## A world beyond care

We want to be the brand that drives parents to discover, connect and give the best of themselves in the care of their child every day by helping them, through tools, solutions and smart experiences, to create the ideal environment for growth and well-being for the little ones.

For that purpose, we have designed a childcare solution for each unique and special moment of the baby. From baby monitors that allow parents to be always next to the baby to products for their care and welfare, as well as the most advanced devices for pregnant moms like the heart listener.

We want to be the brand that leads the movement of growing together enjoying present moments, unique and unrepeatable in the exciting journey of taking care of the baby. Because we know that a bright future is the sum of these initial moments of shared well-being.

As a result of this and the care we put into improving each product, the eMyBaby® application was created, which allows parents to always be in contact with the baby, maintain their emotional bond and not miss any of their first experiences.

## A world of connected experiences

eMyBaby® is an app specifically designed by Miniland that allows parents to take care and enjoy their little one in real time, easily and wherever they are.

### How?

- Enjoying interconnected experiences full of energy and growth from the pregnancy stage up to the moment the little one is born, when it covers moments of safety and surveillance, care, relaxation and sleep of the baby.
- Helping to reconcile mobility with care at home.
- Remembering and sharing intimate moments with the baby.

It will be easy to perform routine tasks by bringing together in one app the most important baby care, so parents can organize better and enjoy more time with who they love the most.

eMyBaby® will provide parents with security and peace of mind and will be their new travel companion.

A vibrant, repeating pattern of whimsical, hand-drawn characters and objects. The background is white, populated with various colorful elements: a girl with red hair and a white dress, a girl with teal hair and a white dress with black spots, a girl with a striped shirt and a white dress with black spots, a teal frog with a crown, a white deer with black antlers, a black mushroom, a yellow star, a pink crescent moon, and a grey hand. The central text is a black square containing the word 'MAGICAL' in white, stylized, block letters. The letters are decorated with colorful accents: the 'M' has a teal vertical bar, the 'A' has a yellow horizontal bar, the 'G' has a red horizontal bar, the 'I' has a white horizontal bar, the 'C' has a teal horizontal bar, and the 'L' has a red horizontal bar. The word is arranged in two lines: 'MAG' on top and 'ICAL' on the bottom.

## to dream by the art of magic

### Make dreams reality

Stars and moons characterize Miniland's latest collection, focused on moms and dads who give free reign to their little ones' creativity. Because fantasy and imagination will open the way to a new world where their wishes and dreams can come true.

This new line encompasses many different needs, from the most innovative items to those that form part of baby's daily life. Our soft magic wands with a night light or our no-more-fears lamps, while highly decorative, will mean your little one never feels alone. Our soft toys come in the form of a fairy and a pixie while developing bonds with parents through recordings of their voices.

Other basics in baby care complete the collection, such as our care kit and our magical thermometer, essential for bath time. Plus, other items that are highly practical outside the home like thermal bottles, the pacifier holder or the healthcare book, essential for medical appointments.

# mediterranean, collection

for families who enjoy the brief  
moments in life

Reflecting the true Mediterranean spirit

The Mediterranean Sea and its colors inspire this new Miniland collection – a setting inviting you to live in a relaxed way, to relish moments in the open air with your family... everything that makes those tiny moments great.

A fresh, joyful, fun collection that reflects the true Mediterranean spirit, helping Dad and Mom have fun with their little ones, without a worry in the world.

The mediterranean collection includes thermal containers for liquids and solids that keep their temperature for many hours and respect the environment since they are so long-lasting. Our matching isothermal bags help you carry the containers to your destination, wherever you decide to spend the day. In your picnic kit, you simply must have our set of anatomic cutlery that evolves as your baby grows. And accessories like the healthcare book or the Mediterranean pacifier case, let you have everything essential on hand and ready to use when needed.

# eco-friendly collection, for a better world

We take care of the little ones,  
we take care of the planet!

This new Miniland collection is designed for parents who are looking for functional products, but with the minimum environmental impact possible, a trend for a more sustainable ecosystem. This new generation of parents enjoys the benefits of eco-friendly products in the care of their children, in favor of a more natural upbringing, also encouraging a conscious and environmental behavior.

This new line of eco-friendly feeding, includes products made with organic materials and biodegradable (bamboo, rice fiber...) such as the fun tableware and the picnic set. The thermos, with designs inspired by nature, are made of steel, and can be reused in hundreds of special occasions with the babies. Glass containers, with their different shapes and designs, conceived to cover all the parents needs inside and outside the home, are ideal for the natural preservation of baby's food. In addition, thanks to the resistance of the glass they are very durable and reusable.

