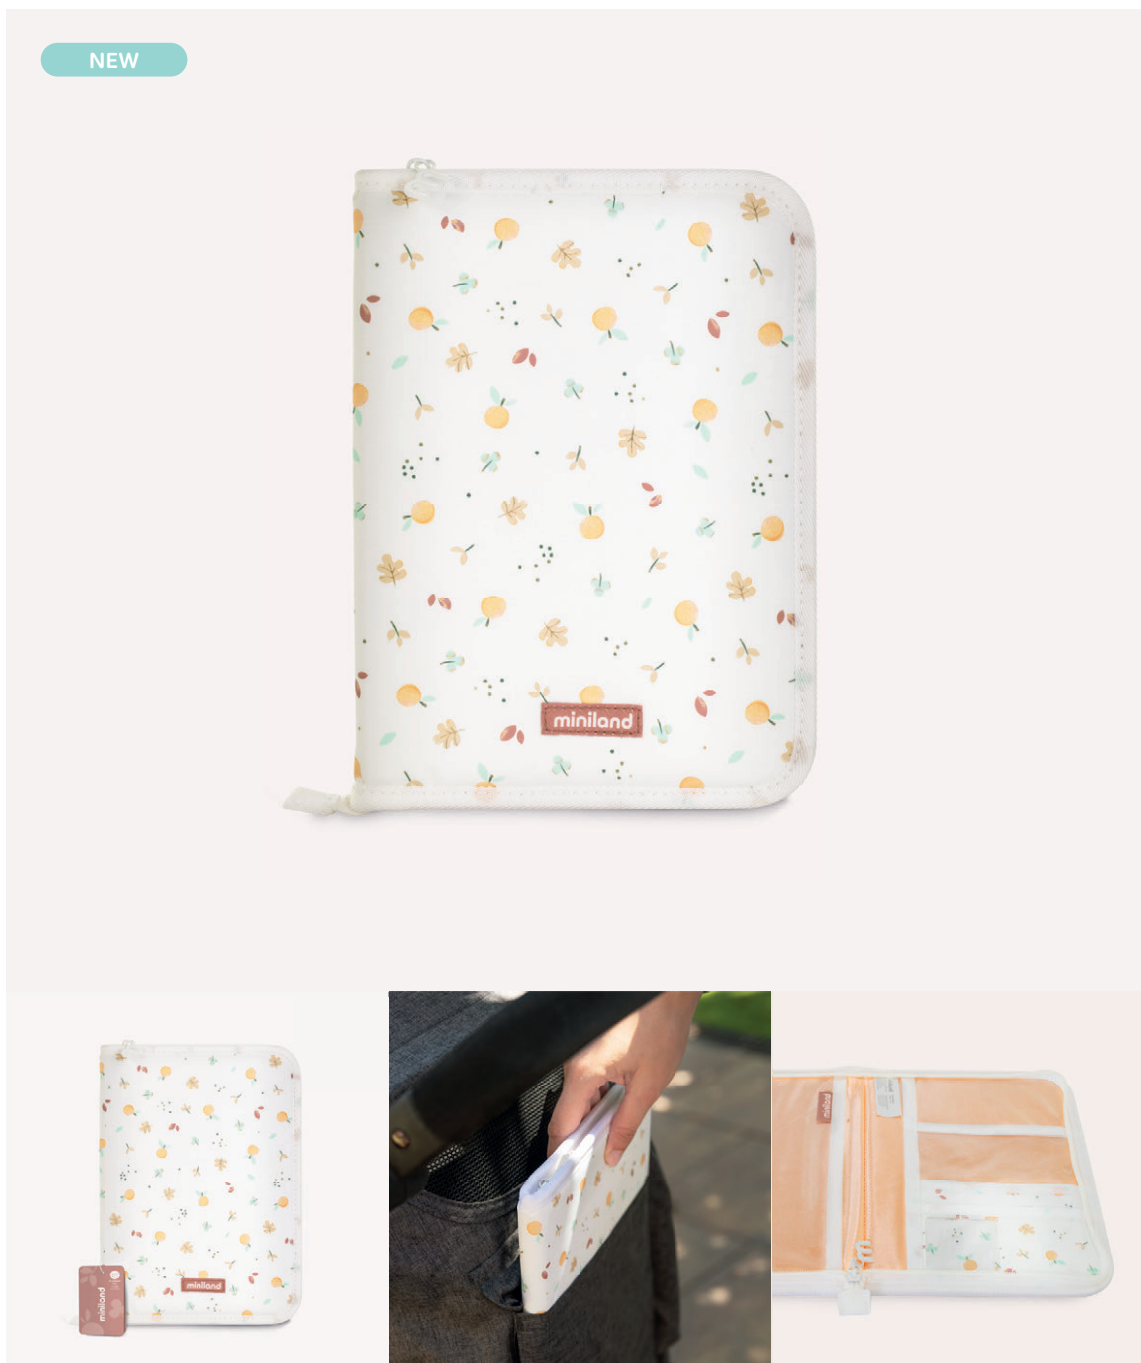

Makes the document holder the perfect ally to carry in the stroller bag or toiletry bag, avoiding any possible oversights.

Comfortable size adjusted to the standard

Measuring 17x24cm, the same size as the health cards provided at the maternity hospital.

Waterproof exterior

Thanks to the waterproof fabric of the carebook, you can quickly and conveniently clean the holder.

baby kit 89584

COMPLETE HOME AND TRAVEL KIT FOR BABY CARE

Ideal for home and travel

All organized in your waterproof cover

6 hygiene products

- Comb (1)
- Soft bristle brush (2)
- Scissors (3)
- Nail clippers (4)
- Silicone gum stimulator (5)
- 2 file nails (6)

6 essential accessories for the care and hygiene of the little ones in the house

This comprehensive set consists of the indispensable elements for the baby's everyday care: a comb, a fantastic brush, practical scissors, a silicone gum stimulator, a nail clipper, and nail files for the baby's little nails. Its friendly design makes it the ideal kit for gifting.

Everything in sight

The case opens completely, leaving all the elements of the set in full view and well organized.

Easy to carry and store

The case is the ideal size to carry it in your purse, baby bag, backpack... or simply store it comfortably at home.

Babies always looking neat and tidy

The baby's hair will always be perfect thanks to the comb and soft-bristled brush. The nails will always be well-trimmed, as the included scissors, nail clipper, and nail files leave no detail overlooked.

Long-lasting

This kit will accompany the little ones for years because, in addition to being made of durable materials, it includes all the necessary accessories to care for the baby from the day of birth until they are a child.

Clean and hygienic

The baby kit case is made of waterproof material, ensuring greater hygiene and easy cleaning, preventing the components from getting dirty or damp.

NEW

thermokit 89583

3 EASY TO USE THERMOMETERS FOR ALL SITUATIONS

BODY THERMOMETER

 30 ^s	Measurement time		Flexible tip
	Accurate		Fever indicator

PACIFIER THERMOMETER

 60 ^s	Measurement time		Submersible
	Fever indicator		Very comfortable

PENGUIN THERMOMETER

 2 ^s	Measurement time		Playmate
	Alert of high / low temperature		Measures the water and atmospheric temperature

Practical set of 3 digital thermometers for different uses

thermokit is a set that helps parents comfortably monitor their baby's body temperature and water temperature. It includes three thermometers: one for body temperature with a flexible tip, one shaped like a pacifier, and one for measuring bathwater. Its pleasant design makes it the ideal kit for gifting.

Everything well organized and stored

The three thermometers of Thermokit are stored in a practical waterproof bag with a convenient zipper for easy access.

Body thermometer with flexible tip

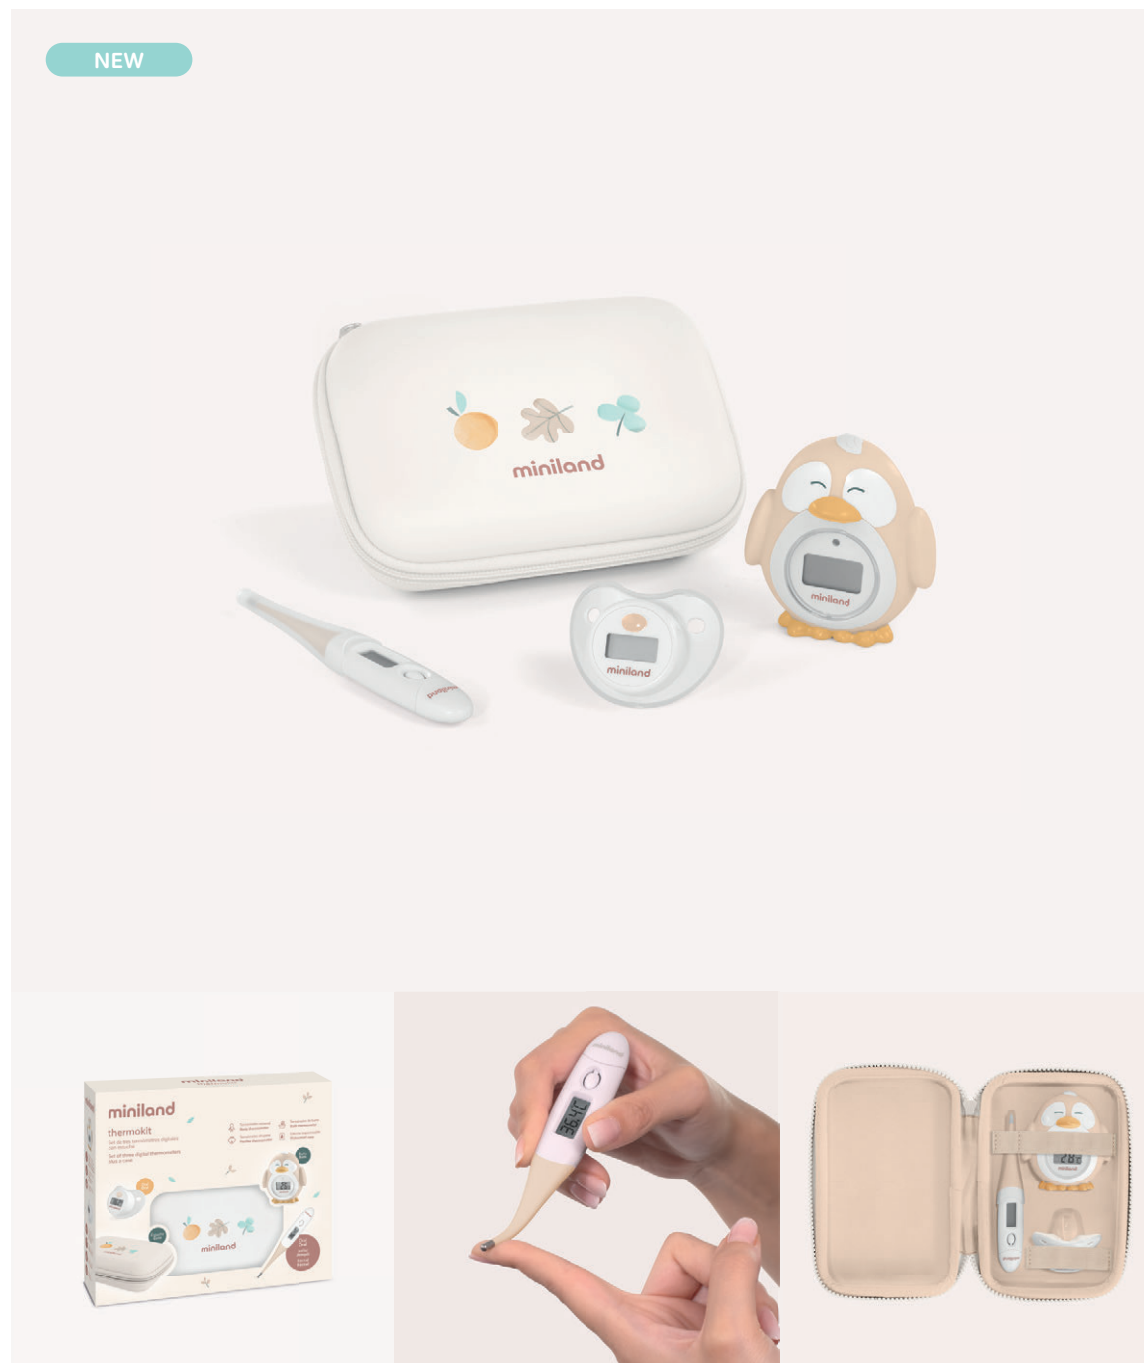

- Provides precise and reliable measurement of the baby's temperature
- Audible alert at the end of the measurement and in case of high fever (above 37.8 °C)
- Soft and flexible tip

Pacifier thermometer, soft and gentle

- Measures the temperature orally. Shaped similarly to conventional pacifiers, making it very practical for babies
- Audible alert at the end of the measurement and in case of high fever
- Submersible and can be washed under water

Penguin thermometer for the bath

- Quickly measures bathwater and ambient temperature
- Visual alert for high or low temperature
- Playtime companion that complies with toy safety standards.

A PERFECT GIFT OPTION FOR NEWBORNS

Who can resist the sweetness evoked by a baby's smile? And pastel-colored baby products? We certainly can't, which is why our Dolce collection has that classic and timeless yet updated feel that, as parents, we always seek. Moreover, they make for beautiful gifts to include on baby registries.

The Dolce collection includes essential items in cream, pink, and blue tones for the little ones' travelling or strolling moments, as it comes with everything you need for feeding them on the go. The thermoses for liquids and solids are highly durable and capable of maintaining the temperature for extended periods. The insulated bags make transportation easy, thanks to the button-closure handle. Meanwhile, the set of airtight containers is very useful for keeping each meal well-organized, and the set of adaptive cutlery makes mealtimes for the little ones much easier, as they are ergonomic and adjustable. Additionally, as a novelty, we are introducing new bibs made of soft material. In response to our valued customers' feedback, we are also presenting new combinations of tableware and cutlery that simplify the purchase, as well as a new thermobaby.

thermobaby 89589

THERMAL 240 ML BOTTLES FROM STAINLESS STEEL WITH NIPPLE OR STRAW

-  Cold and hot foods
-  Learning handles
-  No spills
-  To take anywhere
-  With scale

Keeps liquid's temperature for even longer

The Miniland thermobaby and thermokid thermal little bottles maintain a liquid's temperature for even longer thanks to its double wall of steel, so the little ones can enjoy them everywhere.

Two options according to the baby's age, and also interchangeable

Two models of thermal bottles depending on the age of the baby: thermobaby, with nipple, is aimed at babies between the ages of zero and two years, and thermokid, with straw, is designed for slightly older children between the ages of two and four years. In addition, the bottles are interchangeable for being able to mix the sizes, colours and accessories as desired.

A fun outer design

An original fun design in attractive colors with a soft and spongy outer texture.

Materials of exceptional quality

With 18/8 steel (304 steel) on the interior, which offers extremely low thermal conductivity and great resistance to high temperature, it is the best choice for food conservation.

Easy to hold

Thanks to the handles on the sides, the baby can grab the little thermal bottles with their little hands. Furthermore, the handle can be easily taken off or put on as deemed preferable.

Ideal capacity and controlled amounts

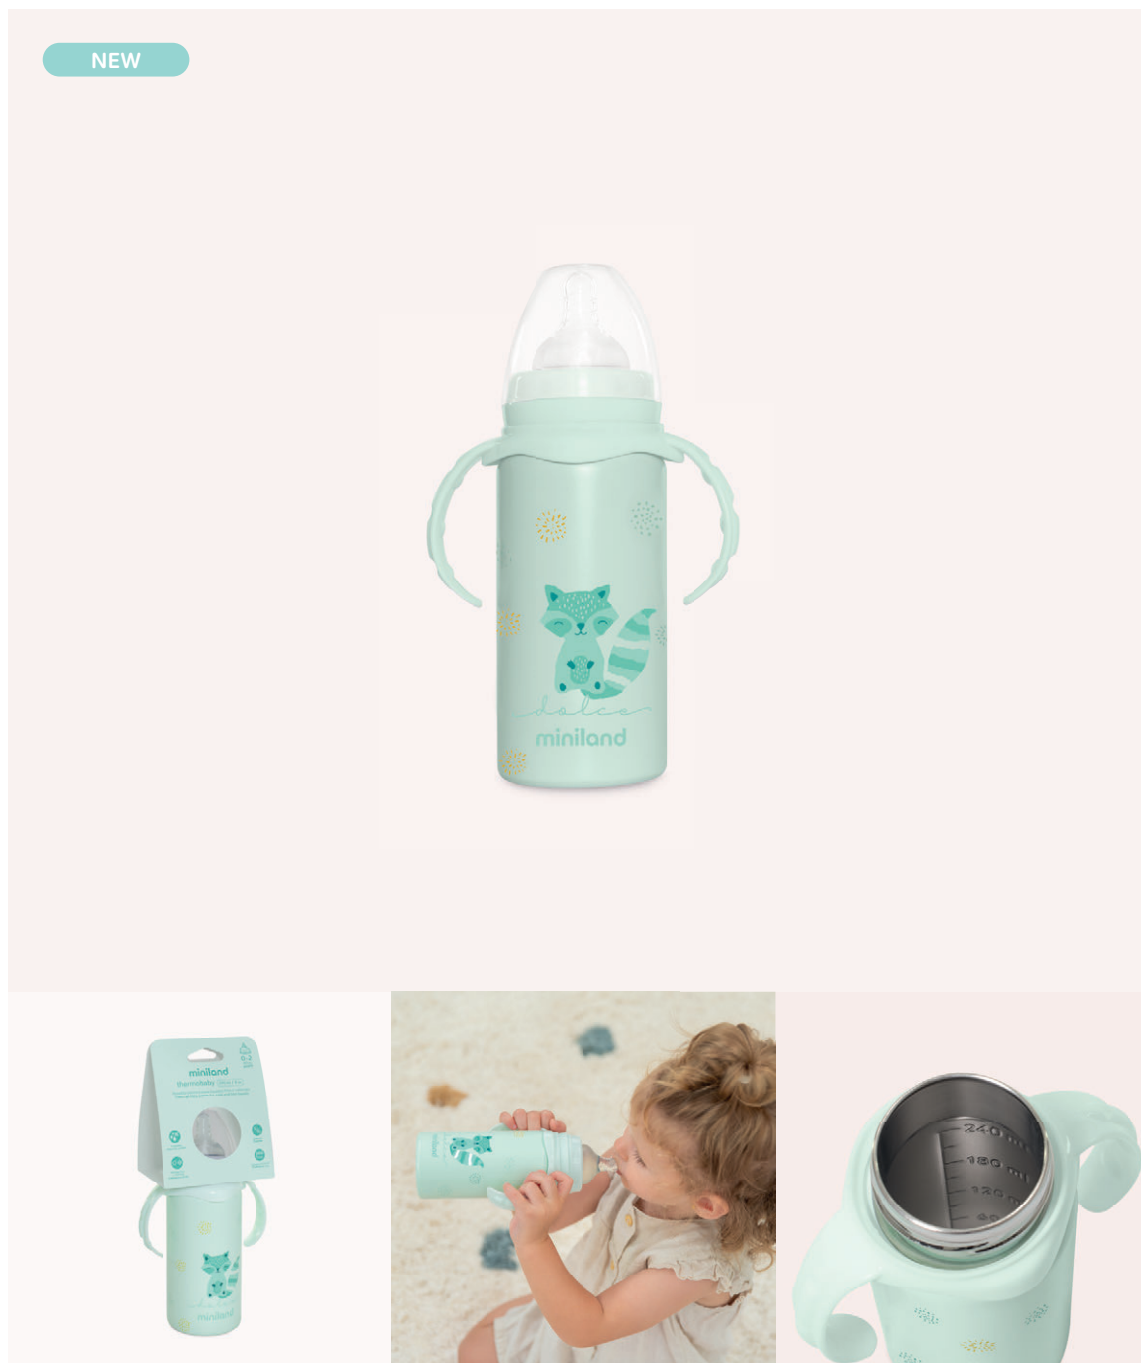

The thermobaby and thermokid, with a 240 ml capacity, come with a practical measuring scale inside.

Nipple or straw anywhere and without any spills

Thanks to the protective lid on the thermobaby magical and the closure system on the thermokid, both the nipple as well as the straw will always be kept clean and ready for use. Furthermore, they also protect against unwanted spills when they are being carried.

No bisphenol A

100% BPA free

thermy 89484 / 89485 / 89486 / 89487 / 89488

RANGE OF LIQUID THERMOSES OF 350 & 500 ML WITH RUBBERY EXTERIOR

-  Very effective
-  Perfect for baby's meals
-  Triple insulating layer
-  Easy cleaning
-  Anti-drip system
-  To take anywhere
-  Easy pouring system
-  Soft touch
-  Perfect for baby's meals

Maintains the temperature of liquids for more than 24 hours.

The Miniland thermoses are highly resistant and effective thanks to their dual steel wall with an exclusive cooper layer, their vacuum chamber and the double-cap system.

A perfect gift option for newborns

Miniland's thermys have fun and original designs so parents can choose between the different options according to their taste, all with a soft rubbery exterior.

Materials endowed with exceptional quality

Made from 18/8 steel (304 steel) which has very low thermal conductivity and very good resistance to high temperatures, being the most appropriate material for food storage.

Easy pouring system

With thermys parents will not spill a drop of the content thanks to their easy pouring and 'click on, click off' locking systems that allows to open and close the thermos with a single finger and without the need of unscrewing the internal plug.

The baby's meals always ready

Parents can prepare the baby's food at home and take it anywhere, maintaining the desired temperature for many hours.

Detachable and easy to clean

Both the thermos cap, which can be used as a glass, and the valve are unscrewable, facilitating the cleaning of all components.

Bisphenol A free

100% BPA-free.

thermibag 89492 / 89493 / 89494 / 89495 / 89496

PRACTICAL ISOTHERMAL BAG FOR THERMYS AND BABY BOTTLES

-  Isolating
-  Convenient handle for hanging
-  High quality materials
-  Upper opening with zip
-  Two sizes
-  To take anywhere

Helps maintain the temperature

An extra layer of insulation for the thermoses, protecting them from changes in ambient temperature and helping maintain the temperature of food.

A cheerful touch for liquid thermos of all sizes

The isothermal thermibag bags have been specially designed for thermos of 350 ml and 500 ml respectively, and allow the parents to decorate the thermos with their favorite color. In addition, they are ideal for use in conjunction with Miniland's thermy.

Upper opening with zip

You can use the thermos flask comfortably with the zip opening at the top of the thermal bag without needing to take it out.

Durable materials for greater protection

Made with highly durable materials that improve the conservation of the thermos against abrasion and protects them against bumps and scratches.

To take anywhere

Parents will be able to choose the size which best fits each thermos to carry it anywhere. Perfect for travelling or for leaving the baby with someone else. Furthermore, the bag has a handle to hang it to the pram with total comfort.

thermibag double 89497 / 89498 / 89499

DOUBLE ISOTHERMAL BAG FOR BABY BOTTLES AND THERMOSES

-  Isolating
-  Great capacity
-  Upper opening with zip
-  Upper opening with zip
-  Removable separator
-  To take anywhere
-  High quality materials

Two are better than one

This isothermal bag has been designed to hold up to two baby bottles or thermoses of up to 500 ml and keep the temperature for both of them. This way parents can avoid carrying more bulk than needed. Especially designed for twins.

Helps maintain the temperature

Thanks to its lining of insulation, the double thermibag helps conserve foods at the ideal temperature.

Multiple uses in the same bag

It has an internal separation to prevent the rub between the two baby bottles or thermos and increase the isolation. In addition, the separator is removable, creating a wider compartment for bottles and other larger containers.

Bottles and accessories well protected

Made with highly durable materials to protect the bottles and keep them in suitable conditions, as well as keep the hygiene of the accessories.

To take anywhere

The perfect size to carry anywhere. Perfect for travelling or for leaving your baby with someone else. Furthermore, the bag has a handle so that you can hang it to the pram with total comfort.

food thermy mini 89467 / 89468

food thermy 89489 / 89490 / 89491

RANGE OF FOOD THERMOSES FOR SOLID FOODS, AVAILABLE IN 280ML AND 600ML WITH A SOFT-TOUCH RUBBERY FINISH.

-  Triple insulating layer
-  Suitable for all types of solid foods
-  Exceptional quality
-  Easy to clean
-  Portable, can be taken anywhere
-  Easy-to-open valve
-  Soft-touch surface

Ideal for all types of solid foods

Both Food Thermy Mini and Food Thermy are perfect for the early stages of introducing solids and can be used for all types of solid foods.

Top-notch materials, the best in the market!

Made with double-walled stainless steel and an exclusive copper layer. Manufactured with 18/8 stainless steel (304 steel), which provides excellent thermal insulation and resistance to high temperatures. Ideal for food preservation.

Feeding directly from the container

Both thermos options are highly suitable for feeding the baby directly without the need to transfer the contents to a separate bowl or plate.

Perfect for on-the-go use

Both models have the ideal size for convenient portability, catering to each parent's needs. Additionally, they are equipped with a valve for releasing internal pressure, making it easier and more comfortable to open.

picneat 89518 / 89519

A PRACTICAL SET OF ANATOMICAL DEVELOPMENT CUTLERY WITH A PROTECTIVE CASE

- | | |
|--|--|
|  Evolutionary |  High quality materials |
|  Soft |  Hygienic case |
|  Great capacity |  To take anywhere |
|  Rounded tips |  Dishwasher safe |

Anatomical cutlery for all your baby's stages.

picneat consists of a soft spoon which is easy on the gums for the introduction of food, a great capacity spoon and a round-tipped fork for greater safety.

