## **Annex A – List of products (GPSD)**

(Article 1 of the Directive 2001/95/EC, on General Product Safety)

No	Product	Commercial name	Catalogue reference number	Short description and intended use
1	<b>NapUp</b>	<b>NapUP</b>		A soft head support device, which stops the child's head from bobbing when they fall asleep on the go. It easily connects to any front –facing car seat and high back booster. NapUp is made of two parts, the headrest that is attached to the car seat or high back booster and a forehead strap which connects to the headrest with high quality Velcro. The head strap easily goes from the up position to the down position, fits any head size, makes gentle contact with the forehead as it begins to fall and is non-restrictive.
2	<b>RIDE</b>	<b>NapUp RIDE</b>		A soft head support device, which stops the head from flopping when napping in the car. The product easily fits on the car headrest, and is portable and lightweight. NapUp ride is made of two parts, the soft, elasticized head support that covers the built in head rest in the car, and a forehead strap that connects to the head support with high quality Velcro. The head strap easily goes from the up position to the down position, fits any head size, makes gentle contact with the forehead as it begins to fall and is non-restrictive.

\*The here above product list classification is based on the classification claim of the manufacturer and under its sole responsibility (GPSD 2001/95/EC, article 1)