# azure-rose, collection, our most tender collection

## Design and emotion in equal parts

Parents who cannot resist their baby's tender smile or the most classic colors will fall in love with the new azure-rose collection in pink and blue pastel tones. Its original design of cartoon animals and its finish that is soft to the touch make this our sweetest collection and an ideal gift idea.

Azure-rose includes essential items for when traveling or taking the little ones for a stroll, since it includes all you need to take care of every little thing anywhere. Our thermal containers for liquids and solids are tough and able to hold their temperature throughout the longest day. The isothermal bags help you get there, thanks to their handle with a button clasp. Our airtight range is highly practical to keep every meal well organized, while the evolutionary cutlery set makes the little ones' meals easier because they are anatomical.

A broad range of toiletry to care for your baby and a thermometer kit for diverse uses complete the azure-rose collection. A perfect gift!

## because being parents is the biggest challenge in life

### The perfect app for today's parents

eMyBaby® is an app specifically designed by Miniland for parents with the goal of improving their quality of life no matter how busy they are on their day-to-day life. Because it's up to oneself to LIVE the raising prioritizing what is urgent or what is important, they choose: eMyBaby®, is app to you!

### Be organized to feel calm

It will be easier to make the routine tasks as we gather on just one application the most important care options for children, allowing parents to get organized and have more time to enjoy with the one they love the most, their baby. eMyBaby® ensures safety and peace of mind.

### The baby's medical information always gathered and accessible

Gather the essential information of the baby: birth information, evolution of weight, height and cranial perimeter, with their growth charts compared with the WHS standards, the list of vaccines, medical appointments... This information is always accessible in a quick, simple and practical way with the option of generating reports and sharing them.

### The family together

eMyBaby® creates unforgettable moments with the memories album, as well as the family tree.

### To feel the baby at all times

Parents want their babies nearby, to know what they are doing all the time, feel them and protect them even on the distance. eMyBaby® gives parents the chance of being connected. Being able to monitor their son or daughter when they're asleep while they carry out other tasks creates a further link to the baby. And not only being able to see them but seeing them from anywhere in real time, with top quality and the possibility to interact with them.

#### MY BABY

To remember all the information of the baby's birth saving it forever on the record and follow the evolution on the medical record, the thermometer or the scale.

#### FAMILY

To add the information of all the family members and create the baby's family tree.

#### BABY MONITOR

Parents can see the baby at any time by selecting their baby monitor model and configuring it, connecting with their baby from the PC, Tablet or Smartphone.

#### MY PREGNANCY

Moms and dads will be thrilled by the sound of their baby's heartbeat today and forever. In addition, it allows parents to keep track of the pregnancy step by step since it's possible to record all the information regarding the evolution of the mother and the baby month by month.

#### beMyBuddy

A great source of emotions and feelings for the baby! Endless possibilities, with multiple songs and sounds specially designed for the little ones and completely customizable.

#### THERMOMETER

Allows parents to register their baby's temperature manually or automatically and follow the evolution or share the information with the pediatrician and with their loved ones.

#### eMyScale

From baby to child, parents will keep the weight always under control! Saving automatically their child's weight and follow its evolution.

#### HUMIDIFIER

Allows you to track the evolution of the home environment and make the desired adjustments to the product at any time and from anywhere.

#### CALENDAR

Because we know parents are busy, we help them organize the medical appointments, family events or important dates in a unique calendar.

#### MEDICAL RECORDS

To register all the baby's medical information: weight, height and cranial perimeter and follow the evolution comparing the data with the WHS standards or sending it by email.

#### PHOTO ALBUM

Parents will save the pictures of every special moment lived with their baby to enjoy them with their loved ones.

# MATERNITY

The emotion of listening and  
feeling the baby so close

Future parents want to feel very close to their babies. To listen to their heart, to feel their movement and little kicks.

Miniland has developed an innovative heart listener which allows to create an exciting emotional link between the parents and the baby.

## sweetBeat 89304

LISTEN, FEEL AND SHARE THE SWEET BEAT OF THE BABY,  
NOW AND ALWAYS

-  Listen to and record the foetus' heartbeats
-  Bluetooth 4.0
-  From week 16
-  Share the sounds on the eMyBaby® app
-  Extra functionalities in the eMyBaby® app
-  Rechargeable using microUSB

### The most modern heart listener on the market

This innovative device allows to listen in real time to the foetus' heartbeats and record them by connecting the device using Bluetooth technology to the mobile app eMyBaby®. Furthermore, with sweetBeat, you can use headphones or listen to the beats from the mobile device.