To take anywhere always clean!

The safe-locking case ensures parents can always store the cutlery in a hygienic manner. Moreover, this accessory allows the cutlery to be taken anywhere in the simplest and most convenient manner.

Learning to eat on their own!

The handles are ergonomic and extremely easy and convenient for a baby's little hands to grasp. This excellent cutlery will help babies to practice eating on their own.

Manufactured in Spain with top-quality materials

picneat is manufactured in Spain with top-quality PP, guaranteeing the cutlery is both highly resistant and proofed against the naughtiest toddlers. It is also BPA free.

Suitable for dishwashers

The cutlery and case may be washed in dishwashers.

Soft bib 89581 / 89582

SOFT PLASTIC BIB WITH CRUMB CATCHER POCKET

-  Rollable for easy transport
-  Made in Spain
-  With a crumb catcher pocket
-  Easy to clean
-  Adjustable closure

Practical and flexible

So flexible that it can be rolled up comfortably to carry in the baby's bag or backpack.

Avoid worrying about stains during meals

Its practical design with a crumb catcher pocket allows food to be deposited on the bib, preventing it from staining the child's clothes when it falls.

Easily washable under the faucet and dries in the air or with a cloth

Thanks to its waterproof material, it can be washed very easily for use at any time.

Adjustable closure

Adjustable closure around the neck in 4 sizes, adaptable to your baby's neck size. It can be easily put on and taken off.

Available in two colors

Available in the two shades of the collection, as sweet as your baby.

SET OF AIRTIGHT CONTAINERS IN THREE SIZES

-  200 ml, 250 ml and 330 ml
-  Ideal for breast milk
-  Allows writing in pencil
-  Ideal for freezing and heat.
-  Preserve the properties of food
-  To take anywhere
-  Graduated
-  Made in Spain
-  Stackable

The baby's feedings are always ready, to the mountains, to the beach or to the park! It allows parents to prepare feeds at home and take them anywhere. They are the ideal size to carry in your bag, in any isothermal bag or cooler.

Made in Spain

Graduated airtight containers with a capacity of 200 ml, 250 ml and 330 ml, made in Spain with highly resistant materials.

To accurately control the feeding of the baby

The measures in the glass allow to adapt the shot to the needs of the baby at all times. In addition, the side surface allows pencil writing of data such as the baby's name, date and type of food or food contained for greater control.

Store breast milk

Very suitable for storing breast milk, either to refrigerate and consume on the same day or to keep for longer in the freezer.

For all types of solid or liquid food

Ideal for the first porridge and all kinds of solid foods, from appetizers and snacks to desserts. It is very suitable for other liquid foods such as broths, consommés or natural juices.

Set 10 and set 12 also include two types of spoon: a softer one meant to be gentle on the littlest ones' gums and a deeper one for older children.

Frozen and thawed food with all the guarantees

Baby food is preserved in the freezer maintaining its nutritional properties, aroma and flavor. The graduated glass is suitable for microwaves, which allows you to defrost food in a moment with total comfort and safety.

Heat anywhere

Very comfortable to heat food in the same airtight container, in any bottle warmer, microwave or in a bain-marie, right at the moment of taking it.

Always at hand for medical visits

It protects your healthcare notebook from deterioration through use and carries all the documentation relating to your baby so you can always find it for all your pediatric visits.

Documentation visible in additional compartments

Diverse compartments with a transparent pocket in different sizes let you keep both your healthcare book and other doctor's cards, prescriptions or appointment cards well organized and in sight.

Zip seal so as not to lose any data

Make your document pouch the perfect ally for carrying in the bag on your stroller or vanity kit so you never forget it.

Comfortable size fits the standard

At 17x24 cm, it is the same size as the healthcare books provided by hospital maternity.

Waterproof exterior

Thanks to the waterproof fabric of the carebook, you can clean the cover quickly and comfortably.

baby kit 89509 / 89510

COMPLETE HOME AND TRAVEL KIT FOR BABY CARE

 Ideal for home and travel

 All organized in your waterproof cover

 6 hygiene products

- Comb (1)
- Soft bristle brush (2)
- Scissors (3)
- Nail clippers (4)
- Silicone Gum Brush (5)
- 2 file nails (6)

6 essential accessories for the care and hygiene of the youngest members of the household

This complete set is made up of the essential elements for baby's daily care: a comb, a fantastic brush, practical scissors, a silicone gum brush, a nail clipper and nail files for baby's nails. Its cute design makes it the ideal kit to give as a gift.

Everything in sight

The case opens completely, leaving all the elements of the set in full view and well organized.

Easy to carry and store

The case is the ideal size to carry it in your purse, baby bag, backpack... or simply store it comfortably at home.

Babies are always beautiful and well-groomed

Baby's hair will always be perfect thanks to the comb and brush with soft bristles. The nails will always be well trimmed, because the scissors, nail clippers and nail files included will not miss a single detail.

Long life

This kit will accompany the little ones for years to come as it is made of resistant materials and has all the necessary accessories to take care of the baby from the day of its birth until it is a toddler.

Clean and hygienic

The baby kit case is made of waterproof material, which contributes to greater hygiene and easy cleaning, preventing the components from getting dirty or wet.

thermokit 89511 / 89512

3 EASY TO USE THERMOMETERS FOR ALL SITUATIONS

BODY THERMOMETER

- | | | | |
|---|------------------|---|-----------------|
|  30 ^s | Measurement time |  | Flexible tip |
|  | Accurate |  | Fever indicator |

PACIFIER THERMOMETER

- | | | | |
|---|------------------|---|------------------|
|  60 ^s | Measurement time |  | Submersible |
|  | Fever indicator |  | Very comfortable |

PENGUIN THERMOMETER

- | | | | |
|--|---------------------------------|---|--|
|  2 ^s | Measurement time |  | Playmate |
|  | Alert of high / low temperature |  | Measures the water and atmospheric temperature |

Practical set of 3 digital thermometers for different uses

thermokit is a set which helps parents to conveniently control the temperature of their babies and the water, comprising three thermometers: one body thermometer with a flexible tip, one in the shape of a pacifier and another for the bath. Its friendly design makes it the ideal gift kit.

All properly stored away and organized

The three thermokit thermometers are kept in a practical waterproof bag with a comfortable zip for opening.

Body thermometer with flexible tip

- Soft, flexible tip
- Accurate measures the baby's body temperature
- Beeps at the end of the measurement and in case of fever (more than 37,8°C)

Soft, pleasant pacifier thermometer

- Oral temperature measurement. With a similar shape to conventional pacifiers, it is very practical for the babies.
- Beeps at the end of the measurement and in case of fever
- It is submersible and can be washed under the water

Penguin thermometer for the bath

- Quickly measures the bath water and room temperature
- Visual alert in case of high or low temperature
- Playmate that complies with toy safety standards

eco-friendly collection

2024

WE CONTINUE TO INNOVATE FOR A BETTER WORLD

At Miniland, we believe that every gesture, no matter how small, helps us to build the sustainable future we aspire to. And we are convinced that we are not the only ones, but that there are more and more people who are committed in their daily lives to make the world a little better. As do we and those who take care of our children.

This year, we have continued developing our eco-friendly collection to transform everyday moments into a new way of protecting our planet. Our goal is to minimize the impact we have on the environment, so we have expanded the materials we already use in our range of feeding and strolling products, such as bioplastics of natural origin (PLA) and wood. Additionally, we have introduced some lovely sets of glass containers and bags made from materials derived from recycled plastic (rPET).

Mealtime is a key moment in a baby's education, because it helps them discover a whole world of flavors, colors, textures, smells... So, to make the process as natural as possible, we have taken into account trends such as Baby-Led Weaning (BLW), self-regulated feeding, and other ways of introducing complementary feeding. Because every child and every family is unique and, at Miniland, we want you to have all the solutions at your fingertips.

wooden bowl 89470 / 89471

ECO-FRIENDLY WOODEN BOWL AND SPOON SET WITH NO-TIP SUCTION BASE

-  Bamboo wood
-  Includes spoon
-  Silicone anti-tipper
- BLW** Ideal for BLW

To enjoy the yummiest food

This set includes a bamboo bowl and spoon, a natural, sustainable material, so that the little ones can learn to eat independently and learn about respecting nature at the same time.

The spoon has a more delicate, silicone head, to protect baby's gums and help them to eat independently and safely.

100% natural and sustainable

The bowl and spoon are made of 100% bamboo wood, from FSC™ certified sustainable forests, and the suction pads and spoon head are food grade silicone.

Perfect for baby led weaning!

The bowl has a silicone suction pad on the bottom, so it sticks easily to the highchair tray or table. This helps little ones begin with baby led weaning, as they won't be able to throw their plate onto the floor while they are eating by themselves.

Design inspired by nature

As it's made in natural, sustainable wood, it's a fun way to help little ones learn about eating and respecting the environment. It comes in two different designs: frog and chick.

To enjoy the yummiest food

This product includes a plate made from bamboo, a natural, sustainable material, to learn to tell the difference between foods, and grow up with respect for the environment.

The plate has three sections, to separate foods and flavours and bring structure to mealtimes.

100% natural and sustainable

The plate is made of 100% wood from sustainable forests with FSC™ certification, and the suction cup is made with food grade silicone.

Perfect for baby led weaning!

The plate has a silicone suction pad on the bottom, so it sticks to the highchair tray or table easily.

This helps little ones begin with baby led weaning, as they won't be able to throw their plate onto the floor by themselves.

89472 frog

naturmeal 89455 / 89456

DINNERWARE MADE WITH MATERIALS OF NATURAL ORIGIN

Fun for little ones!

Full tableware set with fun frog or chick patterns, to make every mealtime great.

Natural materials

Made from 100% natural, long-lasting materials, they're light, to teach little ones the importance of caring for the environment and respecting the world they'll be living in.

Full set of tableware

The 5-piece set consists of a flat plate for solid food; a bowl that's ideal for baby food; a fork and spoon in just the right size for baby's first meals, plus a drinking cup.

For learning to eat by themselves

The specially designed smaller dimensions of the spoon and fork will help little ones to learn to eat by themselves. And the little open cup will help them learn to hold it properly and drink without spilling.

It goes perfectly with the other pieces to make mealtimes fun!

Dishwasher safe

All the items in this set can be placed in the dishwasher with complete confidence.

natur picneat 89316 / 89317

SET OF ECO-FRIENDLY NAPKINS AND CUTLERY FOR PICNIC MEALS

-  Natural materials
-  Folding kit for transport
-  Great capacity
-  To take anywhere
-  Rounded tips

Anytime enjoyment

Perfect for enjoying a meal anywhere, this eco-friendly set includes a spoon and fork of natural wood and an organic cotton napkin to wrap them in, all made of organic materials. Let's look after the little ones – let's look after the planet!

Design inspired by nature

Both the napkin and the cutlery set, made from natural materials, are decorated with animals, to learn to eat and respect their world in a fun way.

100% organic cotton

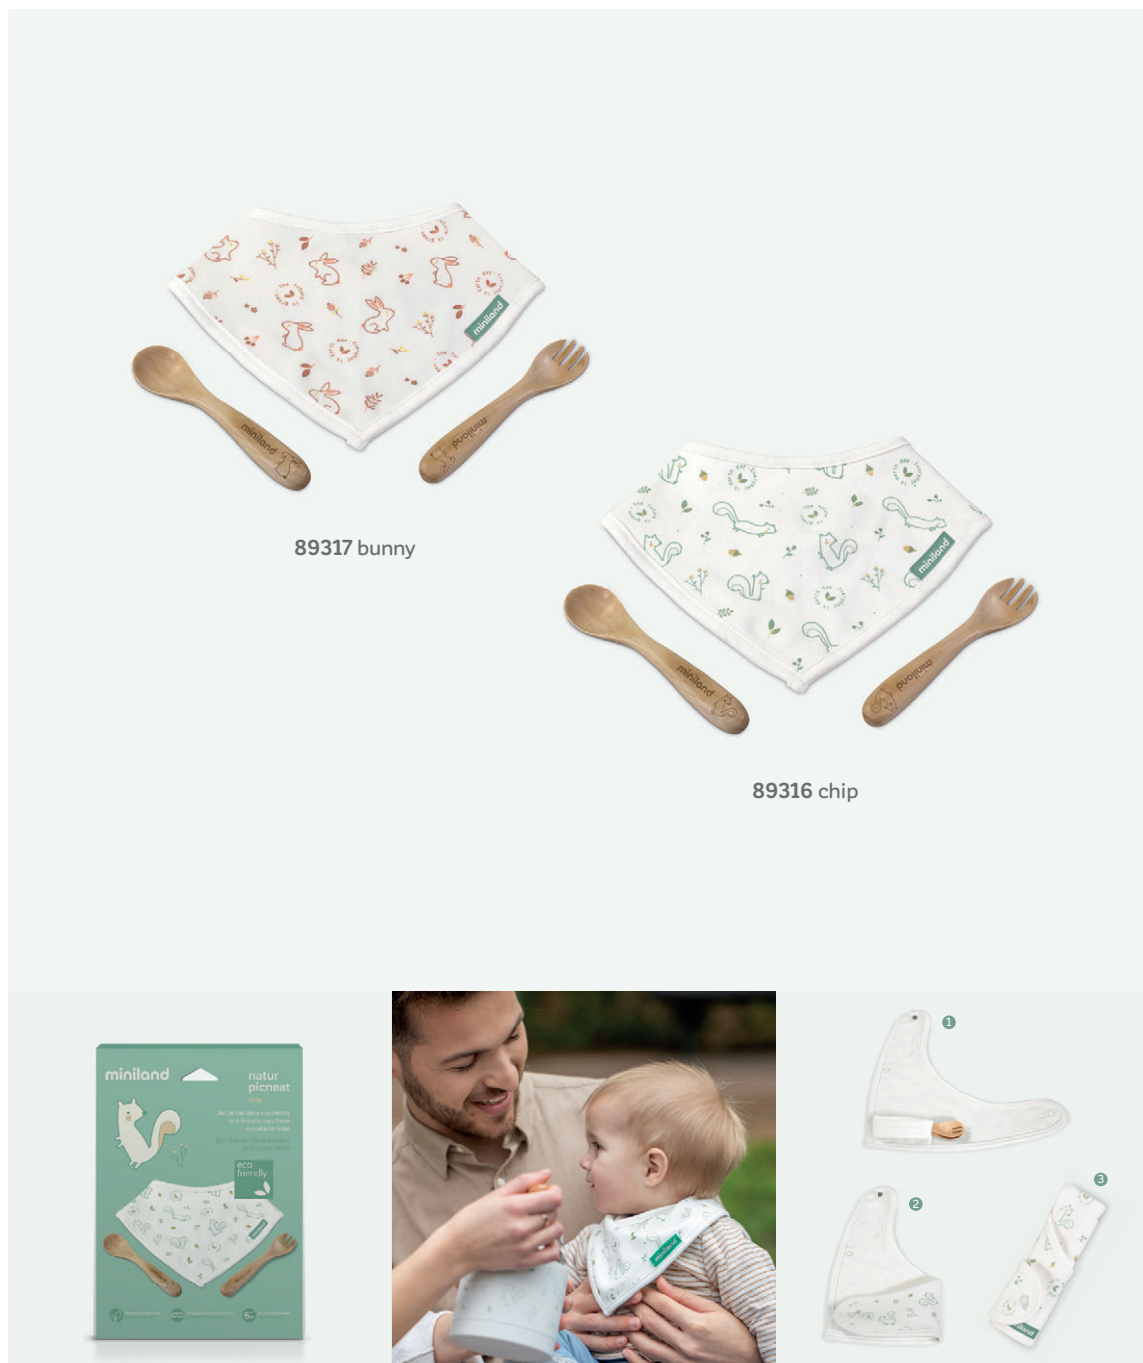

The napkin is made of 100% organic cotton, very soft on your baby's skin. Practical and functional, it includes an inner pocket, while the press-seal lets you carry the folded kit anywhere, to occupy the least space possible.

Sustainable and environmentally friendly cutlery

Of 100% organic, biodegradable material, they are decorated with animals so that meal times are fun times.

Smooth edges and an ergonomic handle

They help the little one grip both the spoon and the fork, which makes the kit perfect for small hands, helping them learn to eat independently.

natur thermy 89262 / 89263

RANGE OF 450ML LIQUID THERMOSES IN RUBBERY FINISH WITH NATURAL MOTIFS

 12h	Very effective		Perfect for baby's meals
	Triple insulating layer		Soft touch
	Anti-drip system		Easy cleaning
	Perfect for the baby's meals		To take anywhere
	Wide mouth		

Maintains the temperature of liquids for more than 12 hours

The Miniland thermoses are highly resistant and effective thanks to their dual steel wall with an exclusive copper layer and their vacuum chamber.

Natural motifs design

The natur thermy range has attractive designs inspired by nature, with two models to satisfy the tastes of all parents, and a soft to the touch rubbery exterior.

In addition, its silicone base helps to adhere thermy to different surfaces and prevents it from falling

The baby's meals always ready

Parents can prepare the baby's food at home and take it anywhere, maintaining the desired temperature for many hours.

Reusable and durable

Made on stainless steel, it can be reused during a long period of time, prolonging its span life and contributing to the sustainability of the environment. This way, parents can teach the little ones the importance of caring and respecting the world they will live in.

Materials endowed with exceptional quality

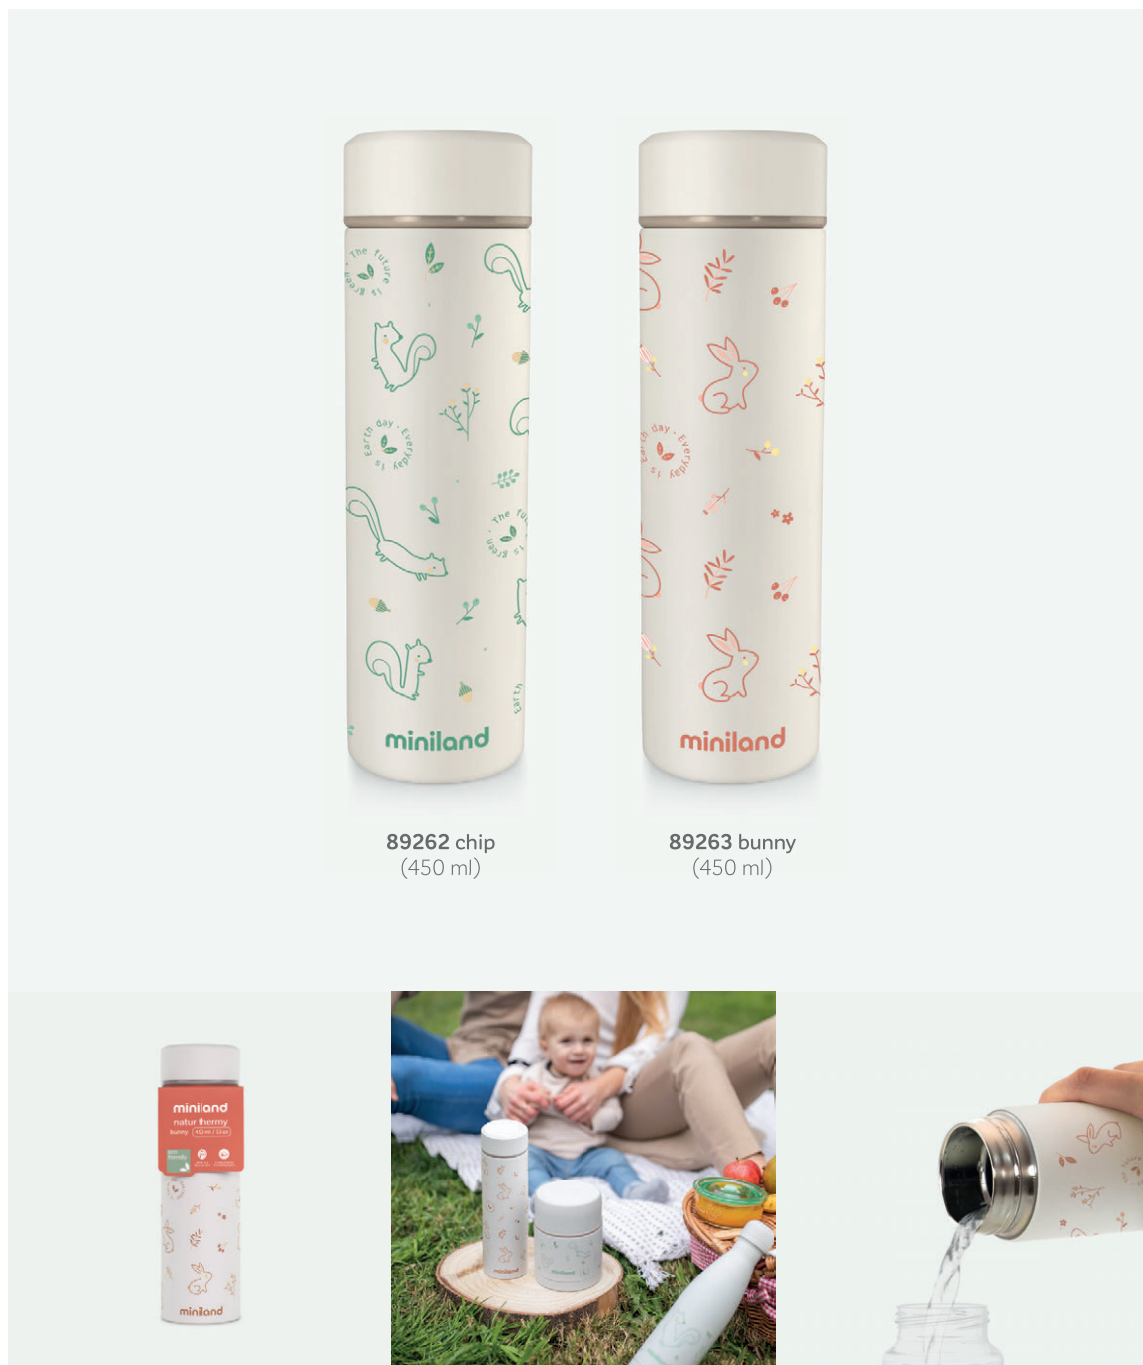

Made from 18/8 steel (304 steel) which has very low thermal conductivity and very good resistance to high temperatures, being the most appropriate material for food storage.

Easy filling and cleaning

Thanks to its wide mouth natur thermy are very easy to fill, empty and clean.

Bisphenol A free

PRACTICAL BAG MADE OF RECYCLED MATERIAL FOR THERMOSES, BABY BOTTLES AND BOTTLES

-  Recycled materials
-  Isolating
-  Upper opening with zip
-  High quality materials
-  Upper opening with zip
-  Three sizes
-  To take anywhere

Eco-friendly bag made of 100% recycled material

These bags are designed for bottles or liquid thermoses up to 500ml, a double bag for thermos, baby bottles, or bottles of 500ml, and a bag for solid thermos of approximately 700ml. They are made from fabric derived from recycled plastic (rPET), environmentally friendly and highly resistant, enhancing protection against abrasion, possible impacts, or scratches.

Helps maintain temperature

An extra layer of insulation for thermos, protecting them from changes in ambient temperature and helping to maintain the temperature of the beverages. Manufactured with highly resistant 100% rPET material to protect the baby bottles and keep them in ideal conditions, as well as to preserve the hygiene of the accessories.

A cheerful touch for thermos of all sizes, for liquids and solids

The ecothermibag insulated covers have been specially designed for thermoses of approximately 350ml, 500ml, and 700ml depending on the model, and their design allows them to be paired with different natur thermy from Miniland for a coordinated look.

Top zipper opening

The top zipper opening of the thermal bags allows for easy use of the thermos or bottles without the need to remove them from the bag.

Perfect for carrying anywhere

Ideal for taking with you on-the-go, for traveling, or when leaving the baby under the care of someone else. Additionally, the bags come with a handle for hanging them on the stroller with great convenience.

eco thermibag lunch 89559 / 89560

INSULATED BACKPACK MADE FROM RECYCLED MATERIAL TO CARRY LITTLE ONES' FOOD

- | | |
|---|---|
|  Recycled material |  Insulated |
|  Large capacity |  Versatile use |
|  Multiple compartments |  Portable anywhere |

Eco-friendly backpack ideal for carrying little ones' food anywhere

The fabric used to make this backpack comes from the recycling of plastic (rPET), and its insulated interior helps maintain the temperature and protect the snacks and meals of little ones from changes in ambient temperature.

Prepared for modern life

Designed to be carried anywhere, it can be used as a backpack, shoulder bag, or stroller bag. Thanks to its versatile design, it has a long lifespan and is very practical from early childhood to advanced childhood.

Large capacity

It has a 10-liter capacity and features three different-sized pockets.

