- EN** In the first few months, your baby's vision is still developing and objects need to be clear and close to her to see them properly. The koala and sloth's large, contrasting eyes and the eucalyptus mobile's black and white interior are especially appropriate for stimulating your little one's eyesight at this stage.
- FR** Au cours des premiers mois, la vision de Bébé continue à se développer et, pour voir correctement les objets, il faut qu'ils soient nets et près de son visage. Les grands yeux contrastés du koala et du paresseux et l'intérieur noir et blanc du mobile eucalyptus sont particulièrement appropriés pour stimuler la vision de votre petit à ce stade.
- ES** Durante los primeros meses, la visión de tu bebé aún está en desarrollo y los objetos deben ser nítidos y cercanos para que ella pueda verlos correctamente. Los ojos grandes y contrastantes del koala y el perezoso, y el interior blanco y negro del móvil en forma de hojas de eucalipto están apropiados especialmente para estimular la vista de tu pequeño en esta etapa.

- EN Tummy time helps strengthen babies' back, shoulder and arm muscles, and it's never too early to start practicing. On the mat, you will find various activities that we have developed in order to support tummy time. Our fun features distract your little trooper from the effort of holding the position, helping him stay in it a little longer. For example, place your little one in front of the mirror on his tummy and let him explore his reflection.
- FR Le tummy time aide à renforcer les muscles du dos, des épaules et des bras des bébés, et il n'est jamais trop tôt pour commencer à s'entraîner. Sur le tapis, vous trouverez diverses activités que nous avons développées pour aider Bébé à passer agréablement du temps à plat ventre. Nos activités amusantes distraieront votre petit. Ainsi, il pourra rester un peu plus longtemps en position ventrale. Placez par exemple votre petit devant le miroir et laissez-le explorer son reflet.
- ES Durante los primeros meses, la visión de tu bebé aún está en desarrollo y los objetos deben ser nítidos y cercanos para que ella pueda verlos correctamente. Los ojos grandes y contrastantes del koala y el perezoso, y el interior blanco y negro del móvil en forma de hojas de eucalipto están apropiados especialmente para estimular la vista de tu pequeño en esta etapa.

The Gymini's natural wood gripping rings, crinkly plant, textured eucalyptus leaves and other elements will enrich your baby's tactile experience and help her try out different ways of grasping objects.

FR Présenter à Bébé différentes textures permet de stimuler ses sens et de favoriser le développement de sa motricité fine. Les anneaux de préhension en bois naturel du Gymini, la plante bruissante, les feuilles d'eucalyptus texturées et d'autres éléments enrichiront l'expérience tactile de Bébé et l'aideront à essayer différentes manières de saisir des objets.

EN As your baby grows, his muscles become stronger, and his motor skills improve. Gradually, his unintentional hitting attempts evolve into an intentional movement of his limbs. The giant leaf's fun rattling sound encourages him to kick it again and again, strengthening muscles and improving skills.

FR À mesure que votre bébé grandit, ses muscles se renforcent et ses capacités motrices s'améliorent. Progressivement, ses tentatives involontaires se transforment en mouvements intentionnels. Le bruit amusant du hochet de la feuille géante l'encourage à renouveler ses coups de pied, ce qui renforce ses muscles et améliore ses compétences.

ES A medida que tu bebé crece, sus músculos se fortalecen y sus habilidades motoras mejoran. Gradualmente, los golpecitos involuntarios se transforman en movimientos intencionales de sus extremidades. El divertido ruido de sonajero de la hoja gigante lo estimula a patearla una y otra vez, fortaleciendo sus músculos y mejorando sus habilidades.

EN The Gymini's musical sloth doll offers your baby an excellent opportunity to further her understanding of cause and effect. Tapping the toy and attempting to prompt the musical feedback supports this cognitive understanding, which gradually helps her realize that she has the power to make things happen.

FR Le paresseux musical du Gymini offre à Bébé une excellente occasion d'approfondir sa compréhension du phénomène de cause à effet. En tapant sur le jouet et en essayant de déclencher la musique en retour, il renforce sa compréhension cognitive, ce qui l'aide à réaliser progressivement qu'il a le pouvoir de faire se produire des choses.