### After the first trimester

sweetBeat allows the parents to listen to prenatal activity from week 16, meaning that they can hear the baby from the beginning of the second trimester to the end of the pregnancy.

### Allows to share the baby's heartbeats with the loved ones

The eMyBaby® app allows the recorded audio files to be shared with family and friends. In this way, the parents-to-be will be able to listen to the first movements of their baby on their mobile phone or tablet and share them on social networks with their closest relatives and contacts.

### Parents can follow the pregnancy step by step in the mobile device with eMyBaby®

As well as a heart listener, Miniland has developed an entire module in the eMyBaby® app for the pregnancy. There we can find sections such as the one for the mother, where all medical data during the pregnancy can be stored; a module with all the information relating to the baby's development; a space to add the most important medical appointments; a contractions counter for when the moment arrives to give birth, and even a baby diary to write down the evolution of the pregnancy day to day.

### Small, convenient, and with a rechargeable battery

The rounded and compact design of sweetBeat as well as its small size means that it is convenient and easy for mothers to use. Furthermore, it has a rechargeable battery that can be charged using any microUSB cable.

## sweetBeat gel 89211

250 ML ULTRASONIC CONDUCTIVE GEL BOTTLE

### Ultrasound conductive gel included

SweetBeat can be used in conjunction with the 250ml ultrasonic conductive gel bottle so that parents can listen to their baby as many times as they wish with the highest quality.

89211

**Heart listener:** Allows parents to listen to their baby's heartbeat anywhere and anytime thanks to sweetBeat. They will be able to see the heart frequency on an easy-to-understand graph and manually mark the baby's movements as long as they are listening.

**Your sounds:** To listen again to the recorded sounds of the baby's heartbeat and share them with family and friends.

**Baby:** Parents will be able to add the ultrasounds pictures and growth data of the baby, comparing it on a graph with standard figures from the WHO.

**Mum:** To follow the weight changes from month to month, arterial tension, foetal movements, and the height of the uterus.

**Medical records:** Allows parents to record the appointments and medical tests related to the pregnancy. Thanks to the calendar alarm they will never forget one.

**Contractions:** To monitor the duration of the contractions as well as the time between each one.

**Baby diary:** On this section, parents will be able to write and record their comments and feelings about the pregnancy and the baby each and every day.

**Settings:** Parents' personal configuration.

With the **eMyBaby®** module for the pregnancy, parents can fully enjoy this marvellous experience thanks to its numerous options and functions.

Note: this application must only be used as a guide and never as a substitute for a health care professional.

# BABY MONITORS

Time for parents while  
the baby peacefully rests

Always there, knowing what the baby needs  
at every moment and responding to those needs.

We know that the baby's safety is the most important  
thing for parents, so at Miniland we design  
innovative baby monitors that are extremely  
convenient for modern parents.

# digitalk easy 89171

USER-FRIENDLY DIGITAL AUDIO BABY MONITOR WITH HIGH QUALITY SOUND

- Voice activation
- Night light
- Out of range alert
- Low battery indicator
- Charging base
- Luminous sound indicator

### Allows the baby to be heard with total clarity and zero interference

Thanks to its range of up to 300 meters and its digital technology, the parents will be able to hear the baby with full sound quality and zero interferences.

### Maximum protection for the baby

Thanks to the VOX (voice activation), the baby monitor remains in standby mode while the baby is resting peacefully, activating again when a sound is detected. This way, the baby is emission-free, while energy is saved.

### To take the parents' unit anywhere

The parents' receiving unit may be connected to the electrical mains or the rechargeable batteries included may be used, enabling parents to move around with no cables. Moreover, the batteries are easy to recharge, simply by placing the parents unit on the charging base provided.

### Nightlight

The pleasant nightlight relaxes and provides comfort to the baby, allowing it to see in a room in the dark.

### Luminous indicator of sound intensity

The parents unit features two LED warning lights which light up when some sound is detected on the room. This option is particularly useful for people with sensory difficulties.

### The parents unit always located!

If the parents can't remember where they have left their receiver, simply pressing a button on the baby unit will make it beep and enable them to find it.

### Everything under control

The device features low battery and out-of-range alerts to ensure the parents are not left without seeing the baby.

### Traveling with the baby monitor

The device is convenient enough to take anywhere. Its lightweight nature and size make it the ideal companion for any family with babies or small children.

|  Two-way                                     |  Baby unit batteries           |

### The most advanced for greater convenience

The device backlight LCD screen ensures the simple operation of all the functions and the control of everything at a mere glance, making the monitoring of the baby more convenient for the parents.