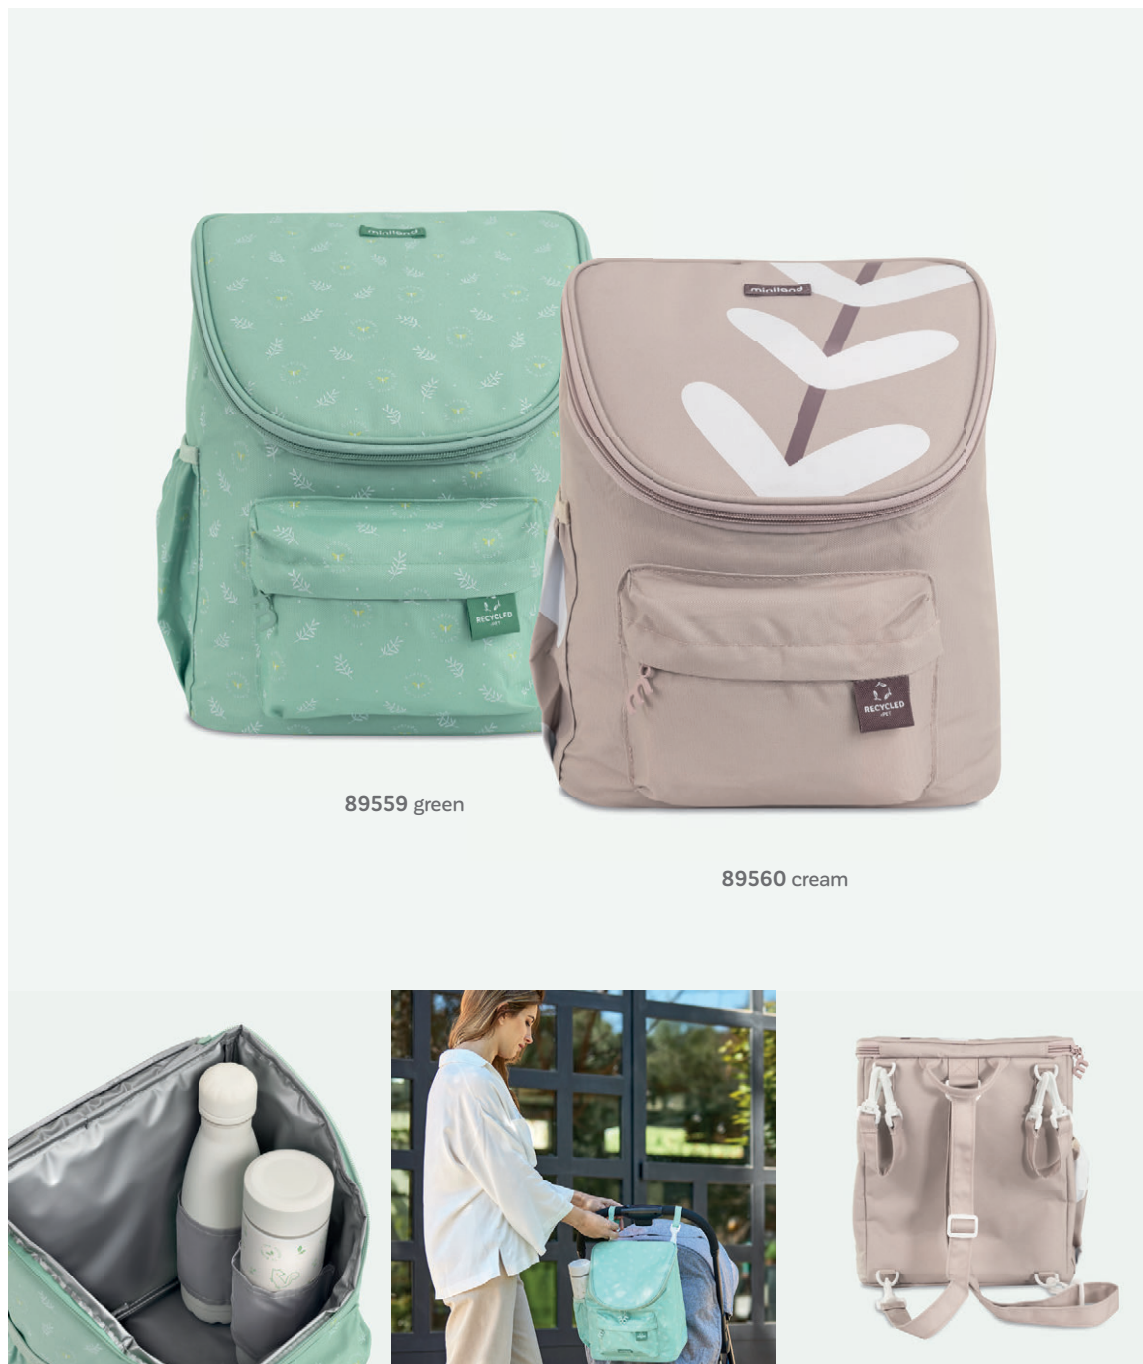

The main compartment is insulated to help maintain the temperature of the food and has a special pocket to hold a bottle securely and prevent it from tipping over or moving inside.

The second pocket, smaller in size, is perfect for storing other smaller accessories, keeping everything organized in one backpack.

It also has a convenient third side pocket, ideal for holding bottles and thermos.

Easy to clean

No need to worry about condensation or spills. Its interior lining is waterproof and very easy to clean.

ISOTHERMAL BACKPACK MADE OF RECYCLED MATERIAL, IDEAL TO TAKE TO THE NURSERY OR TO THE PARK.

 Recycled material	 Different pockets
 Insulation	 To take anywhere
 Label to put the child's name	 Fun design

Eco-friendly backpack ideal for wearing to the nursery or the park

The fabric used to make this backpack comes from recycled plastic (rPET) and its interior insulating helps to maintain the temperature and protect the children's lunches and snacks from changes in the ambient temperature.

Prepared for modern life

Designed to be taken anywhere, it has two pockets of different sizes.

The main pocket is covered with insulation to help to maintain the temperature of the food, and has a special little pocket for holding the bottle and preventing it from turning over and moving inside.

The second pocket, which is smaller in size, is perfect for storing an accessory or toy of the child.

Personalise it with their name!

The backpacks include a label to personalise it with the child's name so that they themselves can identify it at school or so that they don't lose it in the park.

Two fun designs to choose from

Made with highly resistant materials to protect the bottles and containers and keep them in suitable conditions, as well as to preserve the hygiene of the accessories.

To take anywhere

With attractive colors, two fun and original designs that they will love.

SET OF 2 ECO-FRIENDLY, AIRTIGHT CONTAINERS FOR SOLID FOODS

-  Material of natural origin
-  Perfect for freezing
-  Dishwasher safe
-  Easy cleaning
-  To take anywhere

Natural materials

PLA airtight containers are made of durable, bio-sourced materials from the fermentation of starch derived from sugar cane, corn starch, beetroot, or wheat. An ecological and safe alternative to traditional plastic, very durable and light. They have a silicone lid for hermetic closure.

Airtight containers for the little ones

This eco-friendly set is ideal for storing home-made baby food. It has two containers for all kinds of solid foods, with a 400ml capacity.

With a silicone lid

Both containers have a silicone lid, guaranteeing food stays ultra-fresh and preserving all the flavours and aromas of your home-made meals.

Choose the model you like best

These containers come in two different, nature-themed patterns: a friendly little frog and a little chick.

Dishwasher safe

The whole set can be cleaned in the dishwasher.

Easy to clean

The smooth surface makes these containers really easy to clean. Safe and hygienic.

LITTLE BOX PERFECT FOR LUNCH OR SNACKS

-  Natural origin
-  Dishwasher safe
-  For any kind of solid food and mushes
-  To take anywhere
-  With internal divider
-  Easy cleaning

Natural materials

PLA lunch box for lunches and snacks, made from natural and durable materials from the fermentation of starch derived from sugar cane, corn starch, beetroot, or wheat. An ecological and safe alternative to traditional plastic, light and very resistant to daily use.

The yummiest food in the best container

This lunchbox is ideal for little ones to take their snacks or food anywhere. Little boxes that can be used for all snacks or meals, keeping food super fresh.

Every bit of food in the right place

They're just the right size to store two types of food, separated into two portions using the removable silicone separator.

As you can remove the separator easily, you can shape each compartment to your needs, adding more or less to each side.

Airtight lid

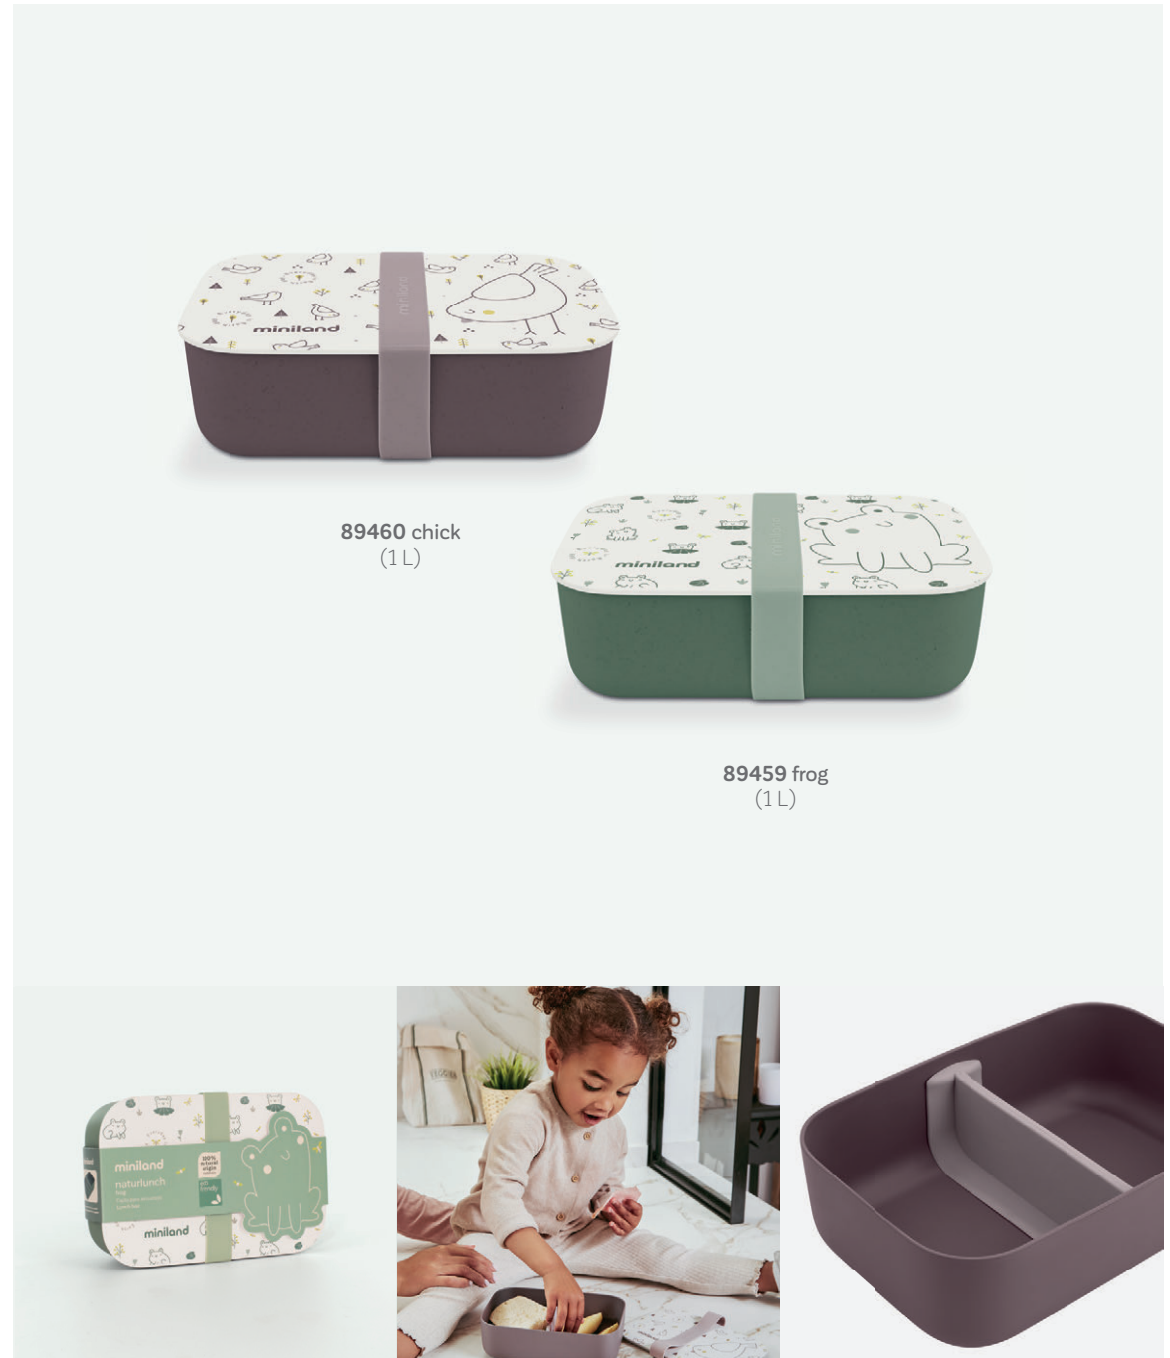

The lid has a little silicone band inside to ensure a completely airtight seal, avoiding pesky spillages and keeping food fresher for longer, preserving tastes and aromas.

Nature-themed design

The container comes with two gorgeous nature-themed designs: a friendly frog and an adorable little chick.

Dishwasher safe

The whole set can be cleaned in the dishwasher.

SET OF ISOTHERMAL BAG MADE OF RECYCLED MATERIAL WITH 2 GRADUATED GLASS AIRTIGHT SEALS

 250 ml	 Long durability
 Graduates	 Microwave *(Without lid)
 Silicone cover	 To take anywhere
 Ideal for breast milk	 Ideal for freezing and heating
 Recycled material bag	 Dishwasher safe

Graduated glass containers with silicone lid for children's food

This eco-friendly set, which is ideal for storing and carrying the baby's home-made food, is composed of two 250ml graduated glass containers. The lids are made of food-grade silicone.

Cooling carry bag made of recycled material

For convenience in carrying the containers everywhere, the set includes a cooling travel bag with an insulating interior to help to better preserve the foods, made from fabric that comes from recycled plastic (rPET).

To accurately control the quantity of the baby's food

The cup measures up to 250 ml, allowing the baby's needs to be adapted to the baby's needs at any given moment.

Preserving breast milk

Very suitable for storing breast milk, either to refrigerate and consume on the same day or to keep for a longer period of time in the freezer.

For all types of solid or liquid foods

Ideal for the first porridges and all kinds of solid foods, from snacks and appetizers to desserts. It is very suitable for other liquid foods such as broths, consommés or natural juices.

Frozen and thawed food with all guarantees

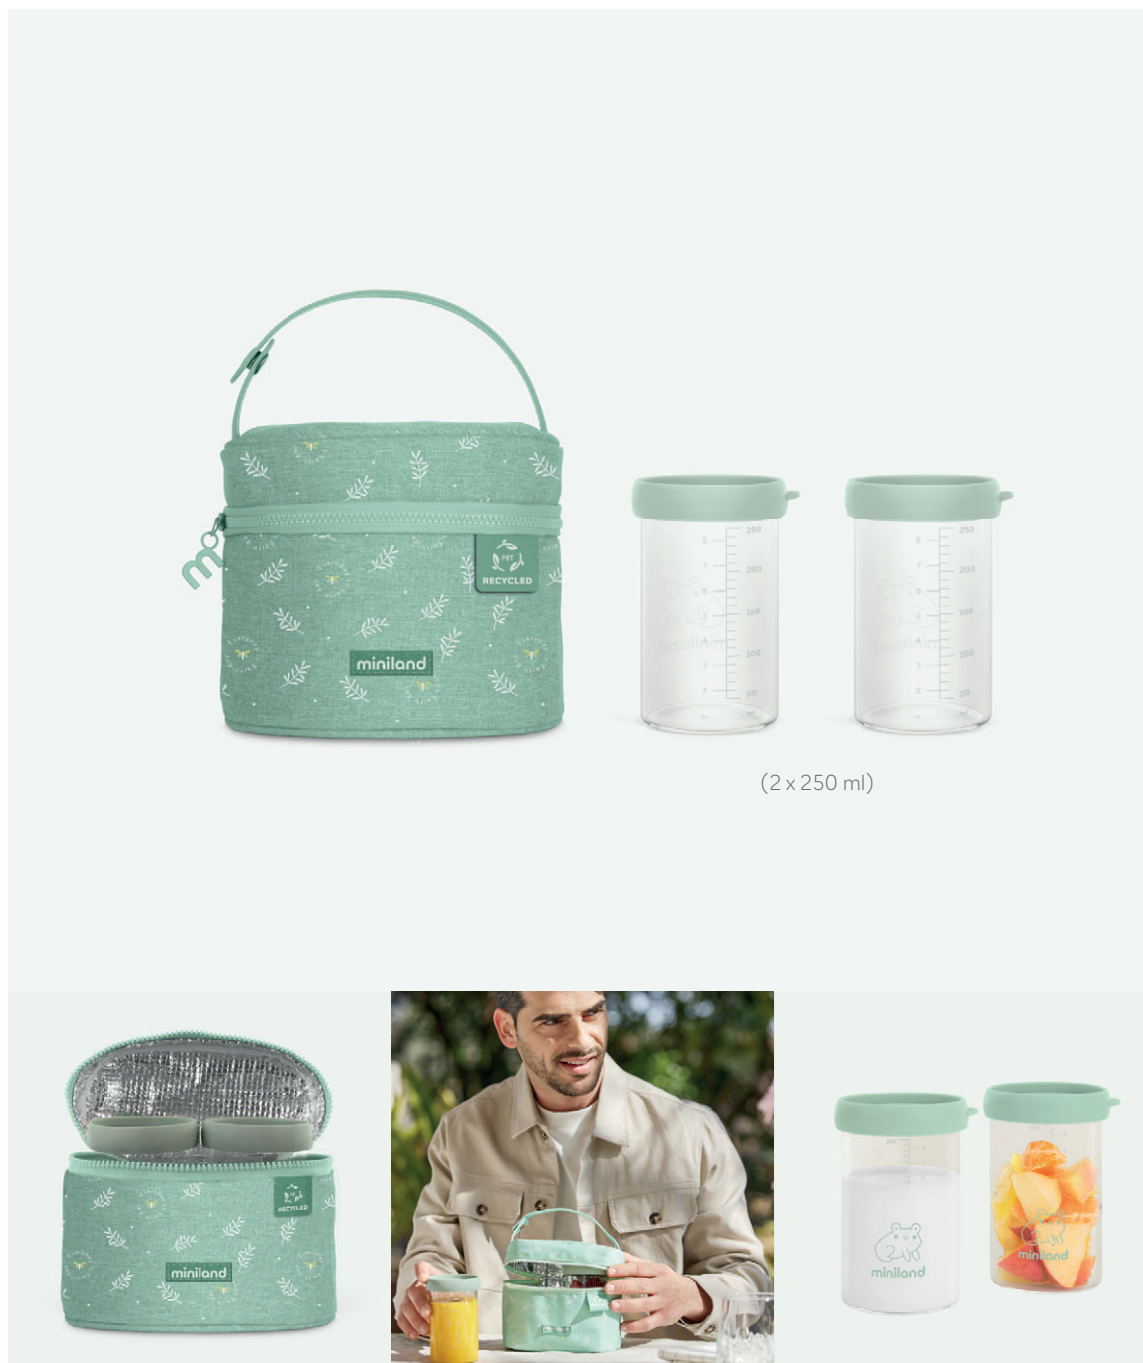

Baby food is preserved in the freezer while maintaining its nutritional properties, aroma and flavor. The graduated glass base is microwave safe, allowing food to be defrosted in a moment with total comfort and safety.

Heat anywhere

Very convenient for heating food in the same airtight container (*without the lid), in any bottle warmer, microwave or bain-marie, right at the moment of feeding.

Dishwasher safe

Both the silicone lid and the glass container are dishwasher safe.

GLASS AIRTIGHT CONTAINERS WITH RECYCLED MATERIAL
ISOTHERMAL BAG

	210 ml		To take anywhere
	Bamboo cover		Ideal for freezing and heating
	Recycled material bag		For all types of food and porridges
	Long durability		Dishwasher safe
	Microwave * (Without lid)		

Glass containers with wooden lids for the food of the smallest members of the family

This eco-friendly set -- ideal for storing and carrying the baby's home-made food -- is composed of two 210ml glass containers. Glass is a resistant and durable material that, because it is completely transparent, makes the contents perfectly visible. The lid is made of bamboo from FSC™ certified sustainable forests.

Cooling carry bag made of recycled material

For convenience in carrying the containers everywhere, the set includes a cooling travel bag with an insulating interior to help to better preserve the foods, made from fabric that comes from recycled plastic (rPET). This material gives a second life to waste and brings us closer to a more sustainable tomorrow.

Leakproof closing valve

The leakproof opening and closure valve on the lid ensures the best conservation of foods and prevents unwanted spills. In addition, the silicone seal makes it possible to preserve flavours and aromas.

Suitable for microwaves, freezers and even ovens

Thanks to the glass -- resistant to extreme temperatures and thermal shocks -- it is suitable for microwaves, freezers, and even for heating foods in the oven.

Easy to clean and suitable for dishwashers

Thanks to the glass's unique surface, these containers are especially easy to clean and are dishwasher-safe.

SET OF 2 AIRTIGHT GRADUATED GLASS CONTAINERS
WITH SILICONE LID

 250 ml	 Long durability
 Graduates	 Microwave *(Without lid)
 Silicone cover	 Ideal for freezing and heating
 Ideal for breast milk	 Dishwasher safe

Graduated glass containers with silicone lids for children's food.

This eco-friendly set, which is ideal for storing the baby's home-made food, is composed of two 250 ml graduated glass containers. The lids are made of food-grade silicone.

To accurately control the quantity of the baby's food

The glass's measurements of up to 250 ml make it easy to adjust the baby's intake at all times.

Storing breast milk

They are very suitable for storing breast milk, whether for same-day refrigeration and consumption, or for long-term storage in the freezer.

For all kinds of foods, solid or liquid.

Ideal for the baby's first cereals and all kinds of solid foods, from a variety of snacks to desserts. It's very suitable for other liquid foods such as broths, bouillons and fresh juices.

Frozen and thawed foods with all the guarantees.

Baby's foods are preserved in the freezer, maintaining their nutritional, aromatic and flavour properties. The graduated glass base is microwave-safe, which makes it easy to quickly thaw out the food, conveniently and safely.

Heat anywhere

Very convenient for heating up the food in the same container, in any bottle warmer, microwave or bain marie, right at mealtime.

Suitable for dishwashers

Both the silicone lid and the glass container are dishwasher-safe.

natur haircare 89338 / 89339

SET OF CHIP AND BUNNY SOFT BRUSH, COMB AND MASSAGE BRUSH

- | | |
|---|---|
|  Natural materials |  Exceptional quality |
|  At home and on the go |  Transport bag |
|  Massage brush |  Comb with rounded teeth |

They care for your baby and the planet

This set of brushes and comb are made of 100% natural wood and other components to delicately care for your baby without tugging. They are anti-static, do not break the hair and furthermore respect the environment.