ES El muñeco perezoso musical del Gymini le proporciona a tu bebé una excelente oportunidad para comprender la relación entre causa y efecto. Los golpecitos al juguete y el intento de generar el sonido musical sirven de apoyo para la comprensión cognitiva, la cual gradualmente la ayudará a notar que tiene la capacidad de hacer que las cosas sucedan.

- EN** Playing peek-a-boo is more than just fun – it gradually helps your little one understand the idea of object permanence (namely, the idea that something is still there even if you can't see it!). The mat's giant crinkly leaf hides soft satin ribbons that will encourage your baby to play peek-a-boo time and again.
- FR** Jouer à cache-cache n'est pas seulement amusant : cela aide progressivement Bébét à comprendre l'idée de la permanence des objets (un objet est là même quand on ne le voit pas !). La feuille géante et bruisante du tapis d'éveil cache des doux rubans de satin qui encourageront Bébét à jouer sans fin.
- ES** Jugar al escondite es más que una simple diversión – ayuda a tu pequeño a entender gradualmente la idea de la permanencia del objeto (o sea, ¡la idea de que algo sigue allí aunque no puedas verlo!). - EN** Many babies are already on the move at this stage, though some may still be training to prepare for this major milestone. To support your baby's crawling efforts, detach the toys from the wooden arch and place them just out of his reach to tempt him to move forward. This will encourage your little one to set out on his mobile adventure.
- FR** Nombreux sont les bébés qui se déplacent déjà à ce stade, même si certains sont encore en train de s'entraîner pour se préparer à cette étape importante. Pour accompagner Bébé dans ses efforts pour ramper, détachez les jouets de l'arche en bois et placez-les presque à sa portée pour l'encourager à avancer. Cela l'incitera à se lancer dans cette nouvelle aventure.
- ES** Muchos bebés ya gatean en esta etapa, aunque hay algunos que aún están ensayando para prepararse para este hito significativo. Para apoyar a los esfuerzos que el bebé realiza para gatear, descuelga los juguetes del arco de madera y colócalos fuera de su alcance para incitarlo a moverse hacia adelante. Esto alentará a tu pequeño a comenzar su aventura de movimiento.

EN At 9 months, many babies are already crawling confidently and their motor skills are well developed. Encourage your little one's natural interest in exploring her surroundings through touch, speech, or eye contact. This will turn her into a keen little explorer who enjoys the process of exploration itself, which will later help cope with the frustrations that come with growing.

FR À 9 mois, de nombreux bébés rampent déjà avec confiance et leurs capacités motrices sont bien développées. Encouragez l'intérêt naturel de votre petit pour la découverte de son environnement par le toucher, la parole ou le contact visuel. Cela fera de lui un petit explorateur passionné qui appréciera la démarche exploratoire elle-même, ce qui l'aidera plus tard à faire face aux frustrations qu'il connaîtra en grandissant.

ES A la edad de 9 meses, muchos bebés ya gatean con seguridad y sus habilidades motoras están bien desarrolladas. Alienta el interés natural de tu pequeña de explorar su entorno mediante el tacto, el habla o el contacto visual. Esto la transformará en una pequeña exploradora entusiasta que disfruta del proceso de exploración, que más adelante la ayudará a sobrellevar las frustraciones que forman parte del crecimiento.

EN It may be hard to believe, but baby's first word is just around the corner! Support your baby through the wondrous process of learning how to talk by chatting, and reading or telling stories. Try making up a story using the Gymini's dolls and features. Involving physical objects will help your little one grasp the meaning of the words he hears more easily.

FR Difficile à croire, mais Bébé va bientôt prononcer son premier mot ! Aidez-le dans l'apprentissage de la parole en bavardant avec lui, en lui lisant ou en lui racontant des histoires. Essayez d'en inventer une en vous servant des personnages et des éléments du Gymini. L'utilisation d'objets réels aidera votre enfant à saisir plus facilement le sens des mots qu'il entend.

ES ¡Aunque quizás parezca difícil de creer, ya falta muy poco para que tu bebé pronuncie su primera palabra! Apoya a tu pequeño a lo largo del maravilloso proceso de aprender a hablar, conversando y leyendo, o contándole cuentos.