### High quality sound and zero interference

The device's 300-metre range and digital technology will enable parents to listen to the baby with perfect sound quality and zero interference.

### Adjustable sensitivity: for all kinds of baby!

The VOX (voice activation) function maintains the baby monitor in standby mode while the baby is resting peacefully, and is activated when some sound is detected. As some babies are noisier than others, parents can adjust the sensitivity of the baby monitor as required.

### Listening to and talking to the baby

Two-way technology allows the parents to listen to the baby, to talk and sing to him a song either to calm him down or just to keep him company whilst we are carrying out some other activity.

### Practical silent alerts

The vibrate function is ideal for times when parents need silence or for noisy environments. Moreover, the parents unit features a luminous sound detection indicator. These options are particularly useful for people with sensory difficulties.

### Nightlight and melodies

The pleasant nightlight and the five tunes it includes, controlled from the parents unit, will relax the baby.

### Control the temperature of the room

Enables you to control the temperature of the baby's room from the LCD screen. The device also features high and low temperature alerts, guaranteeing your baby will always enjoy the ideal temperature!

### Monitoring from anywhere

Both the parents and the baby unit can be connected to the electrical mains or run on batteries, enabling parents to conveniently monitor their baby anywhere and with no wires. Moreover, the parents unit is simple to recharge by placing it on the charging base provided.

This baby monitor enables the parents to see the baby from anywhere with an Internet connection, using the eMyBaby® application, exclusive of Miniland. Connecting the monitor to the computer is possible to see the baby on another computer, Tablet or Smartphone. This will help parents to relax knowing that everything is under control.

### See the baby with perfect quality anywhere in the house

Thanks to its range of up to 240 meters and its digital technology, parents can see the baby with total image quality and zero interference on their 3.5 inch LCD screen.

### Low emissions and energy saving with the ecotech technology

Provides 2 transmission levels according to the desired coverage. Also, it does not emit any signal whilst it is at rest.

### Receives silent alerts via the vibrate function

The vibrate function is ideal for times when parents need silence or for noisy environments. Extremely useful for people with hearing problems.

### 4-position zoom to see the baby in detail

On the screen you can choose the quadrant on which to apply the zoom.

### Listening and talking to the baby

Two-way technology allows you to listen to the baby, but also to talk and sing him a song either to calm him down or just to keep him company whilst parents are carrying out some other activity.

### Night light, melodies and feeding time alert

The pleasant night light and the five melodies it features, controlled from the monitor, will help the baby to relax. An alert can also be programmed to warn of the baby's next feeding time.

## BABY BOTTLES AND JARS WARMER WITH DISPLAY

-  Fast warming
-  Perfect for breast milk
-  Digital display
-  Heats up uniformly
-  Automatic disconnection

### Quickly warms up baby bottles and jars of baby food

warmy digy is very fast, warming up in just a few minutes and to the perfect temperature any type of baby bottle or baby jar. The baby's food - ready in a moment.

### Warms baby bottles and jars simply and naturally

Warms naturally using high temperature steam, meaning that the milk and baby food reach a uniform temperature suitable for the baby, therefore avoiding the disadvantages of other methods such as microwaves.

### Perfect for warming breast milk

Thanks to the gentle and uniform warming, none of the breast milk's properties are lost during the process, keeping its nutrients and vitamins locked in and warming it to a temperature similar to that of a mother's body temperature, as close as possible to natural breastfeeding!

### Always knowing how much warming time is left

With warmy digy parents can choose the preferred warming time and see how much time is left thanks to its display.

### Very easy to use

It is controlled with three simple buttons which turn the device on and off and configure the length of the warming process.

### Adjustable temperature according to the baby's needs

Because not all babies are the same, thanks to its timer the milk or baby food can be warmed to the temperature wanted for the littlest ones.

### Visual and sound warnings and maximum safety

A visual and sound warning indicates when warming has finished or when the water has run out, automatically turning itself off.

### Detachable and easy to clean

All the accessories can be cleaned with soapy water and a sponge, as well as in the dishwasher. The base can be cleaned with a damp cloth.

## HIGH CAPACITY AND EASY-TO-USE STERILISER

	Sterilises		No chemicals
	LED display		Great capacity
	Automatic disconnection		Bottle drainer

### Effective sterilization

The most effective and natural way to sterilize is through steam. With steamy, it is not necessary to include any chemical substance for sterilization.

### Baby bottles and accessories quickly sterilized.

With steamy all the accessories and baby bottles will be clean and ready for a new use in only 6 minutes.