Soft brush for newborn babies

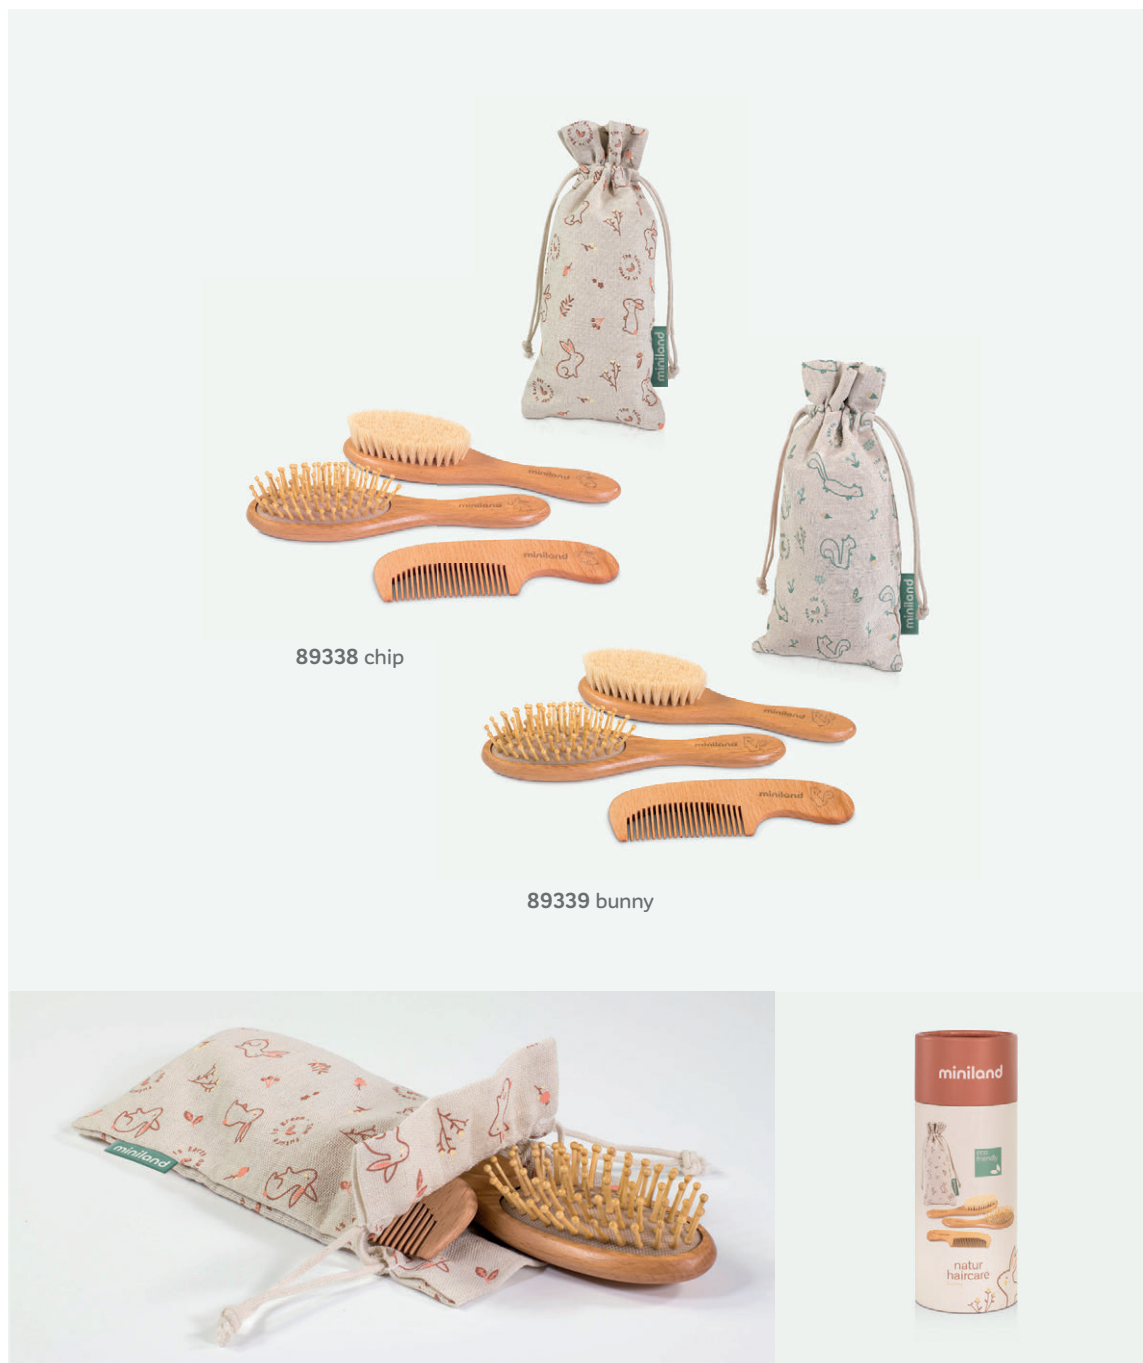

This brush of natural, extra-soft bristles is especially designed for newborn babies, since not only does it comb but also caresses their scalp, creating a pleasant sensation.

Bristle brush to stimulate hair growth

For larger babies, this wooden bristle brush encourages hair growth, stimulating circulation through the brushing while it massages.

Comfy, functional carry bag

Made from 100% organic cotton, this eco-friendly bag is so convenient to always have at hand, organized and protected, as well as practical for days when you travel.

naturfeeding 89397

ERGONOMIC NURSING PILLOW WITH A 100% ORGANIC COTTON COVER

Ergonomic: To breastfeed or bottle-feed your baby more comfortably

This nursing pillow is ideal for breastfeeding or bottle-feeding in the most comfortable way, as it relieves the mother's back, neck and arms and it also provides a more comfortable position for the baby too. Also, thanks to its ergonomic design, it adapts to the body, providing a stable and relaxed support. You won't be able to stop using it!

Multifunctional: You'll use it more than you think!

You can start using this ergonomic pillow when you are pregnant, it can help you during the breastfeeding period and you can even keep using it as a support for the baby, helping them to sit up and stimulating their crawling. A versatile and durable nursing pillow!

100% organic cotton cover

Its cover, with a design inspired by nature in soft colours, is made from 100% organic cotton which is soft and comfortable to the touch, appropriate both for the delicate skin of the baby and for mums with more sensitive skins.

Easy to clean

Its removable cotton cover can be machine washed at 30°C.

naturcalm 89396

ANTI-COLIC BELT WITH SEEDS, A 100% ORGANIC COTTON COVER AND A LAVENDER SCENT

-  100% organic cotton surface
-  Evolutionary
-  Lavender scent
-  Easy cleaning

It alleviates your baby's colic naturally

With this anti-colic belt, you will be able to naturally alleviate the pain caused by your baby's colic and gasses in a pleasant way, thanks to its heat and its relaxing lavender scent.

100% organic cotton

With a natural and fun design, this anti-colic belt is made from 100% organic cotton, which gives it a soft and comfortable feel that makes it especially appropriate for your baby's delicate skin.

Removable natural seed bag

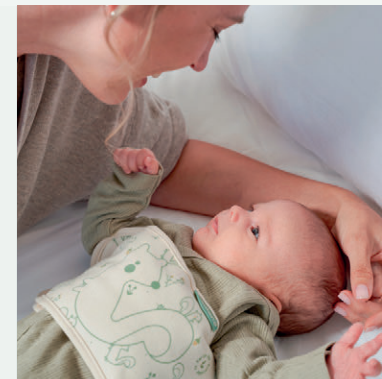

In its interior you will find a removable bag filled with natural millet and lavender seeds that give off a pleasant and relaxing scent. You will be able to remove it to heat it up on its own in the microwave.

A belt ergonomically adapted to your baby's little body

In addition to its reduced size, it adapts to your baby's different growth stages, thanks to its hook and loop adjustable fastener.

Easy to use and clean

You will be able to machine wash it at a maximum 30°C, thanks to its materials and to the fact it is so easy to take the seed bag out.

terra collection

2024

A COLLECTION WITH MOTIFS INSPIRED BY NATURE

We know that leaving the house with children can be an adventure. It means having to carry their baby food, milk and everything they need to feed them properly. At Miniland, mums' and dads' worries are our worries too, which is why we know how important it is to have the best baby bottles and thermoses available to make it easier to make plans with your baby away from home.

Our Terra collection includes high-quality stainless steel thermoses for both, liquids and solids, which will help keep your food at the right temperature longer. Additionally, the matching insulated bags make transportation easy, allowing you to conveniently take them anywhere. The collection is complemented by other feeding accessories such as airtight container sets to preserve food for the next day, a picnic kit with ergonomic cutlery in case your little one has started complementary feeding, and the NutriHealthy Plate, a healthy plate to ensure a balanced and nutritious diet.

thermy 89435 / 89436 / 89437

RANGE OF 500ML LIQUID THERMOSES WITH RUBBERY EXTERIOR

-  Very effective
-  Perfect for baby's meals
-  Triple insulating layer
-  Easy to clean
-  Anti-drip system
-  To take anywhere
-  Easy pour system
-  Soft touch
-  Ideal for baby's feeds

Keeps liquids temperature for over 24 hours

Miniland thermoses offer high resistance and efficiency thanks to their double-walled stainless steel with an exclusive copper layer and vacuum chamber.

Easy pour system

With thermy, parents won't spill a drop of the contents thanks to its easy pour and push-button closure system, allowing the thermoses to be opened and closed with just one finger, without the need to unscrew the inner cap.

Exceptional quality materials

Made from 18/8 steel (304 steel) which has very low thermal conductivity and very good resistance to high temperatures, being the most appropriate material for food storage.

Always ready for baby's feeds

Parents can prepare baby's feeds at home and take them anywhere, maintaining the desired temperature for many hours.

Minimalist design or natural motifs

You can find them in plain attractive colors and a minimalist design or decorated with motifs inspired by nature (flowers/palms/leaves). Both options have a soft rubbery exterior touch.

Detachable and easy to clean

Both the thermos cap, which can be used as a glass, and the valve are unscrewable, facilitating the cleaning of all components.

BPA-free

100% free of BPA, care of someone else. Additionally, the bags come with a handle for hanging them on the stroller with great convenience.

bottle 89438 / 89439 / 89440

500ML BOTTLES WITH A SOFT SPONGY FINISH

-  Very effective
-  Perfect for baby's meals
-  Triple insulating layer
-  Matching parents and baby
-  Anti-drip system
-  To take anywhere

It maintains the temperature of liquids more than 24 hours

Miniland thermos bottles are really tough and efficient thanks to their double 18/8 steel (304 steel) wall and their vacuum chamber, so they keep liquids hot or cold throughout the day.

Design with natural motifs

Choose one of the three designs in earth colors that connect with nature, with a smooth rubbery exterior.

Reusable and durable

Made on stainless steel, it can be reused during a long period of time, prolonging its span life and contributing to the sustainability of the environment. This way, parents can teach the little ones the importance of caring and respecting the world they will live in.

Materials endowed with exceptional quality

Made from 18/8 steel (304 steel) which has very low thermal conductivity and very good resistance to high temperatures, being the most appropriate material for food storage.

PRACTICAL ISOTHERMAL BAG FOR THERMOSES AND BABY BOTTLES

-  Isolating
-  Upper opening with zip
-  Convenient handle for hanging
-  To take anywhere
-  High quality materials

Helps maintain temperature

An extra layer of insulation for thermos protects them from changes in ambient temperature and helps maintain the temperature of the beverages.

Cheerful touch for all-sized liquid thermos

The thermibag and thermibag double insulated covers have been specially designed for thermoses, bottles, or baby bottles of approximately 500ml, perfect for use with Miniland's thermy and bottles. The single bag comes in two finishes, allowing decoration of the thermoses and bottles with the parents' favorite color.

Resilient materials for added protection

Made with highly resistant materials that improve the preservation of thermoses and bottles, protecting them from abrasion, impacts, and scratches. Additionally, the double bag features an interior separator to prevent elements from rubbing against each other and increase insulation.

Portable to any place

Parents can take their thermos and bottles anywhere. Perfect for traveling or leaving the baby with someone else. Moreover, the bags have a handle to easily hang them on the stroller.

Top zipper opening

The top zipper opening of the thermal bags allows for easy use of the thermos or bottles without having to take them out.

food thermy 89445 / 89446

RANGE OF THERMOSES FOR SOLID FOOD, 280ML AND 600ML WITH A SMOOTH FINISH

-  Triple insulation layer
-  Portable anywhere
-  For all types of solid foods and porridge
-  Easy-opening valve
-  Perfect for baby's meals
-  Soft touch
-  Easy to clean

Suitable for all types of solid foods

Both food thermy mini and food thermy are ideal for feeding from the first porridge to all kinds of solid foods.

Exceptional quality materials, the best in the market!

With double steel walls and an exclusive copper layer. Made with 18/8 steel (304 steel), which has very low thermal conductivity and excellent resistance to high temperatures. The most suitable for food preservation.

Feeding directly from the same container

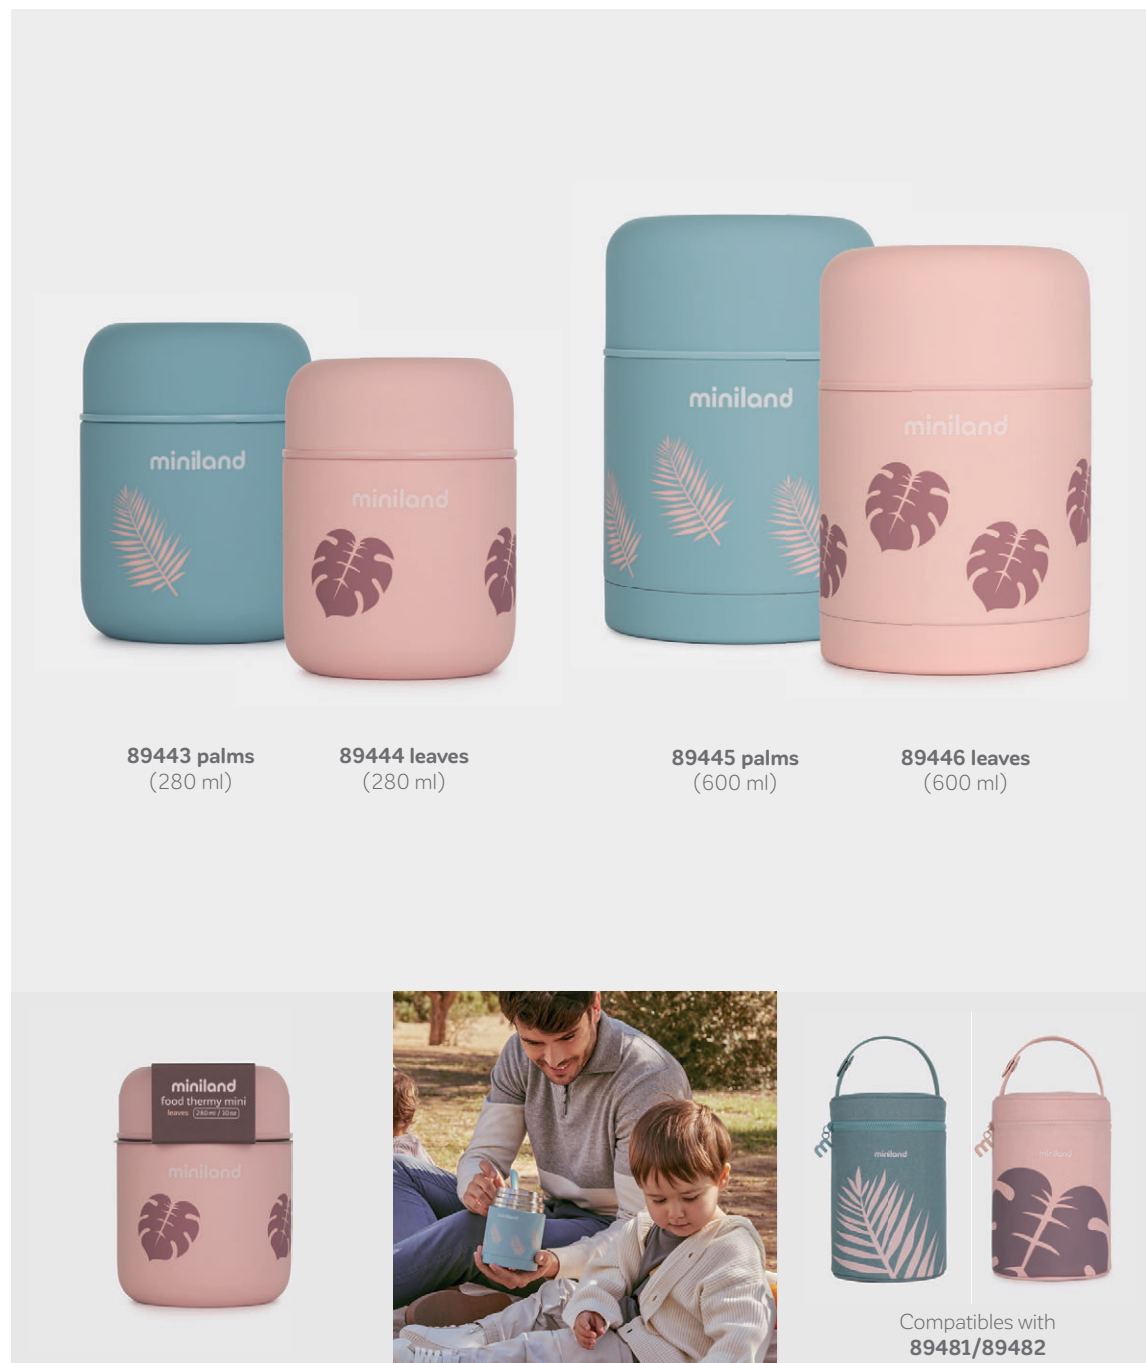

Both thermos options are very convenient for feeding the baby without having to pour the contents into a bowl or plate.

Portable anywhere

Both models are perfectly sized to carry anywhere according to the needs of each parent. Additionally, they have a valve to release pressure from inside the thermos, making it much easier and more comfortable to open.

-  To take anywhere
-  Convenient handle for hanging
-  High quality materials
-  Upper opening with zip

Helps maintain the temperature

An extra layer of insulation for the thermoses, protecting them from changes in ambient temperature and helping maintain the temperature of drinks.

A cheerful touch for liquid thermos of all sizes

The isothermal thermibag bags have been specially designed for thermoses of 700ml, and allow the parents to decorate the thermoses with their favorite color. In addition, they are ideal for use in conjunction with Miniland's thermoses.

Durable materials for greater protection

Made with highly durable materials that improve the conservation of the thermoses against abrasion and protects them against bumps and scratches.

To take anywhere

Parents will be able to choose the size which best fits each thermoses to carry it anywhere. Perfect for travelling or for leaving the baby with someone else. Furthermore, the bag has a handle to hang it to the pram with total comfort.

Upper opening with zip

You can use the thermos flask comfortably with the zip opening at the top of the thermal bag without needing to take it out.

A PRACTICAL SET OF ANATOMICAL DEVELOPMENT CUTLERY WITH A PROTECTIVE CASE

- | | | | |
|---|----------------|---|------------------------|
|  | Evolutionary |  | High quality materials |
|  | Soft |  | Hygienic case |
|  | Great capacity |  | To take anywhere |
|  | Rounded tips |  | Dishwasher safe |

Anatomical cutlery for all your baby's stages.

picneat consists of a soft spoon which is easy on the gums for the introduction of food, a great capacity spoon and a round-tipped fork for greater safety.

To take anywhere always clean!

The safe-locking case ensures parents can always store the cutlery in a hygienic manner. Moreover, this accessory allows the cutlery to be taken anywhere in the simplest and most convenient manner.

Learning to eat on their own!

The handles are ergonomic and extremely easy and convenient for a baby's little hands to grasp. This excellent cutlery will help babies to practice eating on their own.

Manufactured in Spain with top-quality materials

picneat is manufactured in Spain with top-quality PP, guaranteeing the cutlery is both highly resistant and proofed against the naughtiest toddlers. It is also BPA free.

Suitable for dishwashers

The cutlery and case may be washed in dishwashers.

nutrihealthy plate 89422

NUTRITIONAL PLATE TO LEARN TO EAT HEALTHY

BLW Suitable for BLW

 Dishwasher safe

 Fun

 Spain Made in Spain

To enjoy a healthy, balanced diet

This plate shows the recommended proportions for each food group, so that little ones can learn which food groups should be in the two main meals: lunch and dinner.

Great for parents

Parents will find this plate very helpful, as it is easy for the little ones to understand, assisting them in becoming familiar with healthy foods and the right portion sizes.

Appealing design

Kids will be delighted to eat with it! Its decoration represents foods from each of the different groups, helping them become familiar with various types and varieties of food.

Dishwasher safe

It can be safely used in the dishwasher.

Designed and produced in Spain

Our Nutrihealthy plate is designed and manufactured in Spain, adhering to the highest quality standards, using the best production processes and materials.

sets hermisized

SET OF AIRTIGHT CONTAINERS IN THREE SIZES

-  200 ml, 250 ml and 330 ml
-  Ideal for breast milk
-  Allows writing in pencil
-  Ideal for freezing and heat.
-  Preserve the properties of food
-  To take anywhere
-  Graduated
-  Made in Spain
-  Stackable

The baby's feedings are always ready, to the mountains, to the beach or to the park! It allows parents to prepare feeds at home and take them anywhere. They are the ideal size to carry in your bag, in any isothermal bag or cooler.

Made in Spain

Graduated airtight containers with a capacity of 200 ml, 250 ml and 330 ml, made in Spain with highly resistant materials.

To accurately control the feeding of the baby

The measures in the glass allow to adapt the shot to the needs of the baby at all times. In addition, the side surface allows pencil writing of data such as the baby's name, date and type of food or food contained for greater control.

Store breast milk

Very suitable for storing breast milk, either to refrigerate and consume on the same day or to keep for longer in the freezer.

For all types of solid or liquid food

Ideal for the first porridge and all kinds of solid foods, from appetizers and snacks to desserts. It is very suitable for other liquid foods such as broths, consommés or natural juices.

Set 10 and set 12 also includes two types of spoon: a softer one meant to be gentle on the littlest ones' gums and a deeper one for older children.

Frozen and thawed food with all the guarantees

Baby food is preserved in the freezer maintaining its nutritional properties, aroma and flavor. The graduated glass is suitable for microwaves, which allows you to defrost food in a moment with total comfort and safety.

Heat anywhere

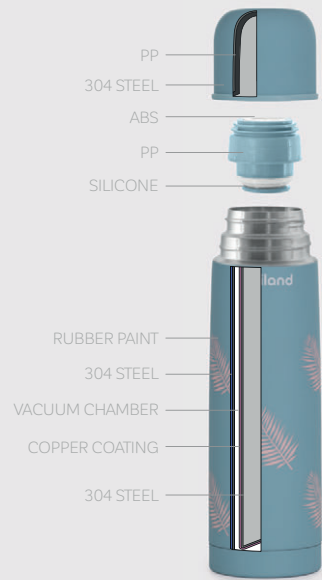

Very comfortable to heat food in the same airtight container, in any bottle warmer, microwave or in a bain-marie, right at the moment of taking it.

Bisphenol A free

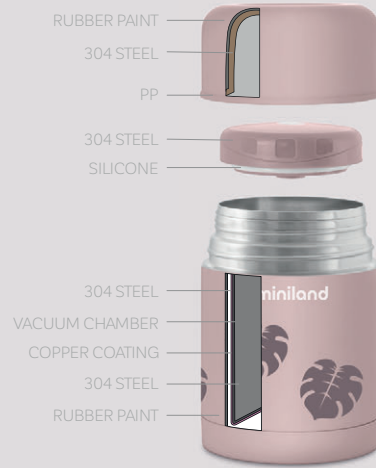

100% BPA free.

magical collection

2024

TO DREAM BY MAGIC

Turn dreams into reality

Stars and moons characterize the magical collection of Miniland, focused on parents who give free rein to the creativity of the little ones. Because fantasy and imagination will open the way to a new world where their wishes and illusions can come true.

This line is made up of a variety of items, from the most innovative to the most common in baby's everyday life. The plush magic wands with a light for company or the very decorative nightlights will make sure that the little one never feels alone.

The collection is completed by other baby care essentials such as the carekit and the magical thermometer, essential for grooming. And other very practical items outside the home, such as the thermos bottles, the pacifier holder or the health booklet, essential for medical appointments.

NO-MORE-FEARS WHITE STAR AND MOON LIGHTS

Activation by movement

Timer (30 min)

Sound activation

With hook and loop to hang it from the crib or pram

White light

Bid goodbye to a fear of the dark

In the shape of a star or a moon, these fantastic magic wands are your baby's perfect companion at night since their soft relaxing light encourages calm in the dark bringing on sleep again.

Easy cleaning

Manufactured as a soft toy that is pleasant to the baby's touch, the extractable light module means you can wash it whenever needed.