### High sterilising capacity

steamy has a roomy sterilisation space and an organiser which endows it with great capacity, being possible to accommodate up to six baby bottles with their nipples.

### Sterilises all types of accessories

It can also sterilise medium-sized utensils such as breast pumps or small accessories, all of which can be placed in a special compartment.

### Always knowing how much sterilisation time is left

With steamy parents can always find out when the sterilisation will finish thanks to its display. Furthermore, given that the device maintains a sterile interior for three hours after the end of the process, the display will show the time that the content inside will remain sterile.

### Easy to store and to clean

It comes with a practical cable tidy in the base. Furthermore, all the accessories are kept inside the sterilising space and can be washed in the dishwasher.

### Visual and auditory warnings and maximum safety

A visual and sound warning indicates when sterilisation has finished or when the water has run out, automatically turning itself off.

How easy it is to take  
baby's food anywhere!

Taking a walk and travelling with babies is one of the most pleasurable activities a parent can do. But we cannot ignore the baby's food and care on these travels.

For this reason, Miniland offers a wide range of products for eating, drinking, sterilising, warming... everything to feel like at home, just as convenient.

#### Keeps liquid's temperature for even longer

The Miniland thermobaby silver and thermokid aqua thermal little bottles maintain a liquid's temperature for even longer thanks to its double wall of steel, so the little ones can enjoy them everywhere.

#### Two options according to the baby's age, and also interchangeable

Two models of thermal bottles depending on the age of the baby: thermobaby silver, with nipple, is aimed at babies between the ages of zero and two years, and thermokid aqua, with straw, is designed for slightly older children between the ages of two and four years. In addition, the bottles are interchangeable for being able to mix the sizes, colours and accessories as desired.

#### Lively colours and cheerful designs

With a metallic or turquoise finish, the thermal bottles have bright pictures and colours which are attractive to children.

#### Materials of exceptional quality

With 18/8 steel (304 steel) on the interior, which offers extremely low thermal conductivity and great resistance to high temperature, it is the best choice for food conservation.

#### Easy to hold

Thanks to the handles on the sides, the baby can grab the little thermal bottles with their little hands. Furthermore, the handle can be easily taken off or put on as deemed preferable.

#### Ideal capacities and controlled quantities

thermobaby silver and thermokid aqua little thermal bottles come with a practical measuring scale on the inside and a capacity of 180 ml or 240 ml respectively.

#### Nipple or straw anywhere and without any spills

Thanks to the protective lid on the thermobaby silver and the closure system on the thermokid aqua, both the nipple as well as the straw will always be kept clean and ready for use. Furthermore, they also protect against unwanted spills when they are being carried.

# BABY CARE

Taking care of the baby day and night  
to make the little one grow happy

Looking after your baby's health and hygiene assures  
comfort and well-being during his growth.

Miniland combines traditional products with the  
most innovative ones for your baby's daily care.

# babyScale 89187

## EASY HANDLING BABY SCALE

 Hold function	 Highly accurate
 Tare function	 Auto power off function
 kg / lb / oz / g	 Batteries included
 Low battery indicator	 Monitoring of weight in eMyBaby® with manual registration

### From baby to kid, weight always under control!

Children of up to 20 kilos can be weighed. Furthermore, the scale is fitted with an overweight indicator which provides a warning when those 20 kilos are exceeded.

### Accurately controls the weight of the most fidgeting baby!

The hold function allows the parents to obtain the exact weight even when the baby is moving. In addition, its precision allows the parents to detect any minor variations in the weight of the little one.

### Digital display

Its front part is fitted with a user-friendly digital display which clearly shows the value of the measurement as well as all the indicators.

### To follow the evolution of the baby's weight since its very first day

To make easier to check how much the baby has grown, the parents can compare the current weight with the last measurement made, saved on the memory. In addition, registering the baby's weight manually on eMyBaby®, it is possible to generate an evolution graphic.

### Practical low battery indicator

A low battery indicator will warn the parents when is the right time to replace the batteries, so that the scale is ready at any time.

### Disconnection to save energy

babyScale turns off automatically, allowing more energy to be saved and a longer battery life.

### For babies and children: the perfect scale for all stages of growth

This scale is endowed with two interchangeable trays which allow weighing babies since the day they are born as well as children that can stand up by themselves.

### Maximum capacity

Children of up to 50 kilos can be weighed. In addition, the weighing scale is fitted with an overweight indicator which provides a warning when those 50 kilos are exceeded.

### Parents can control precisely the weight of the baby

This scale is even capable of detecting the most minor variation in the baby's weight thanks to its excellent precision, very useful for new-borns or babies with weight problems.