Different activation modes according to the baby's taste

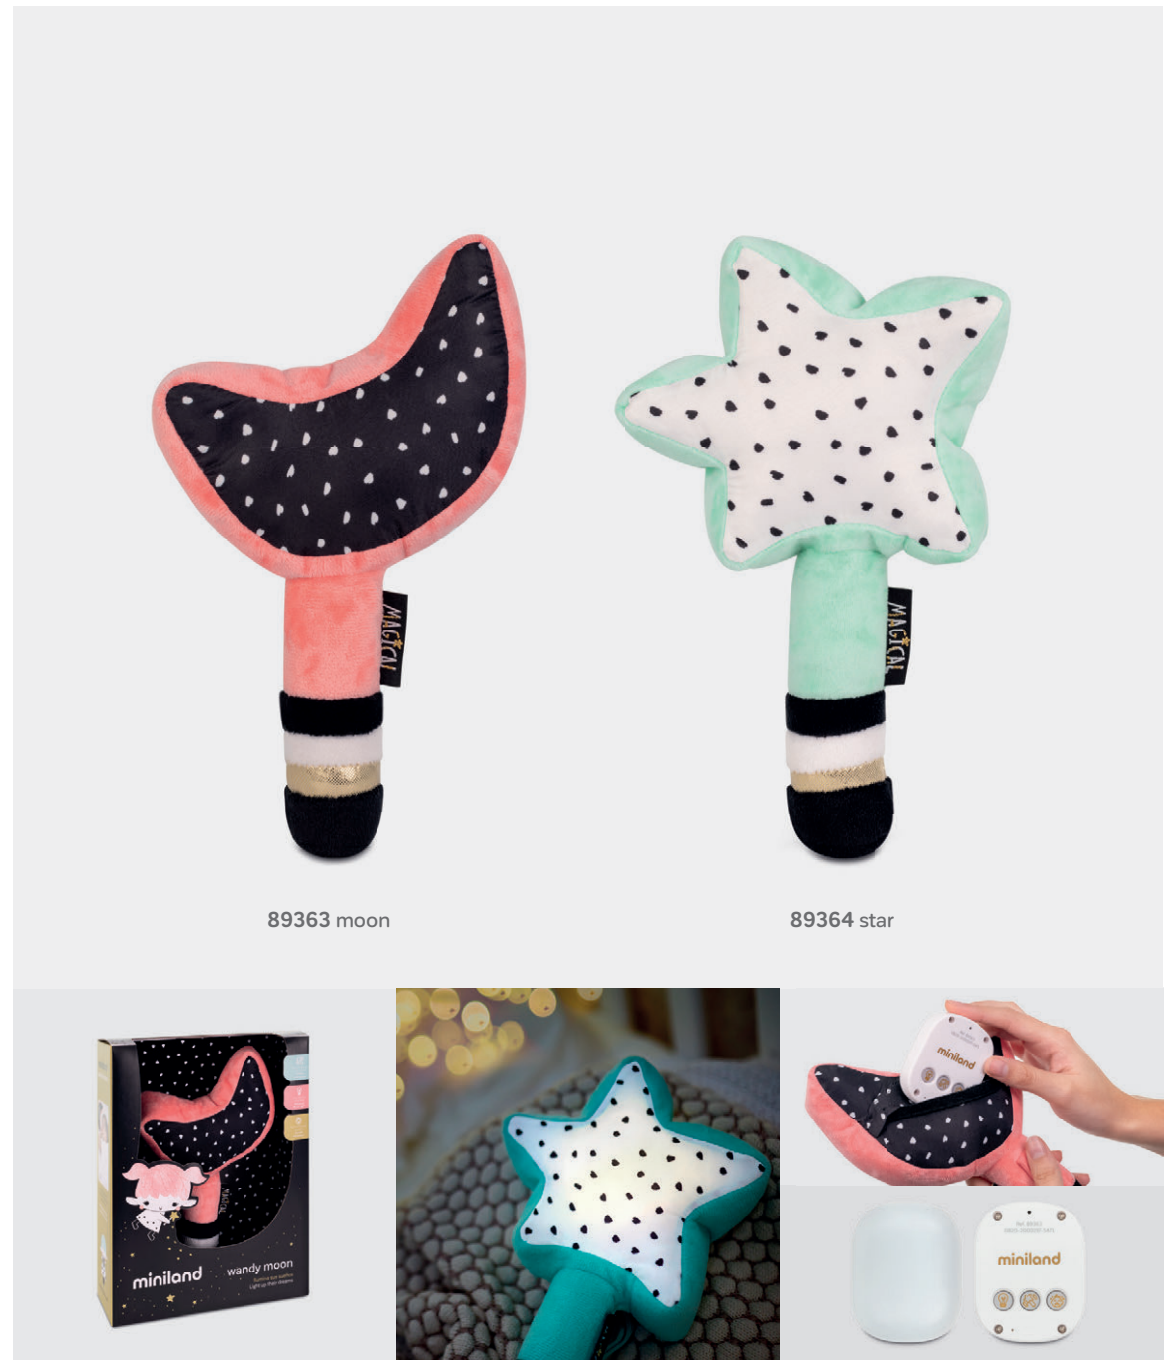

It can be used in normal mode for constant operation, in movement mode when shaken by the baby as if it were a real magic wand, or activated by sound since it incorporates a sensor to pick up baby's crying.

Automatic turn-off or continuous mode

Wandy can be used in continuous light mode, or automatically turn off after 30 minutes of use. It operates with a long-life rechargeable battery.

Always visible anywhere

It includes a practical hook and loop strip at the rear to attach it to the stroller, cot or any other element so it can always be close by and visible to the baby.

SILICON NIGHT LIGHT PLAYING RELAXING SOUNDS

- | | |
|--|--|
|  Soft and soft to the touch |  Rainbow night light |
|  Timer (30 min) |  Sounds designed for the baby |
|  3 fixed colors |  Safe |

Soft and smooth to the touch

Made of silicon, highly flexible and easy for little hands to grip since it is smooth and soft to the touch.

A relaxing sound to encourage sleep

It plays five sounds that help baby relax and sleep.

A light your baby chooses

The color of the light can be selected to your baby's preference: you can choose between soft white light, intense white light, changing rainbow light, or a single color. The different light modes are activated by pressure or soft tapping.

Sleep peacefully

This night light can remain on throughout the night to keep your baby feeling safe thanks to its long-life rechargeable battery, or it can turn off automatically after 30 minutes.

dreamcube 89311

COMPLETE PROJECTOR WITH SOUNDS, MELODIES, AND SOUND ACTIVATION

-  3 projections to choose from
-  Sound activation
-  Customisable: play back any song
-  Several melodies
-  Works with batteries or connected to the mains supply

Relaxes even the fussiest babies!

Thanks to the sweet lullabies and sounds, the relaxing drawings projected on the ceiling and the soft coloured lights, dreamcube helps relax and sleep even the most awakened babies.

Continuous mode or audio activation

The projector can work continuously or via sound activation, in which case it will remain on sleep mode while the baby rests peacefully, automatically activating itself if it detects the baby's cry so that it can help them to go back to sleep.

In addition, after three minutes it will shut down again to avoid disturbing the babies in case they have already reconciled sleep.

Projections and music that the baby will like

With dreamcube it is possible to choose from three different projection patterns according to the baby's preference. Furthermore, it comes with 15 preset melodies and sounds. For all preferences!

Infinite possibilities for music and sounds

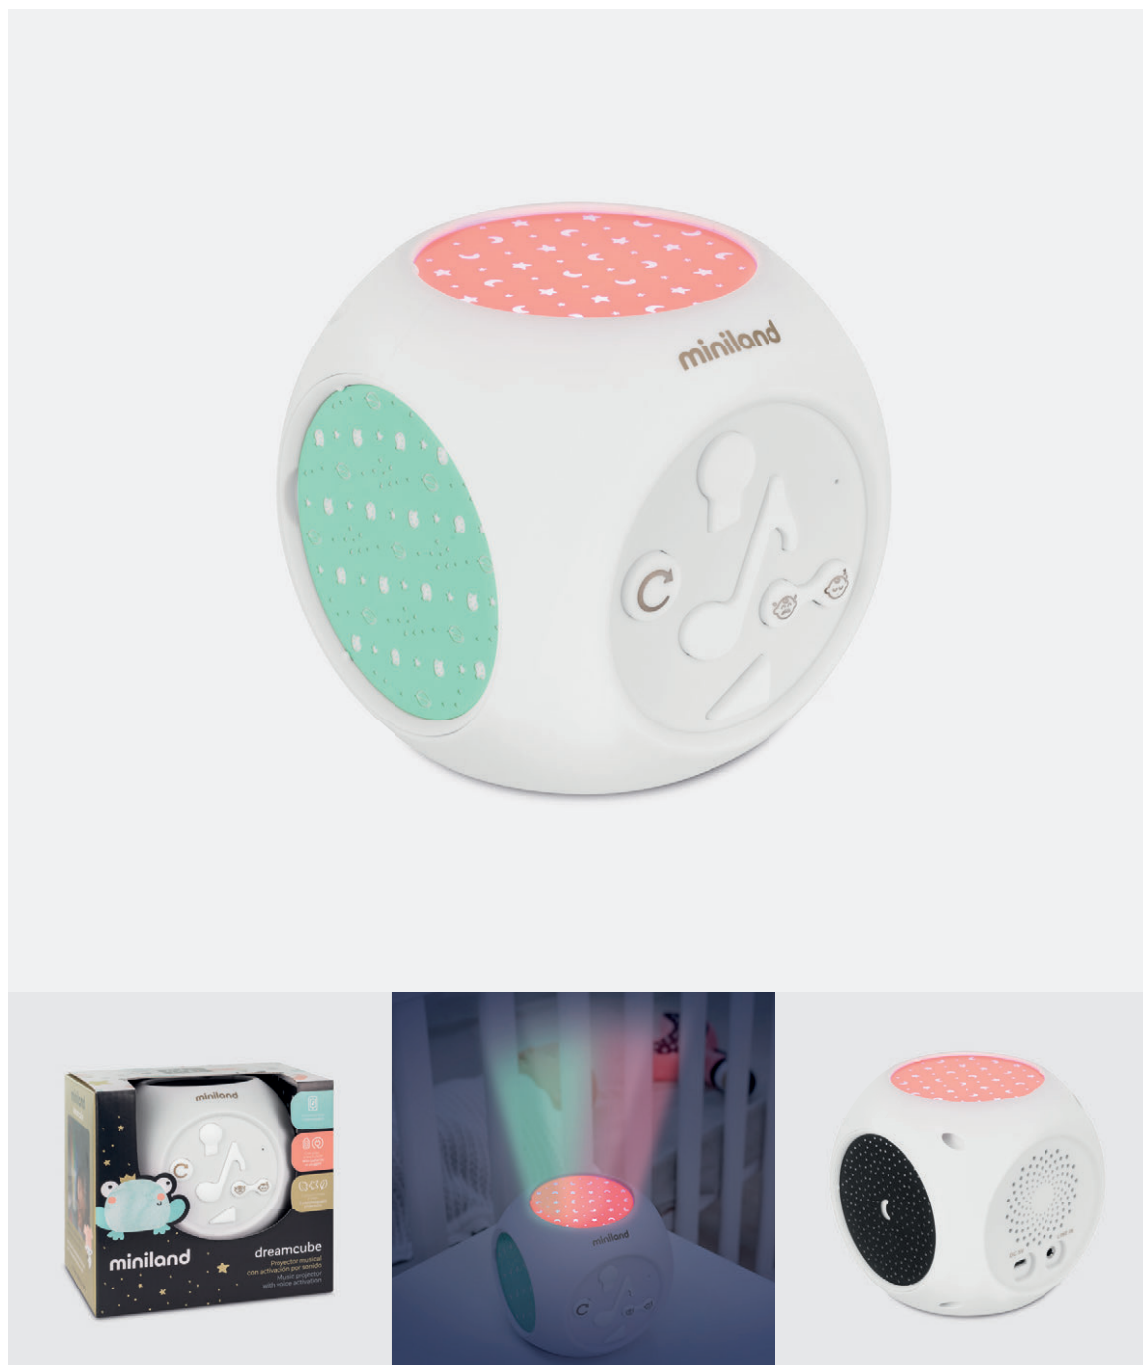

As well as the preset sounds it is possible for any melody to be played back thanks to its audio connector. This can be used to connect the projector to a computer, a mobile phone, etc. to make the little one enjoy any melody or sound without limitations.

Independent and combinable sound and projection

dreamcube adapts to the needs of each baby and parent. Melodies and projections can be used combined or independently, so that the baby can enjoy only the projection, the music or the combination of both as desired.

Connect it to the mains supply or use it on battery power

dreamcube can be used connected to the mains supply, allowing the parents not to have to worry about the projector's operational time or with batteries if they prefer to avoid the use of cables.

thermobaby 89357

thermokid 89358

THERMAL 240 ML BOTTLES FROM STAINLESS STEEL WITH NIPPLE OR STRAW

	Evolutionary		To take anywhere
	No spills		With scale
	Cold and hot foods		Learning handles

Keeps liquid's temperature for even longer

The Miniland thermobaby and thermokid thermal little bottles maintain a liquid's temperature for even longer thanks to its double wall of steel, so the little ones can enjoy them everywhere.

Two options according to the baby's age, and also interchangeable

Two models of thermal bottles depending on the age of the baby: thermobaby, with nipple, is aimed at babies between the ages of zero and two years, and thermokid, with straw, is designed for slightly older children between the ages of two and four years. In addition, the bottles are interchangeable for being able to mix the sizes, colours and accessories as desired.

A fun outer design

An original fun design in attractive colors with a soft and spongy outer texture.

Materials of exceptional quality

With 18/8 steel (304 steel) on the interior, which offers extremely low thermal conductivity and great resistance to high temperature, it is the best choice for food conservation.

Easy to hold

Thanks to the handles on the sides, the baby can grab the little thermal bottles with their little hands. Furthermore, the handle can be easily taken off or put on as deemed preferable.

Ideal capacity and controlled amounts

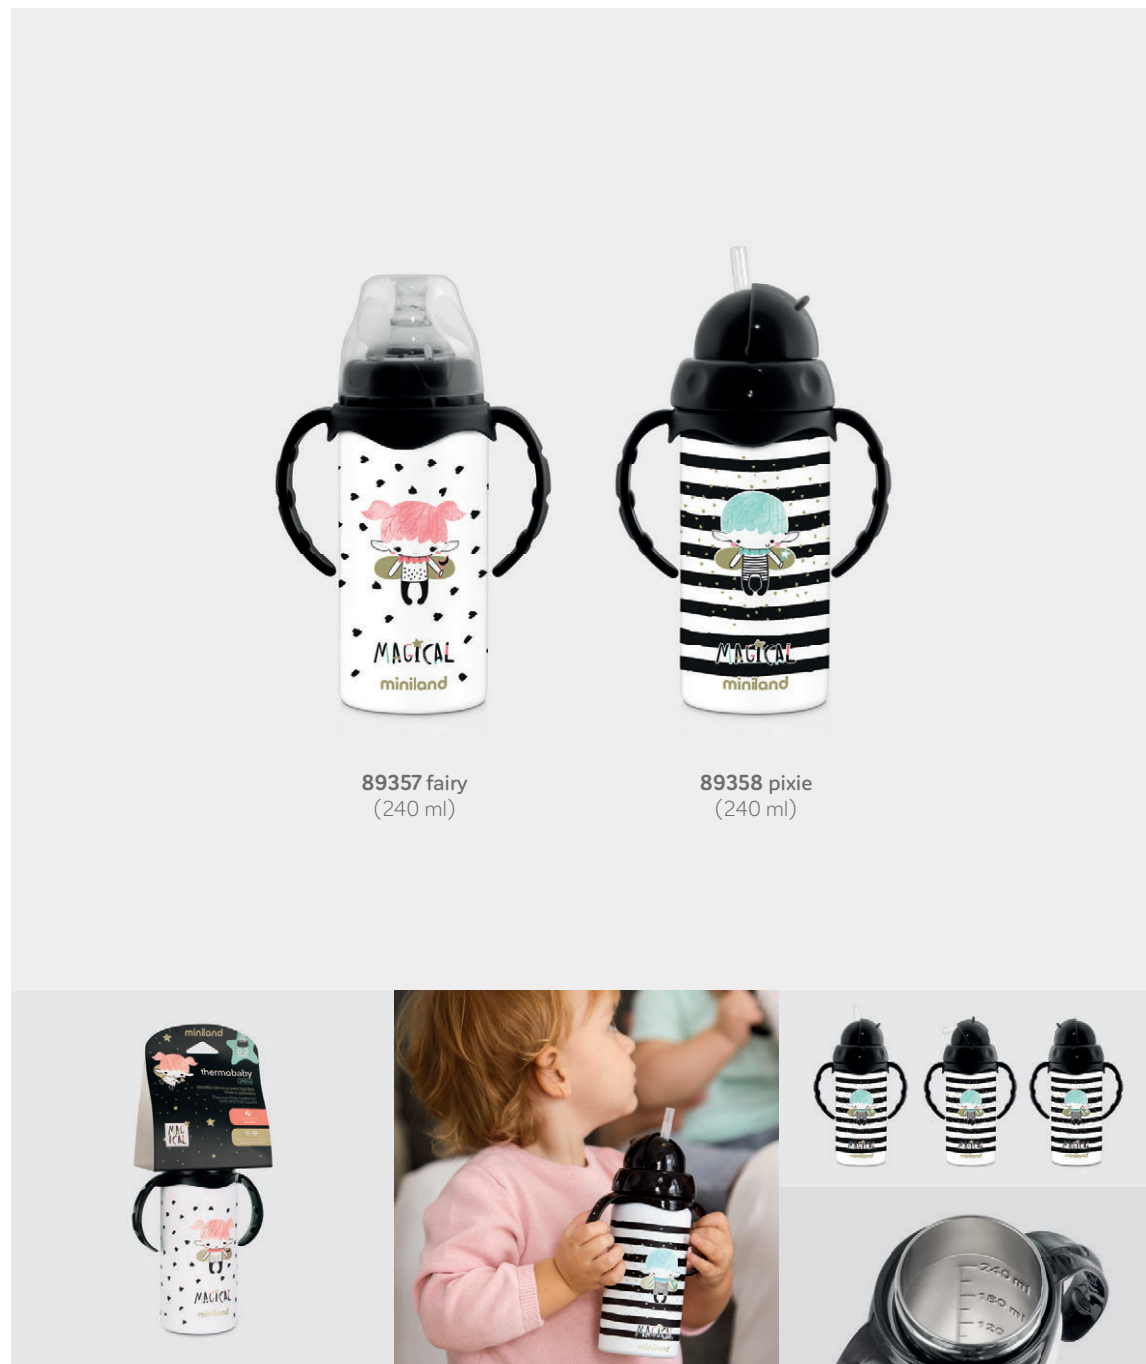

The thermobaby and thermokid, with a 240 ml capacity, come with a practical measuring scale inside.

Nipple or straw anywhere and without any spills

Thanks to the protective lid on the thermobaby magical and the closure system on the thermokid, both the nipple as well as the straw will always be kept clean and ready for use. Furthermore, they also protect against unwanted spills when they are being carried.

No bisphenol A

100% BPA free

kid bottle 89421 / 89461

270ML THERMOS FLASK PERFECT FOR THE LITTLE ONES AT HOME

- 12h | Highly effective
- To take anywhere
- Double insulation layer
- No spills
- Cold and hot foods

Exceptional quality materials

They are made of 18/8 steel (304 steel) on the inside, which has very low thermal conductivity and very good resistance to high temperatures, the most suitable for food preservation.

Reusable and durable

Its manufacture in stainless steel allows for prolonged use and reuse over time, contributing to environmental sustainability. In this way, parents can teach their children the importance of caring for and respecting the world in which they are going to live.

In addition, they have an ideal size (270ml) so that children can go anywhere with them.

They keep liquids at the right temperature for a longer time

Miniland's little bottles keep drinks hot or cold for longer thanks to their double stainless steel wall, so that the little ones stay well hydrated at school, on excursions... wherever they are!

Fun design

With attractive colours, fun and original designs, the magical bottle has two fun designs, so you can choose the one you like best: Fairy and Pixie.

Bisphenol A free

100% BPA free.

pacipocket 89335

WOVEN PACIFIER CASE WITH A CARRY HANDLE

-  To take anywhere
-  180° opening
-  Upper opening with zip
-  High quality materials
-  Waterproof fabric

Pacifiers always stay clean

They protect the pacifier from impurities and external agents, keeping it always clean, whether at home or on a walk, carrying it comfortably and hygienically.

Handle for comfortable carrying anywhere

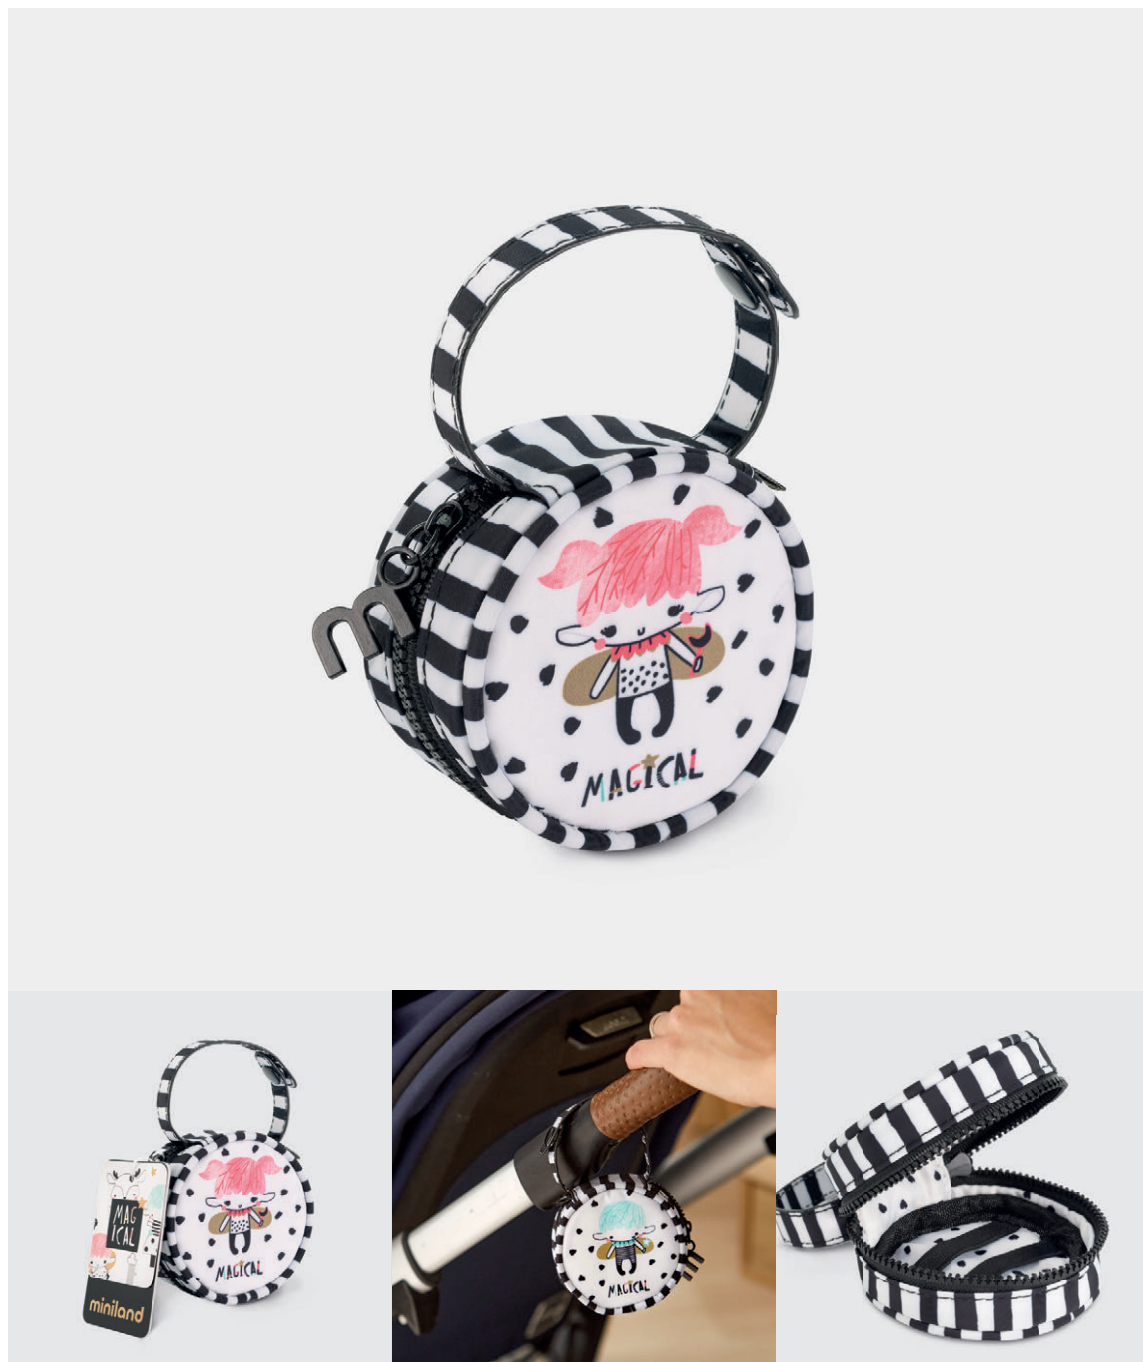

It includes a handle topped by a button to attach it to the cot, crib, stroller or handbag so you always have it handy.

With a zip seal for greater safety

It ensures the pacifier is always in perfect condition thanks to its zip seal.

Very comfortable

Its waterproof fabric is easy to clean. It also has interior strips to hold the pacifier so that it doesn't fall when opened.

carebook 89336

MAGICAL HEALTHCARE BOOK COVER AND DOCUMENT POUCH

-  To take anywhere
-  180° opening
-  Opening with zip
-  High quality materials
-  Waterproof fabric

Always at hand for medical visits

It protects your healthcare notebook from deterioration through use and carries all the documentation relating to your baby so you can always find it for all your pediatric visits.

Documentation visible in additional compartments

Diverse compartments with a transparent pocket in different sizes let you keep both your healthcare book and other doctor's cards, prescriptions or appointment cards well organized and in sight.

Zip seal so as not to lose any data

Make your document pouch the perfect ally for carrying in the bag on your stroller or vanity kit so you never forget it.

Comfortable size fits the standard

At 17x24 cm, it is the same size as the healthcare books provided by hospital maternity.

Waterproof exterior

Thanks to the waterproof fabric of the carebook, you can clean the cover quickly and comfortably.

carekit 89365

ESSENTIAL BABY CARE KIT FOR HOME OR TRAVEL

 At home and in the car	 Bag with waterproof interior
 7 hygiene products	 Comfortable hook for hanging anywhere

- Silicone Gum Brush (1)
- Nasal aspirator (2)
- Comb (3)
- Natural bristle brush (4)
- Scissors (5)
- Nail clippers (6)
- 2 file nails (7)

All the basics for your baby's care and hygiene

This fun baby care kit includes all the essentials for your little one's daily care and hygiene: a comb and natural bristle brush, scissors, nail clippers and two files for manicuring their nails, a nasal spray and a silicon brush for cleaning their wee teeth and massaging their gums.

Practical for use at home or away

It includes an extremely useful hook at one end to hang it in any spot in the room, whether at home or traveling. It also has a handle for carrying the bag comfortably once folded.