### To follow the evolution of the baby's weight since its very first day

To make easier to check how much the baby has grown, the parents can compare the current weight with the last measurement made, saved on the memory. In addition, registering the baby's weight manually on eMyBaby®, it is possible to generate an evolution graphic.

### Digital display

### ELECTRIC NASAL ASPIRATOR

- |   |                          |   |               |
|---|--------------------------|---|---------------|
|  | Flushes the baby's mucus |  | Easy to use   |
|  | 2 silicone tips          |  | Easy cleaning |
|  | 2 spare silicone rings   |  | Transport bag |

#### Removes any excess mucus

Fast, smoothly and savely removes any excess mucus without irritating the baby, avoiding the discomfort generated by obstructed respiratory passages.

#### Faster and easier to use

All you need to do is to insert it in the nostril and press the button to extract the mucus. Due to the device being electric, suction occurs in a continuous manner in a single go (compared with manual aspirators, which require several aspirations), facilitating this time when controlling the baby is difficult.

#### Hygienic

The electric aspiration method avoids the need for oral suction, which many parents find unpleasant. The mucus is deposited in an internal container which is kept isolated from the rest of the appliance and the exterior, preventing contact with secretions.

#### Very easy to clean

The mucus container is disassembled and easily washed using warm water and soap and it can be sterilised using boiling water or steam.

#### All included

Comes with two types of silicone tip for different nostril sizes, two spare silicone rings, and a practical bag for carrying it around.

#### Compact and ergonomic

It is highly ergonomic and compact, easy to hold and can be used with one hand. Hence, the other hand is free to hold the baby in the most suitable position.

#### Can be used anywhere with no risk of uncomfortable situations

As this device is so easy to use, it may be deployed discreetly anywhere. Its use in public places goes more unnoticed than traditional nasal aspirators.

-  Accurate
-  Displays the time and date
-  Memorizes 9 records
-  Auto power off function
-  Fever indicator
-  Low battery indicator
-  Batteries included
-  Manual registration of temperature on eMyBaby®

### Contact thermometer, ergonomic and precise

Measures the temperature by means of contact with the forehead and ear using infrared. Its ergonomic design makes it very simple and convenient to use.

### Measuring objects and liquids

With thermosense, parents will also be able to measure the temperature of the baby bottle, the baby food, or the water in the bath, since it allows the temperature of liquids and objects to be measured.

### Measure ambient temperature

It allows parents to know at all times whether or not the temperature in the baby's room is optimal thanks to its measurement of the ambient temperature.

### Fever visual indicator

thermosense features a LED light which lights up in red when the measured temperature exceeds 38°C. This way, parents will be able to know at a glance if their baby has a fever.

### With tracking of temperatures read

It incorporates tracking of the development of temperatures thanks to its memory with 9 records.

### Information about the date and time on its LCD screen

It has an LCD screen that shows the date, time, and ambient temperature.

### Sensor cleaning alarm

To remind parents to clean the infrared sensor and ensure the accuracy of the measurements, if thermosense has not been used for a long time or if several measures have been taken, an audible alarm will be activated and the backlight of the screen will flash for one minute.

### Disconnection to save energy

Using the energy-saving mode, the thermometer will turn itself off automatically after not being used for three minutes in order to extend the battery life.

### Record the temperature using eMyBaby®

Using the eMyBaby® application, thermoadvanced plus communicates with the Smartphone and Tablet to record the temperatures taken. That way, you can monitor them at any time and place. It's possible to use the thermometer by itself or with eMyBaby®.

### Fast, precise, contact-free measurement

Measures the temperature in just 2 seconds on the forehead. In addition, a soft blue focal light comes on just before taking the temperature to help to locate the precise position. The backlit LCD screen changes colour from blue to red if it detects a temperature exceeding 38°C.

### Ergonomic design exclusive to Miniland

Carefully designed to combine maximum comfort for the hands with the smallest size. It is also ideal for carrying in the soft bag included.

### Voice messages to communicate the temperature

This message can be configured in 6 languages: Spanish, English, German, French, Italian and Russian or deactivated if you prefer. Ideal for people with vision problems.

### The most complete: for bath water, the baby's bottle or mushes

thermoadvanced plus measures the temperature of objects and liquids as well as the room temperature.

### Allows parents to consult and share the temperature records

The records taken are memorized on the thermometer and on eMyBaby® and they can be consulted at any time, allowing the evolution of the baby's temperature to be checked. They can also be saved on the PC or sent by e-mail.

### Disconnection to save energy

thermoadvanced plus turns off automatically after 3 minutes of being idle, allowing more energy to be saved and a longer battery life.