Everything in sight

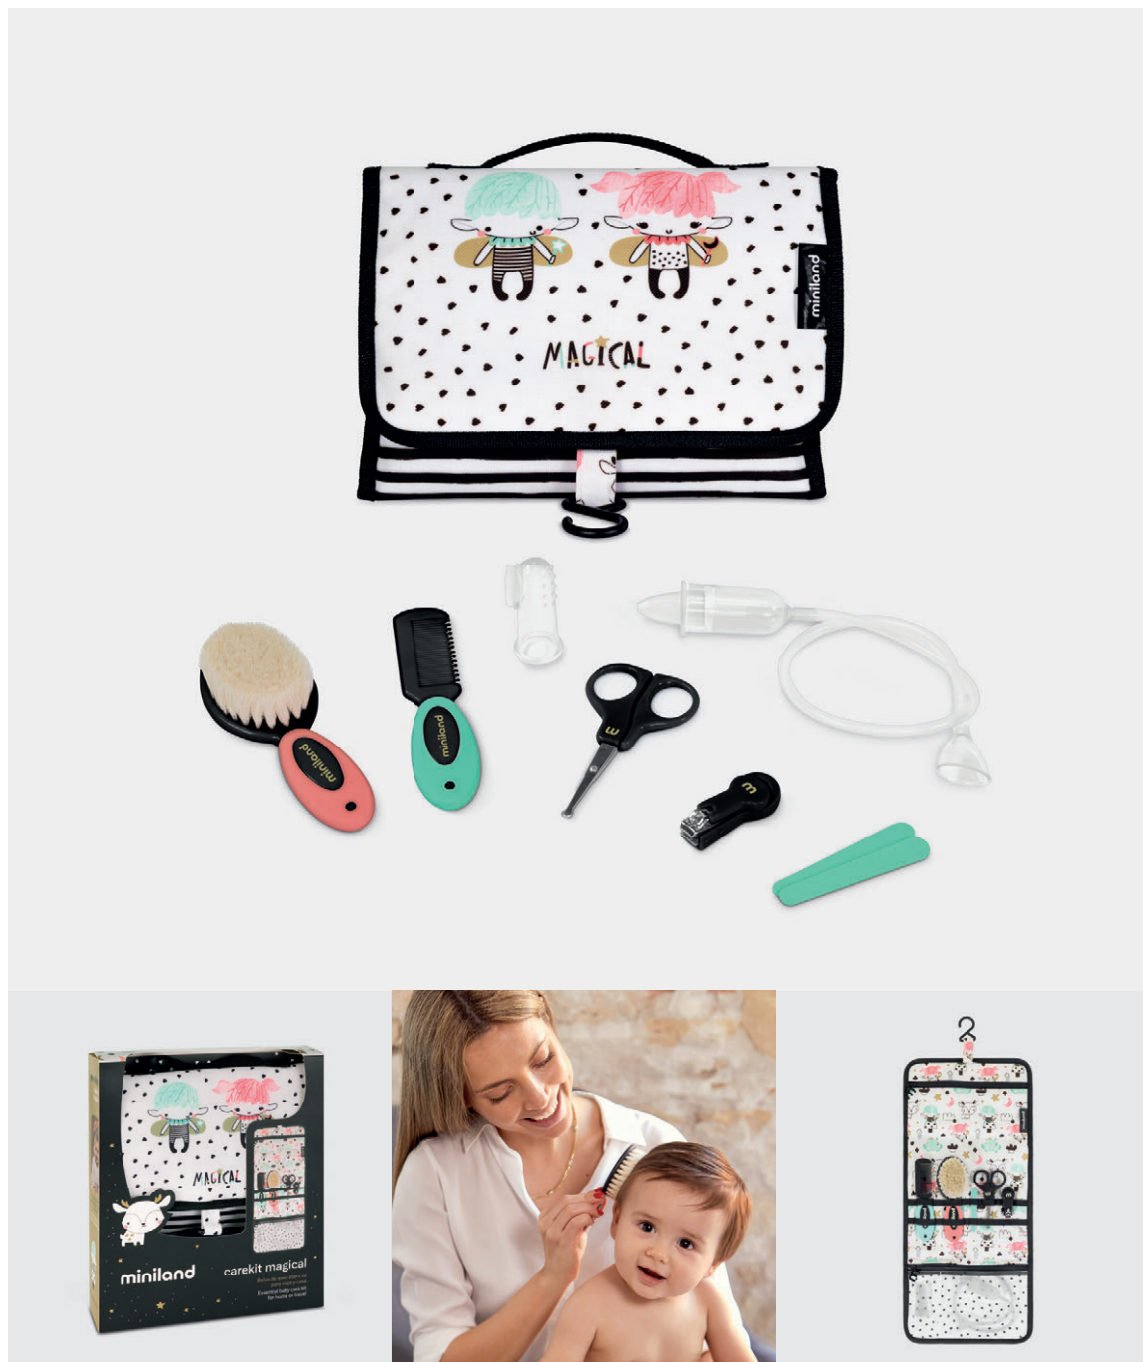

The care kit opens completely, so you have all the items in the set within view.

Compartments to have everything at hand

The bag's interior is organized into three spaces to help organization. It contains two zipped pockets, one of which is transparent for your hygienic items so the content can be seen. There is also an intermediate space that holds the other accessories with elastic strips.

Easy to clean and dry

The interior of the carekit is waterproof, making it easy to clean and ensuring the items inside are always dry and ready to use.

thermo bath 89337

BATH AND ENVIRONMENTAL THERMOMETER WITH THE FRIENDLY SHAPE OF A FROG

	Stopwatch & timer		Bath thermometer
	Environmental thermometer		Alert of high / low temperature
	Playmate		Clock

A pleasant and funny bath under any circumstances

thermo bath allows the parents to easily control at any time both the bath water and the room temperature as it measures them constantly, showing on its screen any variations that occur.

The baby's favourite temperature

The ideal bath temperature at home varies between 36 and 38 degrees. With thermo bath you can reach your baby's favourite temperature and make sure that it does not move away from these values.

Playmate

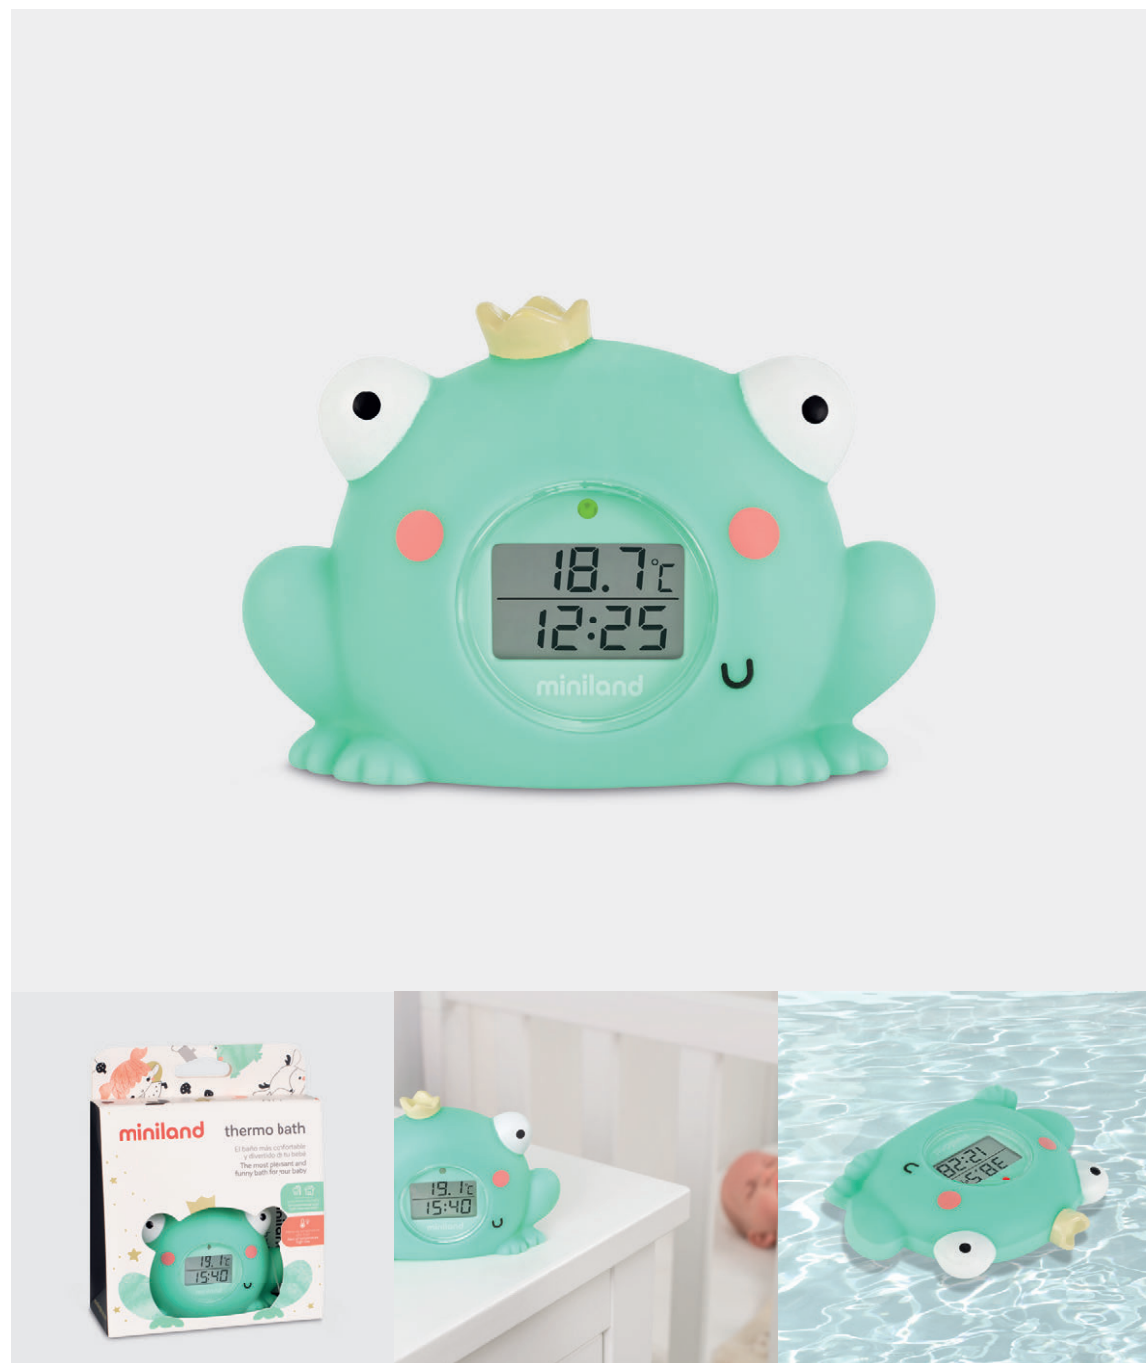

The baby may hold it and even submerge it when it is floating as it complies with the toy safety standards.

Alerts for high or low temperature

The frog warns with a green light when the water temperature is lower than 30°C and with a red light when it is greater than 39°C. In addition, it shows arrows on the screen indicating that the water temperature is out the comfort range.

Controls the bath time

Aside from the digital clock, thermo bath also has a stopwatch with a countdown and count forward which allows parents to control bath time.

INSPIRED BY YOU AND YOUR BABY!

Every pregnancy and every baby is different, as is every family. There's no instruction manual... No matter how hard we try! That's why at Miniland we've developed a highly useful and fully customisable tool: Miniland emybaby®. This app focuses on both, the pregnant mother's wishes and the baby's needs during the first months of life in order to make this incredible adventure easier, safer and calmer.

Miniland emybaby® is designed around everything families need to better organise themselves and enjoy every stage of their baby's development to the full, even before birth. They can use it to listen to and feel the excitement of their baby's first heartbeats, follow their baby's evolution during these first months full of changes, prepare the most nutritious and delicious recipes, keep track of all their pre-natal, paediatric and vaccination appointments so that they don't miss a single one, save and share photos... And much more!

We're so happy with Miniland emybaby® because it's a project born from the experience we've gained over more than 60 years alongside thousands of families, learning to improve together every day. Thank you for helping us make it possible!

PREGNANCY. Connected from the first heartbeat

During pregnancy, a unique bond is created between the family and their baby that will last a lifetime. And even more with Miniland emybaby®! Because this app connects to the sweetBeat heart listener, with which we can listen to and feel the excitement of sharing the baby's heartbeat from the 16th week of pregnancy. So sweet! Moreover, you can keep track of all your pregnancy from this section too.

BABY. Everything under control

Feeling in control provides peace of mind. Miniland emybaby® gathers all the data on the evolution of your baby's weight, height, head circumference and temperature in a single application so that this data is always available and can be shared if necessary. And how do you enter the data? It couldn't be easier: either manually or automatically, in the case of our connected devices such as scales or thermometers. This makes it much easier to keep track of everything.

NUTRITION. Feeding their development

Starting weaning can be a challenge for families. That's why our app also provides you with solutions for this, with expert advice, ideas and recipes for our chefy 6, whether you're using BLW or feeding your baby with purées. This way we stimulate our babies' development and also the imagination of those caring for them.

SLEEP: Sweet dreams

Bedtime is essential for babies and their families. At Miniland, we know this, which is why we've integrated endless possibilities into Miniland emybaby®, including lullabies to help them get to sleep and the most relaxing sounds, such as those taken from nature. And with our musical plush toys they can also listen to their parents' soothing voices. Because sleeping also helps them grow!

APPOINTMENTS. Always up to date

When your diary's overflowing with pre-natal, paediatric or vaccination appointments, you'll be thankful for an app that brings a bit of order to your life. Miniland emybaby® has taken this into account and helps families manage their appointments so they don't miss a single one. Wave goodbye to stress!

AND MUCH MORE.

You can also find all the connected Miniland products in a single application, as well as keeping up to date with the latest news and exclusive contents for parents.

sweetBeat 89304

LISTEN TO, FEEL AND SHARE THE SWEET BEAT OF THE BABY, NOW AND ALWAYS

-  Listen to and record the foetus' heartbeats
-  Bluetooth 4.0
-  From week 16
-  Share the sounds on the emybaby® app
-  Extra functionalities in the emybaby® app
-  Rechargeable using microUSB

The most modern heart listener on the market

This innovative device allows you to listen in real time to the foetus' heartbeats and record them by connecting the device using Bluetooth technology to the mobile app emybaby®. Furthermore, with sweetBeat, you can use headphones or listen to the beats from the mobile device.

After the first trimester

sweetBeat allows the parents to listen to prenatal activity from week 16, meaning that they can hear the baby from the beginning of the second trimester to the end of the pregnancy.

Allows to share the baby's hearbeats with the loved ones

The emybaby® app allows the recorded audio files to be shared with family and friends. In this way, the parents-to-be will be able to listen to the first movements of their baby on their mobile phone or tablet and share them on social networks with their closest relatives and contacts.

Parents can follow the pregnancy step by step in the mobile device with emybaby®

As well as a heart listener, Miniland has developed an entire module in the emybaby® app for the pregnancy. There we can find sections such as the one for the mother, where all medical data during the pregnancy can be stored; a module with all the information related to the baby's development; a space to add the most important medical appointments; a contractions counter for when the moment arrives to give birth, and even a baby diary to write down the evolution of the pregnancy day to day.

Small, convenient, and with a rechargeable battery

The rounded and compact design of sweetBeat as well as its small size means that it is convenient and easy for mothers to use. Furthermore, it has a rechargeable battery that can be charged using any microUSB cable.

sweetBeat gel 89211

250 ML ULTRASONIC CONDUCTIVE GEL BOTTLE

sweetbeat can be used with the 250 ml ultrasonic conductive gel bottle so that parents can listen to their baby as many times as they wish with the highest quality.

humitop connect 89318

INTELLIGENT HUMIDIFIER WITH WIFI

 35h	Maximum autonomy	 Wi-Fi	Wifi
 40m²	Efficiency		Capacity 5.5l
	Temperature sensor		Optional night light
	Automatic disconnection		Top Filling
	Adjustable humidity and steam flow		Power-off timer

Greater humidity control from anywhere using a Wi-Fi connection

Using the emybaby® app, you can monitor the evolution of the room's atmosphere since it displays graphic values for humidity and temperature, giving a warning signal if it surpasses the desired levels. Furthermore, so as not to surpass them, the device allows automatic regulation.

Control of the desired atmosphere in the room

Using the intelligent programming function for relative humidity and vapor flow. The vapor flow can be regulated using three power levels: low, medium, and high.

The top filling cap makes it more convenient to use

The top filling cap enables easy access to fill the reservoir without the need to move the device, making it more practical and convenient to use.

Switch-off timer up to 12 hours

This helps to program when the vapor switches off at the desired time within a broad interval, from the initial switch-on time up until 12 hours later.

Front touch panel allows intuitive use

It displays the data collected by the humidity and temperature sensor and allows the user to adjust the vapor and humidity control and programming functions simply and intuitively.

It functions independently for more than 35 hours

Adjusted to minimum power input and maximum filling capacity of 5.5 liters. It incorporates a warning device when the water level drops via a change in the night light color from blue to red. Ideal for rooms up to 40 m².

Night light and aromatherapy for more restful sleep

It incorporates a soft blue night light, which can be adapted to the baby's tastes in lit or off modes, and a compartment for adding essential oils for every possible use.

chefy 6 89424

COMPLETE MULTIPURPOSE 6-IN-1 KITCHEN ROBOT

 Steam cooks	 Holds the temperature
 Grinds	 Perfect for breast milk
 Sterilises	 Digital display
 Heats up uniformly	 Very easy to use
 Defrosts	 Automatic disconnection

6 functions in one kitchen robot

- Warms baby bottles and jars
- Sterilizes baby bottles
- Steams food
- Maintains the temperature of baby bottles and jars
- Crushes food
- Defrosts bottles and jars

Learning to eat by themselves

chefy 6 will help families with the baby's food. If the Baby Led Weaning method is chosen for the exciting first approach to solids, Chefy6 will be a great support too. In addition, through the miniland emybaby® app you can access the book "Recipes, nutrition and children's diets" that includes practical advice on children nutrition adapted by age, as well as recipes for both BLW and mashes depending on the chosen method, which will be of great service.

Perfect crushing

It incorporates 2 double blades located at different heights, with a series of perforations, to achieve a perfect crushing and the desired texture of the food.

Perfect for warming breast milk

Soft and uniform defrosting and heating, with which none of the properties of breast milk are lost during the process, preserving all its vitamins and nutrients when the selected temperature is reached.

Effective sterilization

The most effective and natural way to sterilize is through steam. With chefy 6, it is not necessary to include any chemical substance for sterilization.

Always knowing how much sterilization time is left

With chefy 6 you can choose the preferred warming or sterilization time and see how much time is left thanks to its display.

Easy to dismantle and clean

All components can be removed easily and effortlessly for proper and easy cleaning.

eMyScale plus 89390

SCALE FOR BABIES THAT CONNECTS TO YOUR SMARTPHONE OR TABLET

-  Compatibility Bluetooth 4.1
-  Monitoring of weight in emybaby® with automatic registration
-  Hold function
-  Tare function
-  Highly accurate
-  Auto power off function
-  kg / lb / oz / g
-  Batteries included
-  Low battery indicator

From baby to child, with their weight always under control!

Precision scale that can weigh babies and children up to 22 kilos. The scale also has an overload indicator system that lets the user know when that weight limit has been exceeded.

Recording your baby's weight measurements with emybaby®

eMyScale plus connects to your Smartphone or Tablet via Bluetooth (BLE 4.1) to record the measurements taken in the emybaby® app. That way, mum and dad can keep track of the evolution of their baby's weight. Very useful for all babies and especially for new-borns or those with weight problems. This scale can be used on its own or with emybaby®.

It allows you to precisely monitor the weight of even the rowdiest baby!

The Hold and Tare functions allow you to obtain the exact weight even when the baby is moving. Its precision also makes it possible to detect small variations in the weight of the baby.

Digital display

On the front it has an intuitive digital display that clearly shows the value of the measurement, as well as all the indicators.

A practical low battery warning

A low battery indicator lets you know when you need to change the batteries, so that your scale is always ready.

Powering off to save energy

eMyScale plus automatically turns off after one minute without use, thereby saving energy and making sure the batteries last longer.

thermoadvanced pharma 89379

QUICK AND RELIABLE NON-CONTACT THERMOMETER THAT CONNECTS TO YOUR SMARTPHONE OR TABLET

-  Contactless
-  Accurate
-  Fever indicator
-  Memorizes 30 records
-  Ultrafast
-  Automatic registration of temperature on emybaby®
-  Auto power off function
-  Compatibility Bluetooth 4.1

Record the temperature using emybaby®

Using the emybaby® application, thermoadvanced pharma communicates with the Smartphone and Tablet via Bluetooth to record the temperatures taken. That way, you can monitor them at any time and place. It's possible to use the thermometer by itself or with emybaby®.

Fast, precise, contact-free measurement

Measures the temperature in just 1 second on the forehead. In addition, the measurement button changes colour from green to red if it detects a temperature exceeding 38°C.

Allows parents to consult and share the temperature records

The records taken are memorized on the thermometer and on emybaby® and they can be consulted at any time, allowing the evolution of the baby's temperature to be checked. They can also be saved on the PC or sent by e-mail.

The most complete: for bath water, the baby's bottle or mushes

thermoadvanced pharma measures the temperature of objects and liquids as well as the room temperature.

Disconnection to save energy

thermoadvanced pharma turns off automatically after 1 minute of being idle, allowing more energy to be saved and a longer battery life.

singing buddy 75002

A LITTLE MONSTER WITH THERAPEUTIC MELODIES TO HELP BABIES FALL ASLEEP

-  Record songs and stories
-  100% organic cotton surface
-  Reproduce the songs from the device
-  Promotes cognitive development
-  Sounds designed for the baby
-  Compatibility Bluetooth 3.0 & 4.0

Technological innovation for the cognitive development of the baby

With the innovative singing buddy and our exclusive emybaby® application, the baby will be able to listen and feel its parents' records, the carefully designed preset sounds and the songs from its parents device, thereby promoting the cognitive development of the baby as from its birth until it is 2 years old learning is carried out through the senses.

Close by parents wherever they may be, strengthening bonding

With singing buddy parents can record their voices, songs, or the baby's favourite tales to be played back later, either immediately or at a later time, anywhere, so the baby will always feel like they are close by.

A great source of emotions and sensations for the baby!

The singing buddy module in emybaby® has several songs and sounds which have been especially designed for the baby - such as the sound of a heart and maternal womb, sounds from nature, classical pieces, and lullabies.

Infinite possibilities for music and sounds: can be completely tailored to the parents' taste!

Aside from the predefined recordings and sounds, it is possible to reproduce the music stored on the parents mobile phone (Device music) and to create a list of Favourites, significantly expanding the options.

Anywhere, with or without its accessories

The small size and lightness of the detachable module means that it can be used anywhere and in any situation. It can be used on its own, with a strap with a clip to hook it to a bag or pram, or can even be integrated into the stuffed toy or its two accessories. It works with a long-life rechargeable battery.

THE PEACE OF MIND OF A TRUSTED BRAND

At Miniland, we have been helping the most demanding mums and dads for over 50 years. We are proud to be the first Spanish brand to introduce baby monitor technology in our country, as a result of our concern for the safety and care of our little ones. That's why we want to continue to be your trusted brand.

BABY CARE TECHNOLOGY

A baby is always a joy - and a great responsibility, even for us! And for them to grow up happy, healthy and confident, the first thing they need is a nurturing environment. Fortunately, technology is on our side and helps us to develop ideas that make it easier for us to promote their well-being, rest and safety.

At Miniland we are always connected to what children and their families need - for more than 60 years! In this section we have grouped together all those electronic products that make life easier for us in our day-to-day life with our baby, even before he or she is born: from our baby monitor for parents-to-be to all those items that will be very useful during this first stage, such as sterilisers, bottle warmers, thermometers, scales, humidifiers and purifiers, kitchen robots... A whole world of electronic products made to measure for new families in a catalogue that continues to grow, change and adapt to a future that is already present.

USER-FRIENDLY DIGITAL AUDIO BABY MONITOR WITH HIGH QUALITY SOUND

-  Voice activation
-  Night light
-  Out of range alert
-  Low battery indicator
-  Luminous sound indicator

Allows the baby to be heard with total clarity and zero interference

Thanks to its range of up to 300 meters and its digital technology, the parents will be able to hear the baby with full sound quality and zero interferences.

Maximum protection for the baby

Thanks to the VOX (voice activation), the baby monitor remains in standby mode while the baby is resting peacefully, activating again when a sound is detected. This way, the baby is emission-free, while energy is saved.

To take the parents' unit anywhere

The parents' receiving unit may be connected to the electrical mains or the rechargeable batteries included may be used, enabling parents to move around with no cables.

Nightlight

The pleasant nightlight relaxes and provides comfort to the baby, allowing it to see in a room in the dark.

Luminous indicator of sound intensity

The parents unit features two LED warning lights which light up when some sound is detected on the room. This option is particularly useful for people with sensory difficulties.

The parents unit always located!

If the parents can't remember where they have left their receiver, simply pressing a button on the baby unit will make it beep and enable them to find it.

Everything under control

The device features low battery and out-of-range alerts to ensure the parents are not left without seeing the baby.