### THE MOST INNOVATIVE BABY'S BUDDY

-  Record songs and stories
-  100% organic cotton surface
-  Reproduce the songs from the device
-  Promotes cognitive development
-  Sounds designed for the baby
-  Compatibility Bluetooth 3.0 & 4.0
-  Strengthens the bonds

#### Technological innovation for the cognitive development of the baby

With the innovative beMyBuddy and our exclusive eMyBaby® application, the baby will be able to listen and feel its parents' records, the carefully designed preset sounds and the songs from its parents device, thereby promoting the cognitive development of the baby as from its birth until it is 2 years old learning is carried out through the senses.

#### Close by parents wherever they may be, strengthening bonding

With beMyBuddy parents can record their voices, songs, or the baby's favourite tales to be played back later, either immediately or at a later time, anywhere, so the baby will always feel like they are close by.

#### A great source of emotions and sensations for the baby!

The beMyBuddy module in eMyBaby® has several songs and sounds which have been especially designed for the baby - such as the sound of a heart and maternal womb, sounds from nature, classical pieces, and lullabies.

#### Infinitive possibilities for music and sounds: can be completely tailored to the parents' taste!

Aside from the predefined recordings and sounds, it is possible to reproduce the music stored on the parents mobile phone (Device music) and to create a list of Favourites, significantly expanding the options.

#### The most loved organic stuffed toys

The soft and sweet beMyBuddy elephant, with a 100% organic cotton surface, is loved by all the babies and soon becomes their faithful friend!

#### Anywhere, with or without its accessories

The small size and lightness of the detachable module means that it can be used anywhere and in any situation. It can be used on its own, with a strap with a clip to hook it to a bag or pram, or can even be integrated into the stuffed toy or its two accessories. It works with a long-life rechargeable battery.

## beMyBuddy module in eMyBaby®

The exclusive beMyBuddy module in eMyBaby® offers several possibilities for parents to be able to select from a wide range of sounds and melodies split into multiple categories:

**Parents' sounds:** it allows the parents to record themselves so that the baby can always feel as if they are by their side.

**Close to mum:** sounds from the womb and the mother's heart which comfort the baby by recalling the pregnancy.

**Nature:** to ensure the baby is in full contact with it through the waves of the sea or the singing of the birds.

**Classic Experience:** famous pieces carefully selected to encourage relaxation and to train the musical ear of little ones.

**Lullabies:** made up of traditional songs which encourage the baby to rest.

**Device music:** it can play back sounds and melodies stored on the parents' Phone or Tablet.

**Favourites:** create your own list with your baby's favourite sounds and tunes.

COMPLETE PROJECTOR WITH SOUNDS, MELODIES, AND SOUND ACTIVATION

-  3 projections to choose from
-  Sound activation
-  Customisable: play back any song
-  Several melodies
-  Works with batteries or connected to the mains supply

**Relaxes even the fussiest babies!**

Thanks to the sweet lullabies and sounds, the relaxing drawings projected on the ceiling and the soft coloured lights, dreamcube helps relax and sleep even the most awakened babies.

**Continuous mode or audio activation**

The projector can work continuously or via sound activation, in which case it will remain on sleep mode while the baby rests peacefully, automatically activating itself if it detects the baby's cry so that it can help them to go back to sleep.

In addition, after three minutes it will shut down again to avoid disturbing the babies in case they have already reconciled sleep.

**Projections and music that the baby will like**

With dreamcube it is possible to choose from three different projection patterns according to the baby's preference: a stary sky, sea motifs, or a beautiful view of space. Furthermore, it comes with 15 preset melodies and sounds. For all preferences!

**Infinite possibilities for music and sounds**

As well as the preset sounds it is possible for any melody to be played back thanks to its audio connector. This can be used to connect the projector to a computer, a mobile phone, etc. to make the little one enjoy any melody or sound without limitations.

**Independent and combinable sound and projection**

dreamcube adapts to the needs of each baby and parent. Melodies and projections can be used combined or independently, so that the baby can enjoy only the projection, the music or the combination of both as desired.

**Connect it to the mains supply or use it on battery power**

dreamcube can be used connected to the mains supply, allowing the parents not to have to worry about the projector's operational time or with batteries if they prefer to avoid the use of cables.

SILICON NIGHT LIGHT PLAYING RELAXING SOUNDS

	Soft and soft to the touch		Rainbow night light
	Timer (30 min)		Sounds designed for the baby
	3 fixed colors		Safe

## Soft and smooth to the touch

Made of silicon, highly flexible and easy for little hands to grip since it is smooth and soft to the touch.

## A relaxing sound to encourage sleep

It plays five sounds that help baby relax and sleep.

## A light your baby chooses

The color of the light can be selected to your baby's preference: you can choose between soft white light, intense white light, changing rainbow light, or a single color. The different light modes are activated by pressure or soft tapping.

## Sleep peacefully

This night light can remain on throughout the night to keep your baby feeling safe thanks to its long-life rechargeable battery, or it can turn off automatically after 30 minutes.

NIGHTLIGHT WITH FRIENDLY SHEEP SHAPE

Autonomy: 16 hours fixed mode and 8 hours rainbow mode

Rainbow night light

Timer (30 min)

Safe

3 fixed colors

### The light the baby loves

The colour of the light can be selected, choosing between a fixed red, blue or green light or a changing rainbow light.

### In total safety

night sheep works with a cold LED light. That way, sheep is never hot to the touch. In addition, it complies with all toy safety standards.

### Sleep peacefully

The little sheep can stay on all night long or be turned off automatically 30 minutes after being turned on. The baby will always have company.

### Light all night

night sheep will stay on all night, its operating time with its battery totally charged is 8 hours in rainbow mode and 16 hours with a fixed light.

### Very easy to charge on its base

night sheep has a base from which to load the nightlight the most simple and convenient way. In addition, the LED charge indicator will illuminate red during the process and green after charging.

### Top-quality, phthalate-free PVC

The night sheep night light is very long-lasting. It has a soft surface which is pleasant for the baby. It is made of soft, phthalate-free PVC.

## natural sleeper 89261

CREATES THE PERFECT ENVIRONMENT FOR THE BABY'S SLEEP IN THE MOST NATURAL WAY

	Natural sound		Essence included
	Rainbow night light		Auto power off (1 hour)
	7 fixed colours		Easy cleaning
	Touch button		

### Multi-sensory stimulation of the baby and... quiet nights!

Thanks to its triple functionality of sound generation, colored lights and aromas, natural sleeper stimulates the senses of hearing, sight and smell of the baby simultaneously, to enhance the beginning and depth of sleep in a natural way, in a placid atmosphere of calm.

### The ideal sound for the baby

The natural sound programmed in natural sleeper is specially designed to calm the baby, inducing a relaxed and deep sleep. In addition, it helps to mask any ambient sound that may awake the little one: life is noisy, but it doesn't have to disturb the baby!

### Aromatherapy: today and always

The benefits of aromatherapy are widely demonstrated, and are based on certain scents that help the baby have greater psychic and physical strength, besides helping balance their energy and feel good inside. Hence, natural sleeper vaporizes cold mist using ultrasonic vibrations, gently dispersing natural fragrances in the baby's room, creating an atmosphere of peace, transmitting a sense of well-being and helping to relax, both to fall asleep as well as to favor the induction of deep sleep.

### The light the baby loves

Parents can choose between multicolored or fixed light mode, creating the perfect environment for the baby, stimulating the secretion of melatonin, which will help the little one achieve a deep, peaceful and serene sleep. In addition, the nightlight, which helps babies feel safe at night, is cold to the touch.

### Independent and combinable sound, light and aroma, in a very simple way

natural sleeper adapts to the needs of each baby and the parents, since it incorporates four modes of operation that are activated through its touch button, allowing sound, light and aroma to be used combined or independently.

### With auto-off and automatic disconnection

natural sleeper stays on for an hour to ensure that the baby falls asleep and then turns off automatically. In addition, if the water in the tank runs out during its use, the device will be disconnected.

We support you along the way with any enquiry you might have

#### After-sales service

The after-sales service of Miniland is one of our added values and a fundamental part of our business strategy.

We offer support tailored to the end users, quickly responding to any enquiry or incident, thus releasing our points of sales from these procedures.

For this reason, we request that if any client requires our after-sales service, they be encouraged to get in touch with us directly.

**After-sales service +34 966 557 775**  
**tecnico@miniland.es**  
**Monday to Friday from 9 a.m. to 2 p.m.**

**Note:** Direct after-sales service is only guaranteed within the Peninsula and Balearic Islands. Other users will have to contact their local distributor.

#### Customer care service

We advise our clients in a personalised way about all of our products and services.

Our team's manner will always be intimate, agile, and suited to the needs of each client as their orders are processed and any questions that may arise answered.

**Customer care +34 96 556 49 50**  
**ventas@miniland.es**  
**Monday to Thursday from 9 a.m. to 1 p.m. and from 3 p.m. to 6 p.m.**  
**Fridays from 9 a.m. to 2 p.m.**