Traveling with the baby monitor

The device is convenient enough to take anywhere. Its lightweight nature and size make it the ideal companion for any family with babies or small children.

digitalk luxe 89477

DIGITAL AUDIO BABY MONITOR WITH ADVANCED FUNCTIONS AND LCD SCREEN

-  Adjustable voice activation
-  Vibration function
-  Out of range alert
Low battery indicator
-  Alert of high-low temperature
-  Luminous sound indicator
-  5 melodies
Night light
-  Two-way

The most advanced for greater convenience

The device backlight LCD screen ensures the simple operation of all the functions and the control of everything at a mere glance, making the monitoring of the baby more convenient for the parents.

High quality sound and zero interference

The device's 300-metre range and digital technology will enable parents to listen to the baby with perfect sound quality and zero interference.

Adjustable sensitivity: for all kinds of baby!

The VOX (voice activation) function maintains the baby monitor in standby mode while the baby is resting peacefully, and is activated when some sound is detected. As some babies are noisier than others, parents can adjust the sensitivity of the baby monitor as required.

Listening to and talking to the baby

Two-way technology allows the parents to listen to the baby, to talk and sing to him a song either to calm him down or just to keep him company whilst we are carrying out some other activity.

Practical silent alerts

The vibrate function is ideal for times when parents need silence or for noisy environments. Moreover, the parents unit features a luminous sound detection indicator. These options are particularly useful for people with sensory difficulties.

Nightlight and melodies

The pleasant nightlight and the five tunes it includes, controlled from the parents unit, will relax the baby.

Control the temperature of the room

Enables you to control the temperature of the baby's room from the LCD screen. The device also features high and low temperature alerts, guaranteeing your baby will always enjoy the ideal temperature!

Monitoring from anywhere

Both the parents and the baby unit can be connected to the electrical mains or run on batteries, enabling parents to conveniently monitor their baby anywhere and with no wires.

digimonitor 2.4" 89591

MAXIMUM PORTABILITY BABY MONITOR

-  Up to 4 cameras
-  Alert of high-low temperature
-  Manual Pan&tilt
-  Standby mode (only audio)
-  Adjustable voice activation
-  Luminous sound indicator
-  Two-way

Highly Portable and Long-Range Baby Monitor

Thanks to the rechargeable battery in the parent unit and a range of 250 meters, you can comfortably carry the baby monitor around the entire house.

Sound Activation and Standby Mode

The baby monitor features a sound activation function, which keeps it silent and the screen off while the baby is peacefully resting, automatically activating when any sound is detected, thereby saving energy. Alternatively, parents can choose the standby mode to continuously hear the baby's room while only turning off the screen to avoid disturbing their sleep during the night.

Listen and Talk to the Baby

The bidirectional technology allows you to not only listen to the baby but also talk or sing to them, either to comfort them or simply keep them company while parents are engaged in other activities.

Room Temperature Monitoring

You can keep track of the baby's room temperature from the parent unit. Moreover, it includes high and low-temperature alarms to ensure the baby's room stays at the perfect temperature at all times.

Sound Level Indicator

The parent unit has multiple warning lights that illuminate when sound is detected in the baby's room, making it especially useful for people with hearing difficulties. Grandparents will appreciate this feature!

Connect up to 2 Cameras to One Monitor

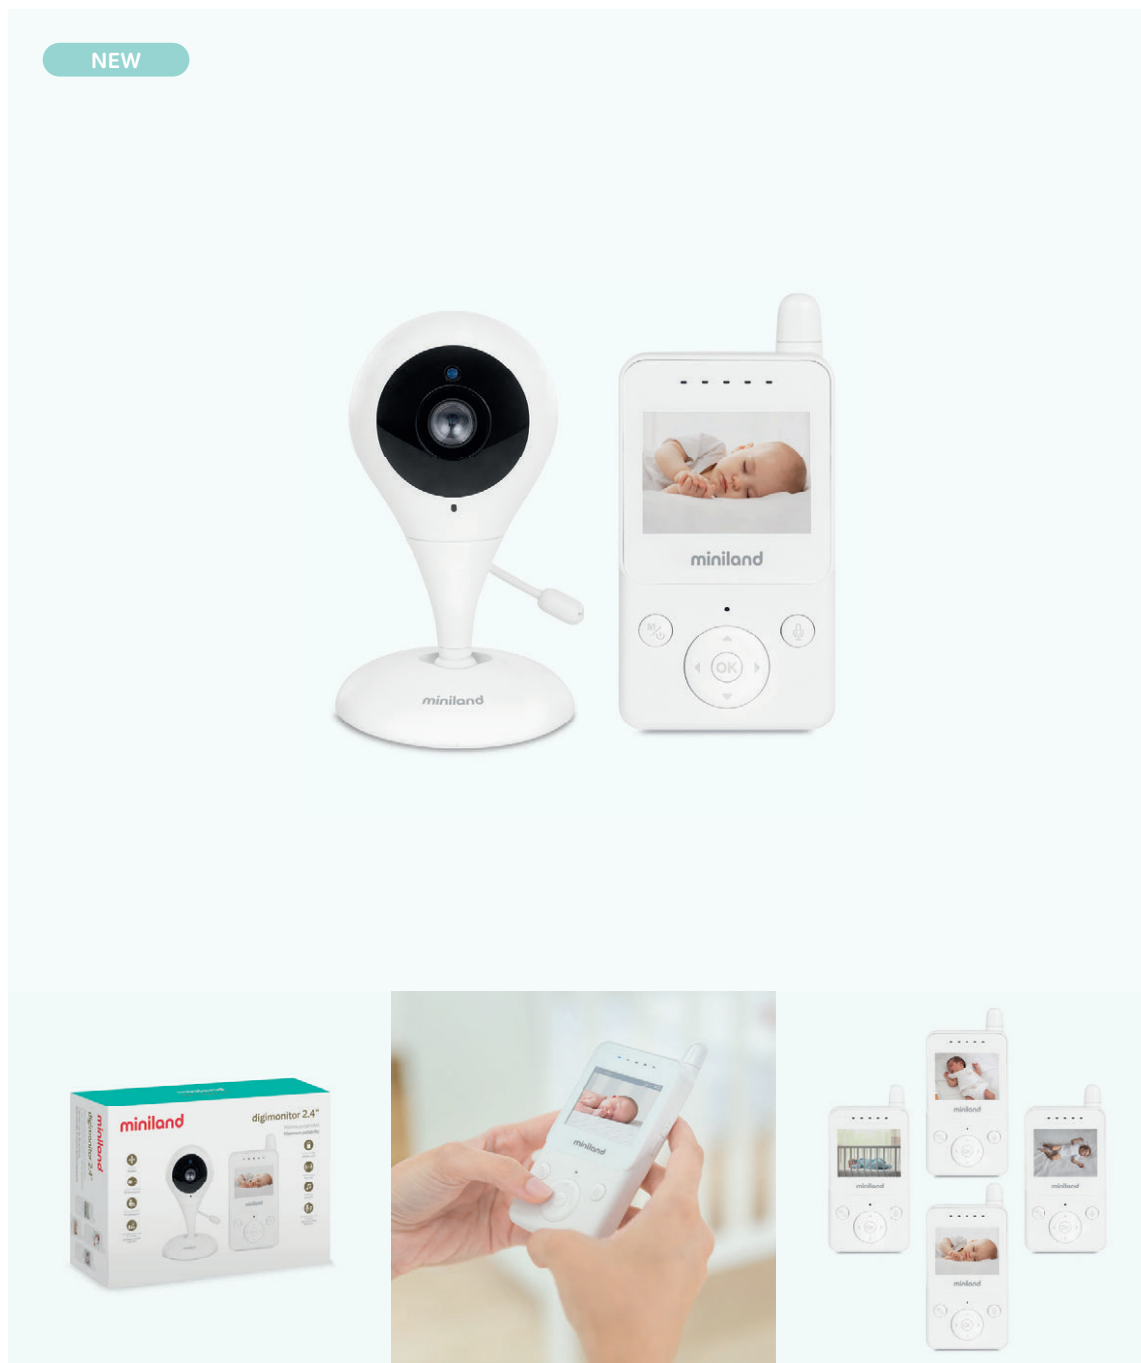

The parent unit of this baby monitor can be linked to 2 different cameras, allowing you to monitor different areas in a cyclical manner

Manual Camera Rotation

With the manual Pan&Tilt system, parents can adjust the camera vertically and horizontally to capture every detail. Additionally, this digimonitor comes with all the necessary accessories for easily mounting the camera on the wall.

Multiple Features

This baby monitor offers numerous functions that help parents keep a close eye on their little one at all times: automatic night vision, melodies, zoom, and more.

digimonitor 3.5" easy 89505

MULTIFUNCTIONAL DIGITAL BABY MONITOR, 3.5" SCREEN

	Manual pan&tilt		Luminous sound indicator
	Alert of high-low temperature		Zoom
	Adjustable voice activation		Up to 2 cameras
	Two-way		Standby mode (only audio)

To see and listen to the baby perfectly and interference-free

Thanks to its great image and sound quality and a range of up to 240 metres, parents can see and listen to their baby perfectly and with zero interference throughout the entire house.

Sound activation and standby mode

With the sound activation function, the baby monitor remains silent and with its screen turned off while the baby is peacefully resting, then activates automatically when it detects a sound, thus saving energy.

However, should the parents prefer listening to the baby's room at all times, they can use the standby mode, which turns off only the screen, so that the glow doesn't disturb the night-time darkness.

Listen to and talk with the baby

The two-way technology makes it easy to listen to the baby, but also talk to them or sing them a song, whether to calm them or to simply keep them company while the parents are engaged in another activity.

It monitors room temperature

It makes it possible to keep an eye on the baby's room temperature from the parents' monitor.

In addition, it has a high and low temperature alarm, so the baby will always be at the ideal temperature!

Lighted sound level indicator

The parents' unit has several warning lights that light up when sound is detected in the room. This option is especially useful for people with hearing difficulties. Grandparents will be thankful for it!

It allows connecting two cameras to a single monitor

The parents' unit of this baby monitor can be linked to two different cameras so that different rooms can be monitored on a cyclical basis.

Manual camera rotation

With the manual Pan&Tilt system, parents can aim the camera both vertically and horizontally so it doesn't miss a single detail.

Multiple features

This baby monitor offers numerous features that will help parents to monitor their little one at all times: automatic night vision, a two-way way mode for talking to the baby, zoom.

digimonitor 4.3" pro 89507

ADVANCED DIGITAL VIDEO BABY MONITOR WITH A ROTATING CAMERA AND MULTI-SCREEN VIEW

 x2	Up to 2 cameras		Two-way
	Portable camera		Dual view
	Pan&tilt		4 melodies
	Night light		Adjustable voice activation
	Alert of high-low temperature		Standby mode (only audio)

See the baby with total quality throughout the entire house

Thanks to the image quality of its 4.3" screen, its clarity of sound and its range of up to 240 metres, parents can see and listen to their baby perfectly and with zero interference throughout the entire house.

Motorised revolving camera

The Pan&Tilt technology allows the camera to be rotated vertically and horizontally from the monitor to see any corner of the room. Parents won't miss a detail!

With a battery, so it can be used outside the home

Both the camera and the parents' unit have batteries so that the parents can place the camera and the monitor wherever they want without needing an electrical outlet nearby, or outdoors.

Adjustable sensitivity: for all kinds of babies!

With sound activation, the monitor remains silent and with the screen turned off while the baby is peacefully resting, activating automatically when it detects a sound. As some babies are noisier than others, parents can also adjust the sensitivity of the baby monitor to adapt it to their personality.

Listen to and talk with the baby

The two-way technology makes it easy to listen to the baby, but also talk to them or sing them a song, whether to calm them or to simply keep them company while the parents are engaged in another activity.

It monitors room temperature

It makes it possible to keep an eye on the baby's room temperature from the parents' monitor. In addition, it has a high and low temperature alarm, so the baby will always be at the ideal temperature!

View two cameras at the same time!

It allows connecting up to two cameras to the same monitor and viewing them at the same time, thanks to the multi-screen viewing feature.

With therapeutic melodies and a nightlight to relax the baby

It includes four melodies specially designed by experts to relax the baby in the moments before sleep. Moreover, it includes a soft nightlight that will help them to feel safe at night.

Lighted sound level indicator

The parents' unit has several warning lights that light up when sound is detected in the room. This option is especially useful for people with hearing difficulties. Grandparents will be thankful for it!

humidrop 89173

SMALL, USER-FRIENDLY ESSENCE HUMIDIFIER

 24h	Maximum autonomy		Capacity 1.5l
 15m²	Efficiency		Optional night light
	Adjustable nozzle		Touch button
	Automatic disconnection		Essences

Elegance and functionality with a minimum size

humidrop is Miniland's smallest humidifier and it boasts a very elegant design. Thanks to its small diameter, it is easy to place on any surface.

The essences the parents really want

The essence compartment of this humidifier is compatible with all the essences available on the market.

High-performance cold steam humidifier

Endowed with great operating autonomy exceeding 12 hours with a maximum steam flow, even though it is small. 1.5 litre tank capacity. Ideal for rooms of up to 15m².

Very user-friendly for everyone

It allows simple control by a touch button to control the desired steam flow at any given time.

Homogeneous humidification

Its adjustable nozzle allows the humidification of the whole space homogeneously, distributing the cold steam evenly throughout the room.

Optional soft night light

Includes the option of turning on or off a soft blue light to keep your baby company while humidrop is in operation.

Empty water tank alert and automatic shut-off

The device is fitted with a lack of water protection system, and turns itself off automatically. A luminous indicator lights up to warn the tank needs filling.

humitop 89319

HUMIDIFIER OF A PRACTICAL SIZE AND INTUITIVE USE

- | | | |
|---|------------------|---|
|  24h | Maximum autonomy |  Top Filling |
|  30m | Efficiency |  Capacity 3l |
|  Touch button | |  Automatic disconnection |
|  Automatic disconnection | |  Optional night light |

The top filling cap makes it more convenient to use

The top filling cap enables easy access to fill the reservoir without the need to move the device, making it more practical and convenient to use.

Practical size for handling

It occupies less space, making it perfect for taking to any corner of the house.

Aromatherapy for more restful sleep and a blue night light

This enables you to use essential oils directly in the water reservoir and add a soft blue light, which you can turn on or off according to your baby's preferences.

Simple front touch panel

This lets you control humidity and vapor flow intuitively and simply using a central touch button.

It regulates vapor speed

The vapor flow can be regulated using three power levels, from finest to densest.

Optional soft night light

Includes the option of turning on or off a soft blue light to keep your baby company while humidrop is in operation.

Functions independently for more than 24 hours

Adjusted to minimum vapor flow and with maximum filling capacity of 3 liters. It has a device to warn when the water level drops. Ideal for rooms up to 30 m²

humitouch pure 89208

OZONE HUMIDIFIER WHICH CLEANS AND PURIFIES THE AIR AT HOME

 55h	Maximum autonomy	 5l	Capacity 5l
 40m	Efficiency		Power-off timer
	Temperature sensor		Optional night light
	Automatic disconnection		Ozone
	Adjustable humidity and steam flow		Water filter

Air free of bacteria and unpleasant odours

Purify the air with this ozone humidifier which avoids bacteria and can counteract unpleasant odours of the room, at the same time that it humidifies the air and maintains the optimum environmental level of humidity.

Its capacity allows for several nights of independent operation

When operating at minimum vapour flow, it can run for several nights without needing its water tank to be filled thanks to its 5-litre capacity which offers independent operation for more than 50 hours. It is ideal for rooms up to 40m².

Creates a fragrant atmosphere at home

A whole world of fragrances available for the parents. The compartment for perfumes allows the use of all types of fragrance on the market. The perfume is spread evenly around the room continuously.

To choose the desired climate at home

It allows the smart programming of the relative humidity and the vapour flow desired so that parents adjust them as they wish. In addition, it has a timer so that it turns off automatically.

A multitude of functions and touch control

A humidifier with touch panel that presents a wide range of functions providing very intuitive control so that everyone can handle it easily and comfortably.

All information visible

Thanks to the built-in sensor, shows at all times the temperature and relative humidity of the environment in its elegant screen, integrated on the front panel.

Gentle blue nightlight

It allows parents to easily turn on or off the soft blue light to adapt the humidifier always to the baby's taste.

Remote control to control all the functions

It is possible to activate, deactivate, or select the humidifier functions more comfortably by remote control.

babypure 5 89391

THE MOST ADVANCED PURIFIER FOR IN-DEPTH AIR CLEANING THROUGH 5 FILTERING STAGES

- | | |
|--|---|
|  5 filtering stages |  Ultraviolet light |
|  Emits ions |  Air quality indicator |
|  Touch display |  Optional night light |
|  Efficiency |  Power-off timer |

The most advanced air purifier for in-depth cleaning

It has a 3-in-1 filter to remove dirt and bad smells from the air. This consists of a pre-filter to capture larger particles, a HEPA filter to eliminate minute particles of up to 0.3 μm (such as allergens, pollen, dust or spores) and an activated carbon filter that absorbs unwanted smells in your home. A second level of cleaning using UV rays, which eliminates 99% of the bacteria, viruses and germs that go through the system. And an even deeper level with an ionising function, to trap contaminating particles by emitting negative ions.

Ideal for rooms of up to 15 m²

Its compact design with touchscreen and its adjustable function with 4 speeds (low, medium, high or turbo) makes it ideal for your baby's room and for other rooms in the house. Also, a spiral effect is created thanks to the special twist of the air outlet grid, allowing the air to flow through the entire room more easily.

Programmable

It has a timer that allows the device to turn off after 2, 4 or 8 hours of use, and it lets you know when you need to change the filter.

Air quality indicator light

It has a 4-colour air quality indicator that goes from optimal to negative: blue, yellow, orange and red. This light also serves as a night light, but it can be turned off by activating the night mode.

Night mode

In this mode, the night light is turned off and the operating speed slows down, letting it work in an ultra-silent mode, to make sure your baby gets a really good sleep.

warmy digy 89204

BABY BOTTLES AND JARS WARMER WITH DISPLAY

-  Fast warming
-  Perfect for breast milk
-  Digital display
-  Heats up uniformly
-  Automatic disconnection

Quickly warms up baby bottles and jars of baby food

warmy digy is very fast, warming up in just a few minutes and to the perfect temperature any type of baby bottle or baby jar. The baby's food - ready in a moment.

Warms baby bottles and jars simply and naturally

Warms naturally using high temperature steam, meaning that the milk and baby food reach a uniform temperature suitable for the baby, therefore avoiding the disadvantages of other methods such as microwaves.

Perfect for warming breast milk

Thanks to the gentle and uniform warming, none of the breast milk's properties are lost during the process, keeping its nutrients and vitamins locked in and warming it to a temperature similar to that of a mother's body temperature, as close as possible to natural breastfeeding!

Always knowing how much warming time is left

With warmy digy parents can choose the preferred warming time and see how much time is left thanks to its display.

Very easy to use

It is controlled with three simple buttons which turn the device on and off and configure the length of the warming process.

Adjustable temperature according to the baby's needs

Because not all babies are the same, thanks to its timer the milk or baby food can be warmed to the temperature wanted for the littlest ones.

Visual and sound warnings and maximum safety

A visual and sound warning indicates when warming has finished or when the water has run out, automatically turning itself off.

Detachable and easy to clean

All the accessories can be cleaned with soapy water and a sponge, as well as in the dishwasher. The base can be cleaned with a damp cloth.

warmyplus digy 89205

WARMS BABY BOTTLES OR JARS OF BABY FOOD AND STERILISES

 3 min	Fast warming		Perfect for breast milk
	Sterilises		Heats up uniformly
	Automatic disconnection		Digital display

Easy sterilisation and warming in the same product

With warmyplus digy parents don't need a separate device for each function. It allows baby bottles and other accessories to be sterilised in just a few minutes in the same device that warms up the bottles and food.

Always knowing how much warming or sterilisation time is left

With warmyplus digy parents can choose the preferred warming or sterilisation time and see how much time is left thanks to its display.

Warms bottles and baby food simply and naturally

Warms them quickly and naturally using high temperature steam, meaning that the milk and baby food reach a uniform temperature suitable for the baby, therefore avoiding the disadvantages of other methods such as microwaves.

warmy travel denim 89231

BABY BOTTLES AND JARS WARMER WHICH IS VERY PRACTICAL FOR THE CAR

- | | |
|---|---|
|  Travel |  Impermeable interior |
|  To take anywhere |  Isolating |
|  All sizes |  Convenient handle for hanging |
|  Automatic disconnection |  Easy cleaning |

Ideal for families that travel a lot

warmy travel starts working automatically when plugged into the car lighter socket so it can be used during long car journeys.

Heats up baby bottles and jars in a simple manner

The heating band surrounding the whole appliance ensures the heating up of baby bottles and jars of all sizes.

Maximum safety

warmy travel is protected from overheating by means of an integrated electronic thermostat. It disconnects automatically when it attains the maximum temperature.

Insulating and impermeable interior

Thanks to the insulating and impermeable material the inside is made from, it maintains the temperature of the baby bottle or jar for longer and avoids unpleasant spills.

Detachable and easy to clean

It is very easy to remove the heating band to clean the impermeable material the inside is made of with a damp cloth.

Two functions in the same product

Thanks to its double function as a bottle warmer and bag, parents can prepare the baby bottle in the car and take it anywhere. warmy travel is very light and easy to transport thanks to the upper handle and the Velcro straps for clipping it onto the baby's pram or bag.

warmy advanced 89150

	Heats up uniformly		For home and car use
	Sterilises		Timer
	Defrosts		

The most advanced digital bottle warmer and sterilizer

warmy advanced is the only product on the market that automatically calculates the time required in line with the kind of food, the size and the initial temperature, achieving rapid, even heating at the right temperature.

Does not require any water measurement

With warmy advanced, it is not necessary to work out how much water to put into the device. Regardless of the size and temperature of the baby bottle or jar of baby food, the parents will only have to add water to the level shown on the device itself.

Everything always under control with an easy and intuitive use

Its intuitive backlit display will guide you step by step in choosing the desired option, always showing all the process information, making it very easy and speedy to use.

Heats up baby bottles and jars in a simple, natural manner

Heats up naturally using steam at a high temperature, therefore, it is also suitable for heating breast milk.

Easy sterilization in the same device

warmy advanced allows a baby bottle and all its accessories to be sterilised in the same device where the heating is carried out.

Warms baby bottles and jars at home or in the car

It can be used both at home and in the car thanks to the adapter it includes.

Exclusive BPA-free tritan lid

The transparent tritan lid is highly resistant and is very durable. warmy advanced is wholly made from BPA-free materials.

Programmes the next feeding time at night before going to bed

warmy advanced allows to program in how many hours the next feeding dose will start to be warmed up. Allowing parents to sit back and relax, safe in the knowledge that the baby's bottle will be ready when they need it.

Visual and sound alarms and maximum security

A visual and sound alarm indicates when the warming up has finished or when the water has been used up, turning off automatically.

warmy twin 89197

WARMS UP TO TWO BABY BOTTLES OR JARS AND STERILISES

-  Perfect for twins, warms up two baby bottles
-  Perfect for breast milk
-  Two warming modes
-  Heats up uniformly
-  Holds the temperature
-  Sterilises
-  Defrosts
-  Digital display
-  Automatic disconnection

Perfect for twins!

warmy twin uniformly heats up to two baby bottles at the same time, something which will save time for parents with twins.

Warms baby bottles and jars simply and naturally

Warms naturally using high temperature steam, meaning that the milk and baby food reach a uniform temperature suitable for the baby, therefore avoiding the disadvantages of other methods such as microwaves.

Perfect for warming breast milk

Thanks to the gentle and uniform warming, none of the breast milk's properties are lost during the process, keeping its nutrients and vitamins locked in and warming it to a temperature similar to that of a mother's body temperature, as close as possible to natural breastfeeding!

Easy sterilisation in the same device

warmy twin allows two baby bottles and other accessories to be sterilised in the same device that warms up the bottles and food.

Maintains the temperature of baby bottles and jars of baby food

With its temperature maintenance function, wary twin will help parents to always have the next feed ready and only have to select the temperature they desire for their baby bottles or baby food jars.

Adjustable temperature according to the baby's needs

Because not all babies are the same, thanks to its timer the milk or baby food can be warmed to the temperature wanted by the little ones.

Always knowing how much warming or sterilisation time is left

With wary twin parents can choose the preferred warming and sterilisation time and see how much time is left thanks to its display.

Visual and sound warnings and maximum safety

A visual and sound warning indicates when warming has finished or when the water has run out, automatically turning itself off.

mini steamy 89580

EASY-TO-USE STERILISER FOR UP TO 4 BABY BOTTLES

- | | | | |
|---|-------------------------|---|------------------------------|
|  | Sterilises |  | No chemicals |
|  | Accessories tray |  | Capacity for up to 4 bottles |
|  | Automatic disconnection |  | Bottle drainer |

Effective sterilization

The most effective and natural way to sterilize is through steam. With mini steamy, it is not necessary to include any chemical substance for sterilization.

Baby bottles and accessories quickly sterilized.

With mini steamy all the accessories and baby bottles will be clean and ready for a new use in only 8 minutes.

Sterilises all types of accessories

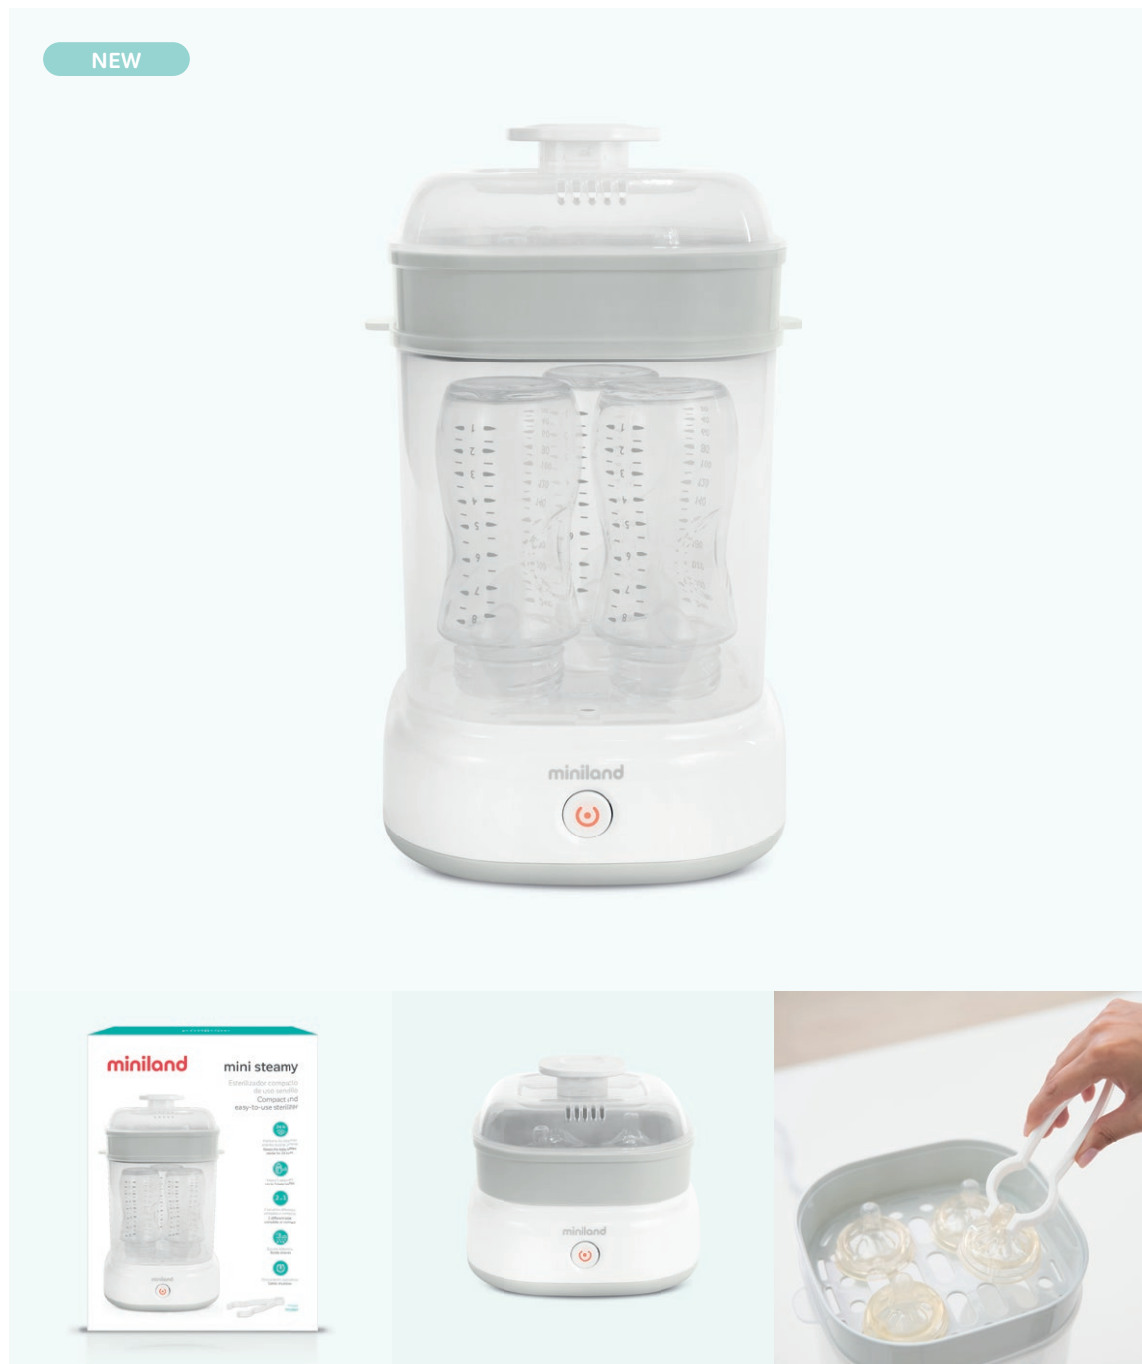

It can sterilise small-sized utensils such as pacifiers or teats, all of which can be placed on the special accessories tray.

Easy to store and to clean

All the accessories are kept inside the sterilising space and can be washed in the dishwasher.

Visual warnings and maximum safety

A visual warning indicates when sterilisation has finished or when the water has run out, automatically turning itself off.

super 6 89233

BOTTLE WARMER, STERILIZER AND STEAMER, 6 IN 1

	Sterilizes		Holds the temperature
	Heats up uniformly		Cook eggs
	Steam cooks		Great capacity
	Defrosts		Digital display

6 functions in one device

- Steams up to 6 bottles at a time.
- Warm bottles and baby food gradually.
- Steam defrost baby bottles and baby food.
- Steam vegetables while preserving their properties.
- Maintains the temperature of bottles and baby food.
- Cook up to 6 eggs at the same time.

Effective sterilization

The most effective and natural way to sterilize is through steam. Thanks to the large super 6 capacity, up to 6 bottles and other accessories can be sterilized quickly and naturally.

Perfect for warming breast milk

Soft and uniform defrosting and heating, with which none of the properties of breast milk are lost during the process, preserving all its vitamins and nutrients when the selected temperature is reached.

Food steamer

It cooks all kinds of steamed vegetables, preserving their properties and nutrients. In addition, up to 6 eggs can be cooked at the same time in a few minutes.

Always knowing how much sterilization time is left

With super 6 you can choose the preferred warming or sterilization time and see how much time is left thanks to its display.

Automatic shutdown

Once the programming of each function is completed, the device automatically switches off after few minutes, for greater safety and energy saving.

EASY HANDLING BABY SCALE

- | | |
|---|---|
|  Hold function |  Highly accurate |
|  Tare function |  Auto power off function |
|  kg / lb / oz / g |  Batteries included |
|  Low battery indicator |  Monitoring of weight in emybaby® with manual registration |

From baby to kid, weight always under control!

Children of up to 20 kilos can be weighed. Furthermore, the scale is fitted with an overweight indicator which provides a warning when those 20 kilos are exceeded.

Accurately controls the weight of the most fidgeting baby!

The hold function allows the parents to obtain the exact weight even when the baby is moving. In addition, its precision allows the parents to detect any minor variations in the weight of the little one.

Digital display

Its front part is fitted with a user-friendly digital display which clearly shows the value of the measurement as well as all the indicators.

To follow the evolution of the baby's weight since its very first day

To make easier to check how much the baby has grown, the parents can compare the current weight with the last measurement made, saved on the memory. In addition, registering the baby's weight manually on emybaby®, it is possible to generate an evolution graphic.

Practical low battery indicator

A low battery indicator will warn the parents when is the right time to replace the batteries, so that the scale is ready at any time.

Disconnection to save energy

babyScale turns off automatically, allowing more energy to be saved and a longer battery life.

scaly up 89041

EVOLUTIONARY WEIGHING SCALE FOR BABIES AND CHILDREN

 Evolutionary	 Weights up to 50kg
 Hold function	 Tare function
 Highly accurate	 Memorizes the last weight
 kg / lb / oz	 Monitoring of weight in emybaby® with manual registration
 Batteries included	

For babies and children: the perfect scale for all stages of growth

This scale is endowed with two interchangeable trays which allow weighing babies since the day they are born as well as children that can stand up by themselves.

Maximum capacity

Children of up to 50 kilos can be weighed. In addition, the weighing scale is fitted with an overweight indicator which provides a warning when those 50 kilos are exceeded.

Parents can control precisely the weight of the baby

This scale is even capable of detecting the most minor variation in the baby's weight thanks to its excellent precision, very useful for new-borns or babies with weight problems.

To follow the evolution of the baby's weight since its very first day

To make easier to check how much the baby has grown, the parents can compare the current weight with the last measurement made, saved on the memory. In addition, registering the baby's weight manually on emybaby®, it is possible to generate an evolution graphic.

Digital display

Its front part is fitted with a user-friendly digital display which shows clearly the value of the weight measurement as well as all the indicators.

To weigh the baby anytime

Including batteries, the weighing scale will warn the parents with a low battery indicator in the display. This way, they will be able to replace the batteries and they will have their scale ready at any time.

nasal care 89058

ELECTRIC NASAL ASPIRATOR

Flushes the baby's mucus

Easy to use

2 silicone tips

Easy cleaning

2 spare silicone rings

Removes any excess mucus

Fast, smoothly and safely removes any excess mucus without irritating the baby, avoiding the discomfort generated by obstructed respiratory passages.

Faster and easier to use

All you need to do is to insert it in the nostril and press the button to extract the mucus. Due to the device being electric, suction occurs in a continuous manner in a single go (compared with manual aspirators, which require several aspirations), facilitating this time when controlling the baby is difficult.

Hygienic

The electric aspiration method avoids the need for oral suction, which many parents find unpleasant. The mucus is deposited in an internal container which is kept isolated from the rest of the appliance and the exterior, preventing contact with secretions.

Very easy to clean

The mucus container is disassembled and easily washed using warm water and soap and it can be sterilised using boiling water or steam.

All included

Comes with two types of silicone tip for different nostril sizes and two spare silicone rings.

Compact and ergonomic

It is highly ergonomic and compact, easy to hold and can be used with one hand. Hence, the other hand is free to hold the baby in the most suitable position.

Can be used anywhere with no risk of uncomfortable situations

As this device is so easy to use, it may be deployed discreetly anywhere. Its use in public places goes more unnoticed than traditional nasal aspirators.

baby nail trimmer 89608

ELECTRIC NAIL FILE

-  6 different heads
-  Includes a storage case
-  2 speeds
-  Silent
-  Safety auto-off
-  Ergonomic and easy to use

6 different heads for the whole family

The file comes with 6 different interchangeable heads to quickly, easily, and safely file the delicate nails of the baby and adapt to the needs of the entire family. It has 4 heads that are suitable for the little ones' nails, with varying roughness (ultrafine, fine, medium, and coarse). And two for adults (polishing and shining). The heads are easily interchangeable.

2 speeds

It has two speeds (high and low) to accommodate all families and file the nails gently.

Safe

Thanks to the safety auto-off function, you can file your baby's nails on both hands and feet with peace of mind.

Perfect for on-the-go

The Miniland file is perfect to take with you everywhere, as it is small and compact, and includes a case where you can store both the file and its heads so you can always have it on hand.

Quiet motor

Thanks to its quiet motor, you can file your baby's nails without the need to wake them up.

Ergonomic and easy to use

Designed for the delicate and fine nails of babies, it allows you to file the nails quickly and easily.

Replacement files 89611

You can separately find replacement files for the nail care. Each pack includes 4 files with different roughness levels (ultrafine, fine, medium, and coarse).

thermoflexi 89021

EASY TO USE THERMOMETER WITH FLEXIBLE TIP

-  Accurate
-  Fever indicator
-  Flexible tip
-  Low battery indicator
-  Memorizes the last measurement
-  Batteries included
-  Auto power off function
-  Plastic case

Easy to use body thermometer

thermoflexi is a thermometer that easily measures the oral, armpit or rectal temperature through its flexible tip.

High flexibility and resistance

thermoflexi is fitted with a rubber neck that provides great flexibility and impact resistance to the thermometer tip.

Storage and transport case

thermoflexi is a small, light thermometer which also includes a practical transparent plastic case for its storage and transportation.

Anywhere and whatever the circumstances

It can be carried comfortably in the bag, proving very useful both for day-to-day use and on any kind of trip.

Fever indicator

thermoflexi emits a quiet sound alarm of 10 beep signals when a temperature exceeding 37.8°C is detected.

Remembers the last measurement made

When thermoflexi is turned on, the latter indicates the last measurement made with the thermometer, thereby facilitating the comparison with the new measurement that is going to be carried out.

Disconnection to save energy and low battery warning

thermoflexi turns off automatically after 9 minutes of being idle, allowing more energy to be saved. On top of that, it has a low battery display.

Display with 12 thermoflexi body thermometers 89027

thermosense 89212

EAR AND FOREHEAD CONTACT THERMOMETER WITH TEMPERATURE MEASUREMENT OF LIQUIDS AND OBJECTS

- Ultrafast
- Fever indicator
- Accurate
- Low battery indicator
- Displays the time and date
- Batteries included
- Memorizes 9 records
- Manual registration of temperature on emybaby®
- Auto power off function

Contact thermometer, ergonomic and precise

Measures the temperature by means of contact with the forehead and ear using infrared. Its ergonomic design makes it very simple and convenient to use.

Measuring objects and liquids

With thermosense, parents will also be able to measure the temperature of the baby bottle, the baby food, or the water in the bath, since it allows the temperature of liquids and objects to be measured.

Measure ambient temperature

It allows parents to know at all times whether or not the temperature in the baby's room is optimal thanks to its measurement of the ambient temperature.

Fever visual indicator

thermosense features a LED light which lights up in red when the measured temperature exceeds 38°C. This way, parents will be able to know at a glance if their baby has a fever.

With tracking of temperatures read

It incorporates tracking of the development of temperatures thanks to its memory with 9 records.

Information about the date and time on its LCD screen

It has an LCD screen that shows the date, time, and ambient temperature.

Sensor cleaning alarm

To remind parents to clean the infrared sensor and ensure the accuracy of the measurements, if thermosense has not been used for a long time or if several measures have been taken, an audible alarm will be activated and the backlight of the screen will flash for one minute.

Disconnection to save energy

Using the energy-saving mode, the thermometer will turn itself off automatically after not being used for three minutes in order to extend the battery life.

thermotalk plus 89068

ULTRA-RAPID CONTACT THERMOMETER WHICH COMMUNICATES THE TEMPERATURE BY VOICE AND MEASURES THE PULSE

 Ultrafast	 Voice message
 Accurate	 6 languages
 Displays the time and date	 Batteries included
 Memorizes 15 records	 Transport bag Base
 Auto power off function	 Manual registration of temperature on emybaby®

Fast measurement on the forehead and the ear

Measures the temperature by infrared in just 2 second in contact with the baby's forehead or ear.

Checks the pulse

thermotalk plus allows the heart rate to be measured in just 15 seconds, pressing the pulse sensor with the thumb.

Measures the room temperature

This thermometer also measures the room temperature, allowing the parents to know if the baby's room is at the optimal temperature.

Communicates the temperature by voice

A configurable voice message in 6 languages (Spanish, English, German, French, Italian and Russian) communicates the temperature obtained. In addition, if it's wanted, it can also inform about the current time. Ideal for people with vision problems.

Includes a temperature evolution control

The last 15 records taken are memorized. It also shows the date and the type of measurement carried out, allowing the evolution of the baby's temperature to be checked.

LCD display showing all the time and date information

In Standby Mode thermotalk plus shows the date, time and room temperature, alternatively, every 5 seconds.

Sensor cleaning alarm

To remind parents to clean the infrared sensor and ensure the accuracy of the measurements, if thermotalk plus has not been used for a long time or if several measures have been taken, an audible alarm will be activated and the backlight of the screen will flash for one minute.

Disconnection to save energy

Using the energy saving option, thermotalk plus turns off automatically after 3 minutes of being idle, allowing more energy to be saved.

thermoadvanced easy 89389

QUICK AND RELIABLE NON-CONTACT THERMOMETER

-  Contactless
-  Accurate
-  Fever indicator
-  Memorizes 9 records
-  Ultrafast
-  Manual registration of temperature on emybaby®
-  Auto power off function

Quick, precise and non-contact measurements

It measures temperature in just 1 second, without touching the forehead. This makes it the ideal thermometer for the entire family, because as it does not touch the body everyone can use it, thus maintaining hygiene.

Measurement of objects and liquids

With thermoadvanced easy, parents will be able to measure the temperature of their baby's bottle, their food or the bathwater since it can measure the temperature of liquids and objects.

Measures ambient temperature

It allows you to know at any time if the temperature in the baby's room is optimal, thanks to the ambient temperature measurement.

It lets you monitor the evolution of the temperature

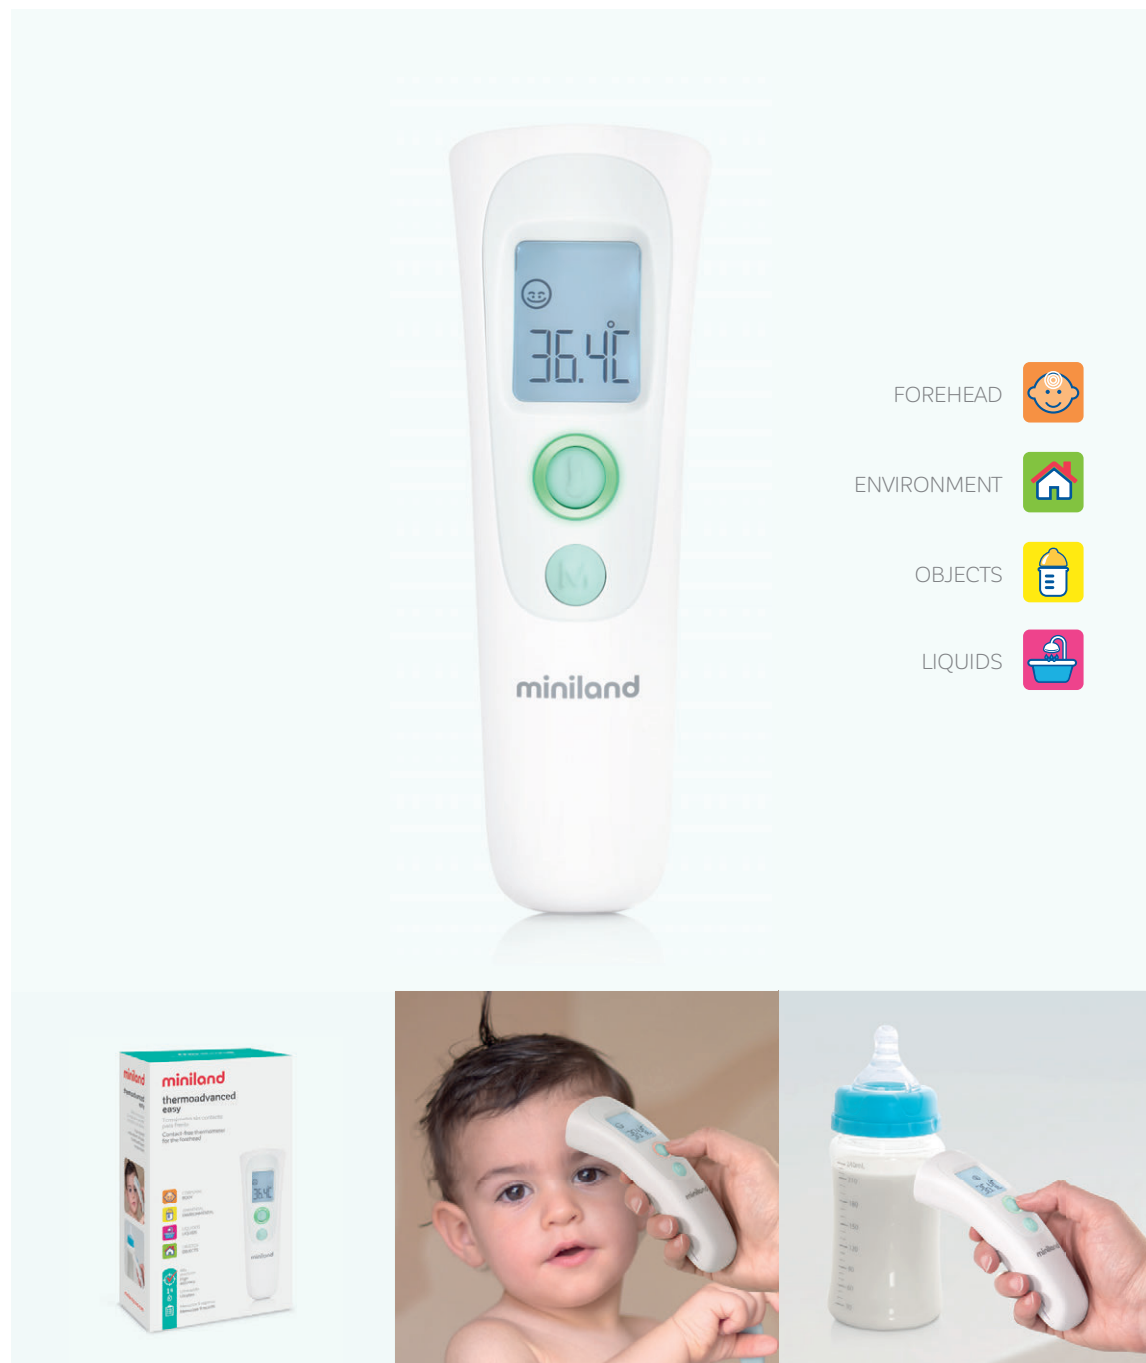

The last 9 measurements are stored. It also shows the date and the type of measurement, making it possible to check the evolution of the baby's temperature.

Light temperature indicator

The measurement button lights up in green when the temperature is less than 37.9°C and in red at higher temperatures. If your baby has a fever, it lets you know in a highly visual and intuitive way.

Powering off to save energy

thermoadvanced easy automatically turns off after it hasn't been used for three minutes, thereby saving energy and making sure the batteries last longer.

thermo bath 89061

BATH AND ENVIRONMENTAL THERMOMETER WITH THE FRIENDLY SHAPE OF A BEE

	Stopwatch & timer		Bath thermometer
	Environmental thermometer		Alert of high / low temperature
	Playmate		Clock

A pleasant and funny bath under any circumstances

thermo bath allows the parents to easily control at any time both the bath water and the room temperature as it measures them constantly, showing on its screen any variations that occur.

The baby's favourite temperature

The ideal bath temperature at home varies between 36 and 38 degrees. With thermo bath you can reach your baby's favourite temperature and make sure that it does not move away from these values.

Playmate

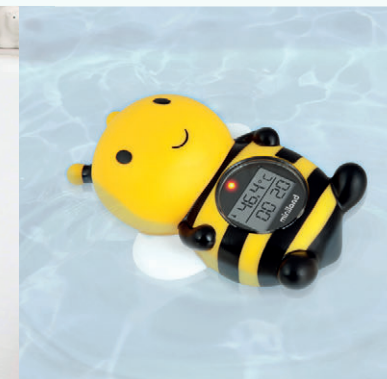

The baby may hold it and even submerge it when it is floating as it complies with the toy safety standards.

Alerts for high or low temperature

The bee warns with a green light when the water temperature is lower than 30°C and with a red light when it is greater than 39°C. In addition, it shows arrows on the screen indicating that the water temperature is out the comfort range.

Controls the bath time

Aside from the digital clock, thermo bath also has a stopwatch with a countdown and count forward which allows parents to control bath time.

natural sleeper 89261

CREATES THE PERFECT ENVIRONMENT FOR THE BABY'S SLEEP IN THE MOST NATURAL WAY

-  Natural sound
-  Essence included
-  Rainbow night light
-  Auto power off (1 hour)
-  7 fixed colours
-  Easy cleaning
-  Touch button

Multi-sensory stimulation of the baby and... quiet nights!

Thanks to its triple functionality of sound generation, colored lights and aromas, natural sleeper stimulates the senses of hearing, sight and smell of the baby simultaneously, to enhance the beginning and depth of sleep in a natural way, in a placid atmosphere of calm.

The ideal sound for the baby

The natural sound programmed in natural sleeper is specially designed to calm the baby, inducing a relaxed and deep sleep. In addition, it helps to mask any ambient sound that may awake the little one: life is noisy, but it doesn't have to disturb the baby!

Aromatherapy: today and always

The benefits of aromatherapy are widely demonstrated, and are based on certain scents that help the baby have greater psychic and physical strength, besides helping balance their energy and feel good inside. Hence, natural sleeper vaporizes cold mist using ultrasonic vibrations, gently dispersing natural fragrances in the baby's room, creating an atmosphere of peace, transmitting a sense of well-being and helping to relax, both to fall asleep as well as to favor the induction of deep sleep.

The light the baby loves

Parents can choose between multicolored or fixed light mode, creating the perfect environment for the baby, stimulating the secretion of melatonin, which will help the little one achieve a deep, peaceful and serene sleep. In addition, the nightlight, which helps babies feel safe at night, is cold to the touch.

Independent and combinable sound, light and aroma, in a very simple way

natural sleeper adapts to the needs of each baby and the parents, since it incorporates four modes of operation that are activated through its touch button, allowing sound, light and aroma to be used combined or independently.

With auto-off and automatic disconnection

natural sleeper stays on for an hour to ensure that the baby falls asleep and then turns off automatically. In addition, if the water in the tank runs out during its use, the device will be disconnected.
